Financial results

January - June 2014

Profit for the first six months of 2014 rose 6.6% year-on-year to €290.0 million

EBITDA was 7.7% higher year-on-year, at €694.7 million.

The Red Eléctrica Group invested a total of €249.0 million, of which €230.1 was earmarked for developing the national transmission grid.

These results enable Red Eléctrica to confirm that it is on the right track to meet the objective set at the start of the year to achieve an increase in profits of between 4% and 5% in 2014.

2. Earnings performance

Revenue for the first six months of 2014 amounted to €926.5 million, up 8.2% year-on-year. Transmission revenue in Spain was up 6.4% on June 2013, and includes income from facilities commissioned in 2013. Income from the provision of system operation services amounted to €28.0 million, up 40.7% on the previous year in accordance with the system operator remuneration set out in the 2014 Tariff Order. In addition, the results for the first half of the year include consolidation effects relating to Redesur and the enhanced scope of investment by Transmisora Eléctrica del Sur, S.A.

Turning to operating expenses.

- **Costs of supplies and other operating expenses** increased by 8.8% in the first half of the year, due equally to increased maintenance activity on the transmission grid and the increased scope of investment in Transmisora Eléctrica del Sur, S.A.
- **Personnel expenses** rose by 4.4% compared with the same period in the previous year.

The **final headcount** was 1,742 employees at 30 June 2014, while the average headcount was 1,745 employees, up 2.1% on the first six months of 2013.

Our **gross operating result (EBITDA)** was €694.7 million, up 7.7% year-on-year, with an EBITDA margin over turnover similar to that in the first six months of 2013. However, this margin would stand at 75.9% if we excluded investment in Transmisora Eléctrica del Sur, S.A.

Operating expenses

(in thousands of euros)	January - June		
	2014	2013	Δ %
Supplies and other operating expenses	178,176	163,789	8.8
Personnel expenses	65,176	62,411	4.4
Operating expenses	243,352	226,200	7.6

The **Net Operating Result (EBIT)** stood at €485.3 million, up 9.0% year-on-year, due to a 4.3% increase in amortisation and depreciation of non-current assets, which was lower than the increase in EBITDA.

The **net financial result** in like-for-like terms stood at -€70.4 million, compared to -€83.2 million in the same period of the previous year. This improvement is mainly due to a reduction in finance costs as a result of a lower average gross debt balance and a reduction in the average interest rate. The 2013 financial result included €3.2 million from valuing our existing stake in Redesur at fair value.

Finally, **profit for the period** rose 6.6% compared to the same period of 2013. The effective tax rate was 30.0%. The tax rate in the first half of 2013 was 24.9%, mainly due to the application of Law 16/2012, which permitted an asset revaluation.

3. Cash flow and balance sheet performance

Cash flows

(in thousands of euros)	January - June		
	2014	2013	Δ %
Profit before taxes	414,902	362,274	14.5
Taxes paid on earnings	(56,731)	(48,706)	16.5

Dividends paid	(97,867)	(91,216)	7.3
Variation in net financial debt (2)	290,435	(254,645)	-

(1) In the first half of 2013, this includes temporary financial investment with maturities of more than 3 months at the time contracts were drawn up, in the amount of €124.8 million.

(2) The difference between this figure and the change in Net Financial Debt shown on page 2 is due to items that do not involve cash movements.

Operating cash flow after taxes amounted to €563.1 million, a 9.9% increase on the same period in the previous year.

Working capital was down €320.2 million, mainly due to factors at the end of 2013, which included payment of a pending VAT payment and the settlement for December, as explained in previous communications. Meanwhile, changes to other non-current items and suppliers of property, plant and equipment resulted in negative cash flow of €186.5 million, due mainly to increased payments to suppliers of PP&E.

Group investment in the first half of 2014 totalled €249.0 million, up 8.4% compared to the same period in 2013, with investment in developing the Spanish transmission grid accounting for €230.1 million of the total.

The **interim dividend paid out** in the first half of 2014 amounted to €97.9 million, equivalent to the €0.7237 per share on the interim dividend for 2013.

As a result, **net financial debt** increased by €290.4 million to €4,833.2 million at 30 June 2014, in line with our forecasts, compared to €4,541.2 million at 31 December 2013.

Total net financial debt	4,782,564	50,607	4,833,171

84% of the Group's net debt is fixed rate and the remaining 16% is floating rate.

In the first six months of 2014, the average cost of Group debt was 3.61%. Average gross debt stood at €4,834.7 million. In the same period in the previous year, the average cost of debt was 3.94% and the average gross debt was €5,199.2 million.

At 30 June 2014, the Red Eléctrica's Group's equity totalled €2,262.4 million, up €37.8 million compared to year-end 2013, mainly due to earnings in the first six months of the year.

4. Relevant events during the quarter

- On 24 June 2014, the ratings agency Standard & Poor's raised its outlook for Red Eléctrica from Neutral to Positive. This was the result of the recent improvement in the rating for Spain. As a result, Red Eléctrica Corporación, S.A. and its subsidiary Red Eléctrica de España, S.A.U. have kept their **long-term rating at 'BBB' and their short-term rating at 'A-2'**, with the outlook upgraded from neutral to **positive**.
- On 16 June, Red Eléctrica Corporación, S.A., through its subsidiary Red Eléctrica Financiaciones, S.A.U., carried out a **€300 million euromarket bond issue**, with a maturity of 9 years. The bond issue has an annual coupon of 2.125% and was priced at 99.587%, equating to a yield of 2.176%. This issue took advantage of favourable conditions in the debt markets. The long maturity of the bonds means that they will contribute value to the company in both the current and the following regulatory periods.
- On 6 June, the Council of Ministers amended a number of specific aspects of the Electricity Transmission Grid Development Plan, including **additional investment** estimated at **€917.5 million**. This investment includes submarine links between the peninsula and Ceuta; between Ibiza and Formentera; between Lanzarote and Fuerteventura; and between Tenerife and La Gomera.
- In Peru, the 220 kV Tintaya – Socabaya line and substations associated came into **commercial operation** on 1 June 2014, as part of the concession awarded to **Transmisora Eléctrica del Sur, S.A.** in September 2010. The facilities were commissioned successfully in accordance with the schedule agreed with the Peruvian government and regulator. Transmisora Eléctrica del Sur has now started the operational phase of the concession, which will run for 30 years.

- The **10th Collective Bargaining Agreement** came into effect on 1 May and will run for 5 years, with the agreement of all union representatives. This new agreement is built around productivity, improving flexibility and sustainability. Salary increases are **now totally independent of inflation** and based exclusively on productivity criteria.
