The Annual Corporate Governance Report (also known as "ACGR") for fiscal year 2011⁽¹⁾ of RED ELÉCTRICA CORPORACIÓN, S.A. (hereinafter also referred to as RED ELÉCTRICA or the Company) has been structured into a main body comprising three Titles, divided into Chapters.

The Titles refer to the legal framework applicable to RED ELÉCTRICA (Title I), to the main corporate governance aspects and principles at RED ELÉCTRICA (Title II) and to the year 2011 at RED ELÉCTRICA (Title III).

In addition, two Official Annexes are included: Annex 1 relating to the ACGR format established by Circular 4/2007, of December 27, 2007, of the Spanish National Securities Market Commission (the "CNMV"), and Annex 2 on additional information under Article 61. bis of Securities Market Law 24/1988, of July 28, 1988 (the "LMV"), which was prepared following the instructions notified by the CNMV to listed corporations in December 2011.

(1) Unless another date is expressly indicated in this report, its contents are deemed to refer to December 31, 2011.

TITLE I: Legal Framework Applicable to Red Eléctrica

Chapter I. External Framework

The Board of Directors of RED ELÉCTRICA CORPORACIÓN, S.A. has been complying each year in its capacity as a corporation, in accordance with the requirements of the applicable legislation – Article 116 of the Securities Market Law (the "LMV") introduced by Law 26/2003, known as the Transparency Law – and of its Board Regulations – Article 38 thereof – with the obligation to prepare and approve an ACGR, which is notified to the CNMV as a material event and published on the Company's website, and which is attached as an Annex to the Company's annual management report.

The recent change in the regulating framework in this area, approved in 2011, has ratified both the obligation of companies to annually approve an ACGR – Article 61 bis of the Securities Market Law, introduced by Final Provision Five of Sustainable Economy Law 2/2011, of March 4, 2011 (the "LES") – and the obligation of incorporating the ACGR into the management report, in a separate section – Article 538 of Corporate Enterprises Law (the "LSC"), approved by Legislative Royal Decree 1/2010, of July 2, 2010, as amended by Law 25/2011, of August 1, 2011.

The new legal rules have regulated with precision the minimum content of the future ACGR, incorporating new features compared with the previous ACGR format the structure and minimum content of which are regulated by Ministerial Order ECO 3722/2003, of December 26, 2003, and by Circulars 1/2004 and 4/2007, of December 27, 2007, of the CNMV.

The two official Annexes to this ACGR are based on the above legislation.

On the date of approval of this ACGR, the regulations implementing the new Article 61 bis LMV had yet to be published, a circumstance which is expected to take place in 2012.

The legal framework that affects the different aspects of the corporate governance of Spanish corporations has been subject to numerous changes in the past two years, which has led to the immediate modification of the main internal rules of the Company in order to adapt them to the new legislation.

The most important legal rules in the area of corporate governance approved during 2010 and 2011 have been the following:

- ◆ Law 12/2010, of June 30, 2010, reforming, among others, the Audit Law, the Securities Market Law, and the Revised Corporations Law (now repealed by the Corporate Enterprises Law). This Law, which entered into force on July 2, 2010, transposes Directive 2006/43/EC of the European Parliament and of the Council of May 17, 2006 on statutory audits of annual accounts and consolidated accounts into Spanish law, and essentially affects the composition, structure and functions of the Audit Committee.
- ◆ Legislative Royal Decree 1/2010, of July 2, 2010, approving the Revised Corporate Enterprises Law and repealing, among others, the former Corporations Law and Title X (Articles 111 to 117) of the Securities Market Law, relating to listed companies (save for Articles 114.2 and 114.3, and Articles 116 and 116 bis, which have also been subsequently repealed by Sustainable Economy Law 2/2011, of March 4, 2011).
- ◆ Sustainable Economy Law 2/2011, of March 4, 2011, which in its Subprovision 3 of Final Provision Five adds a new chapter VI in title IV of the Securities Market Law which includes Articles 61 bis and 61 ter, which expanded the minimum content of the Annual Corporate Governance Report and established the obligation of the Board of Directors to prepare an Annual Report on Directors' Compensation.
- ◆ Law 25/2011, of August 1, 2011, partially reforming the Corporate Enterprises Law and incorporating Directive 2007/36/EC, of the European Parliament and of the Council of July 11, 2007, on the exercise of

certain rights of shareholders in listed companies. Although the title of the Law only refers to a partial reform of the Corporate Enterprises Law, it also amends provisions of the Securities Market Law and of Law 3/2009, of April 3, 2009, on structural modifications to commercial companies. This Law, which entered into force on October 2, 2011, has introduced, among others, the following new features in the area of corporate governance:

- It establishes measures aimed at reducing the organizational and operating costs of corporate enterprises.
- It eliminates differences between a corporation (S.A.) and a limited liability company (S.L.).
- It introduces the possibility of meetings of the Board of Directors being called by at least one-third of its members if, after a request to the chairman, the latter has not called the meeting within one month.
- It clarifies the rules on infringements and penalties for breaching treasury stock obligations and for violating statutory prohibitions in this connection, establishing a very broad scope of punishable conduct.
- It introduces a new Article 11 bis in the Corporate Enterprises Law which regulates the electronic headquarters or corporate website. Of particular note in this Article are the provisions regulating the creation of the corporate website, establishing for this purpose that the website must be resolved on by the Shareholders' Meeting and such resolution must be registered at the Commercial Registry or notified to all of the shareholders.
- It repeals Article 289 of the Corporate Enterprises Law which required disclosure on the website/newspapers of the following bylaw amendments:
 - ♦ Company name.
 - ♦ Corporate purpose.
 - ♦ Registered office.
- It overhauls the rules on call notices and the right to information in relation to Shareholders' Meetings of corporations.
- It incorporates some new features in the rules on listed corporations, mainly in the following areas:
 - ♦ In the information that the company's website must contain.
 - ♦ In some aspects relating to the outcome of votes.
 - ♦ In the shareholders' right to information.
 - ♦ In matters relating to the representation by proxy of shareholders at Shareholders' Meetings.
 - ♦ In the dealings between the financial intermediary and its clients for the purposes of casting votes.

