

GOVERNING ENERGY: THE ATLANTIC BASIN AND GLOBAL INSTITUTIONS

Annual Event of the Spanish Committee
of the World Energy Council

Organized by:

Sponsored by:

With the collaboration of:

The Spanish Committee of the World Energy Council (Comité Español del Consejo Mundial de la Energía, CECME) is to celebrate a new edition of its now traditional Annual Conference under the title: "Governing Energy: the Atlantic Basin and Global Institutions". The event will be held on November 19th at the Auditorium of the Repsol Campus in Madrid.

This meeting is known for its dynamic format and strong international slant and is being organized by CECME and the Spanish Energy Club (Enerclub), with the valuable support of Real Instituto Elcano (RIE) and Repsol's sponsorship.

The conference will tackle a wide range of different subjects, all of which need to be analyzed from a global and multidisciplinary perspective. To this end, top panelists - coming from both Spanish and international institutions of recognized prestige, not only in the energy sector but also in the economic, political, and social fields - will participate in the different sessions. Moreover, the leaders of the member companies of CECME will also share their thoughts during the debate.

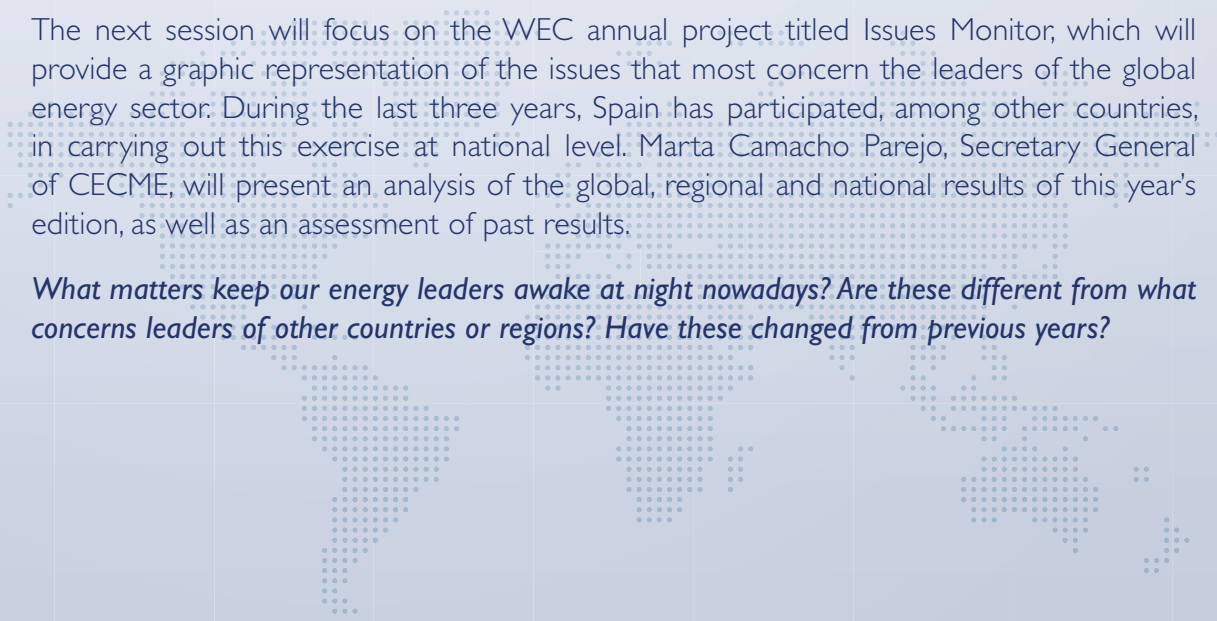

In the **Opening Session**, we will have the pleasure of welcoming Alberto Nadal Belda, the Secretary of State for Energy (Ministry of Industry, Energy and Tourism), and also Josu Jon Imaz, Chief Executive Officer of Repsol, Emilio Lamo de Espinosa and Pedro Miró, Presidents of RIE and Enerclub respectively.

During the **Plenary Session**, Carlos Pascual, Former Coordinator for International Energy Affairs (State Department) and Senior Vice President (IHS), will stage a debate with the Chair of CECME, Arturo Gonzalo Aizpiri, and comment on the mayor challenges of the international agenda.

Monographic Session I: Spain in the World Energy Issues Monitor

The next session will focus on the WEC annual project titled Issues Monitor, which will provide a graphic representation of the issues that most concern the leaders of the global energy sector. During the last three years, Spain has participated, among other countries, in carrying out this exercise at national level. Marta Camacho Parejo, Secretary General of CECME, will present an analysis of the global, regional and national results of this year's edition, as well as an assessment of past results.

What matters keep our energy leaders awake at night nowadays? Are these different from what concerns leaders of other countries or regions? Have these changed from previous years?

Round Table 1: Energy and the Atlantic Basin

The Atlantic Basin is emerging as a new axial region for the geopolitics of energy: new producers and resources, rising demand and divergent energy policies are marking out new economic and political landscapes, both regionally and globally. For Europe (and especially for Spain, which has experienced a strong “Atlantization” of its hydrocarbon imports in recent years), the Atlantic Basin offers strong potential for diversifying supplies and markets, while also helping to counterbalance the pull that Asia has on America. It also provides a matrix of different risks between regions and countries.

