

**Equilibra la
producción / consumo**

**Elabora la programación
de los generadores**

An illustration of an electric control center. Three operators are seated at a long desk with multiple computer monitors. Behind them is a large wall-mounted screen displaying a complex network diagram of power lines and nodes. A digital clock in the top left corner shows '17:23' and 'ENERO 2006'. A small icon of a person is visible on the right side of the screen. The background is a solid yellow color.

Centro de control eléctrico
(Operación en tiempo real)