What is the energy potential of the Atlantic Basin? Could an integrated energy governance be consolidated within the Atlantic Basin? What are the main factors shaping its evolution? What trends can be perceived within the different component regions?

Round Table 2: Governance of energy institutions

Energy has become a key element of global governance: from climate change to cooperation in subsidies policies, and embracing also the best possible governance of energy resources. On the global stage, existing mechanisms for coordinating energy policies are clearly not up to the task. In Europe, the “Energy Union” is attempting to offset the existing fragmented and outdated energy governance system while developing a single market in the true sense and establishing a common European stance on relation to global and regional energy governance.

Who governs energy nowadays? What role do international organizations play? How do we encourage cooperation in a fragmented global energy scenario? What should the EU's contribution be? Is the Energy Union really the response that Europe needs?

Monographic Session 2 - COP 21: State of the art

COP 21, 2015 United Nations Climate Change Conference, is due to start in Paris on November 30th, just 10 days after the CECME event. This is a crucial date, as the aim is to reach a new international agreement on climate applicable to all countries, with the ultimate goal of keeping the planet's global warming below 2°C. Valvanera Ulargui, General Director of the Climate Change Spanish Office (Ministry of Agriculture, Food and Environment), will present the state of the art of the negotiations and what Spain hopes they will lead to.

Why is COP21 at Paris so important? Have all countries shown their hand? What are the main challenges that must be faced during the negotiations in order to reach agreement? Is there a plan B?

Finally, the **Closing Ceremony** will include the presence of Rafael Estrella, Vicepresident of RIE, and the Chair of CECME.

November 19th 2015

PROGRAMME

9:00

ATTENDANCE REGISTRATION

9:30

OPENING SESSION

Josu Jon Imaz San Miguel

Chief Executive Officer
REPSOL

Emilio Lamo de Espinosa

Chairman
REAL INSTITUTO ELCANO

Pedro Miró Roig

President
SPANISH ENERGY CLUB

Alberto Nadal Belda

Secretary of State for Energy
Ministry of Industry, Energy and Tourism
GOVERNMENT OF SPAIN

10:00

PLENARY SESSION:

Carlos Pascual

Former Coordinator for International Energy Affairs
STATE DEPARTMENT
Senior Vice President
IHS

Arturo Gonzalo Aizpiri

Chair
SPANISH COMMITTEE OF THE WORLD
ENERGY COUNCIL

10:30

MONOGRAPHIC SESSION I SPAIN IN THE WORLD ENERGY ISSUES MONITOR 2016

Marta Camacho Parejo

Secretary General
SPANISH COMMITTEE OF THE WORLD
ENERGY COUNCIL

11:00 COFFEE BREAK

11:30

ROUND TABLE I – ENERGY AND THE ATLANTIC BASIN

Moderator

Jorge Dezcallar de Mazarredo

Ambassador of Spain
Former Ambassador to the USA

Speakers

Paul Isbell

CAF Energy Fellow
CENTER FOR TRANSATLANTIC RELATIONS
AT JOHNS HOPKINS UNIVERSITY-SAIS

Jorge Ciacciarelli

Secretary General
ARPEL

Steve Thorne

Founder
SOUTHSOUTHNORTH AFRICA

Front Row Participants

Federico Molina Félix

Refining Director
CEPSA GROUP

María Sicilia Salvadores

Director of International Strategy
ENAGAS

November 19th 2015

PROGRAMME

José Manuel Goyeneche Silvela
Head of Gas Iberia
ENDESA

José María Egea Krauel
Managing Director of Energy Planning
GAS NATURAL FENOSA

Josu Jon Imaz San Miguel
Chief Executive Officer
REPSOL

13:15 DEBATE

13:30 COCKTAIL

14:30

ROUND TABLE 2 – GOVERNANCE OF ENERGY INSTITUTIONS

Moderator:

Gonzalo Escribano Francés
Director Energy Programme
REAL INSTITUTO ELCANO

Speakers:

Maria van der Hoeven
Senior Associate Fellow
CLINGENDAEL ENERGY INSTITUTE
Member of Board of Trustees
ROCKY MOUNTAIN INSTITUTE

Kirsten Westphal
Senior Associate
GERMAN INSTITUTE FOR INTERNATIONAL
AND SECURITY AFFAIRS

Georg Zachmann
Responsible for Energy & Climate Policy
BRUEGEL

Front Row Participants

Carlos Sallé Alonso
Director of Energy Policies
IBERDROLA

Daniel F. Fuster Carrillo
Division Lead Power and Gas
SIEMENS ESPAÑA

Eduardo Montes Pérez del Real
President
UNESA

Emilio Ortega Jiménez
Head of Electricity and Gas Regulation
VIESGO

16:15 DEBATE

16:30

MONOGRAPHIC SESSION 2 COP 21: STATE OF THE ART

Valvanera Ulargui Aparicio
Director General, Spanish Climate Change Office
Ministry of Agriculture, Food and Environment
GOVERNMENT OF SPAIN

17:00

CONCLUSIONS & CLOSING CEREMONY

Rafael Estrella Pedrola
Vicepresident
REAL INSTITUTO ELCANO

Arturo Gonzalo Aizpiri
Chair
SPANISH COMMITTEE OF THE WORLD ENERGY
COUNCIL

17:15

END OF THE EVENT