Chapter II. Internal Framework

The internal rules by which Red Eléctrica Corporación, S.A. is governed are subject to continuous modification in order to incorporate corporate governance best practices into the Company and to achieve greater transparency in the information provided to investors.

By way of a summary of the main changes in the area of corporate governance that have taken place in the Company's internal rules in the past 5 years, in 2007, on a voluntary basis and before it was legally required, the Corporate Bylaws, Shareholders' Meeting Regulations and Board Regulations were adapted to the recommendations contained in the Unified Code of Recommendations for the Good Governance of Listed Companies (the "Conthe Code"), approved on May 19, 2006 by the Special Working Group advising the CNMV on the harmonization and update of the Olivencia and Aldama Report recommendations for the good governance of listed companies.

Further amendments were made to the Corporate Bylaws and Shareholders' Meeting Regulations in 2008 in order to adapt them to Law 17/21007, of July 4, 2007.

Continuing with such policy, in 2009 the Internal Code of Conduct on the Securities Market was modified, and in 2010, the Board of Directors, in a meeting held on January 28, approved a new version of the Board Regulations to adapt them to the corporate restructuring carried out in 2008 by the Red Eléctrica Group and to the aforementioned new version of the Internal Code of Conduct on the Securities Market. In May 2010, the Shareholders' Meeting approved an amendment of the Bylaws in relation to the shareholders' preemptive subscription right, to adapt them to Law 3/2009, of April 3, 2009.

In 2011, the Shareholders' Meeting of April 13, 2011, approved an amendment of the Corporate Bylaws and the Shareholders' Meeting Regulations in order to adapt them to the new legal requirements established in Law 12/2010, of June 30, 2010 (basically affecting the composition, structure and functions of the Audit Committee) and Legislative Royal Decree 1/2010, of July 2, 2010, approving the Revised Corporate Enterprises Law (fully repealing the Corporations Law and partially repealing the Securities Market Law).

At present, in corporate governance matters the Company is also governed by the internal rules and procedures listed below which, as an internal legal regime, go beyond the applicable statutory requirements.

These rules, as of December 31, 2011, consisted of:

- ◆ The Corporate Bylaws.
- ◆ The Shareholders' Meeting Regulations.
- ◆ The Board Regulations.
- ◆ The Company Chairman Succession Plan.
- ◆ The Internal Code of Conduct on the Securities Market.
- ◆ The Procedure for proxies, voting and information by remote means at the Shareholders' Meeting (relating to the 2011 Annual Shareholders' Meeting).
- ◆ The Code of Ethics.
- ◆ The Operating Rules of the Shareholders' Electronic Forum.

The Corporate Bylaws

The Corporate Bylaws are constantly adapted, not only to the law, but also to best corporate governance practices and principles and have been successively amended for such purpose by the Annual Shareholders' Meeting in recent years. The Annual Shareholders' Meeting held on May 22, 2008 approved an amendment to the Corporate Bylaws, within the framework of the corporate reorganization process, in order to adapt them to the requirements of Law 17/2007 of July 4, 2007 amending Electricity Industry Law 54/1997 of November 27, 1997 to adapt it to the provisions of Directive 2003/54/EC of the European Parliament and of the Council of June 26, 2003 concerning common rules for the internal market in electricity.

In 2010, the Annual Shareholders' Meeting amended Article 9 of the Corporate Bylaws in order to adapt it to Law 3/2009, of April 3, 2009, recognizing the shareholders' preemptive subscription right solely in the case of capital increases with the issue of new shares with a charge to monetary contributions and issues of debentures which are convertible into new shares.

The Annual Shareholders' Meeting held on April 13, 2011 approved another amendment of the Bylaws to adapt them to the new legal requirements established in Law 12/2010, of June 30, 2010, and in Legislative Royal Decree 1/2010, of July 2, approving the Revised Corporate Enterprises Law.

The legislative modifications approved in the area of corporate governance in 2011, in particular, Law 25/2011, of August 1, 2011, have led the Company to initiate a new review of the Bylaws to adapt them to the new legal requirements, a review which will conclude with the approval of a proposal by the Board of Directors, for submission to the next Shareholders' Meeting.

The main new features of the aforementioned Law 25/2011 have been described in Chapter I of this report.

The detailed content of the proposed reform of the Bylaws that is prepared by the Board of Directors, at the proposal of the Corporate Responsibility and Governance Committee, will be made public together with the call notice for the Annual Shareholders' Meeting.

All of the amendments to the Bylaws have been notified to the CNMV and registered at the Commercial Registry.

The Shareholders' Meeting Regulations

The Regulations were approved by the Shareholders' Meeting of July 17, 2003, and amended by the Annual Shareholders' Meeting of May 22, 2008, in order to adapt them to the aforementioned Law 17/2007 of July 4, 2007.

The Shareholders' Meeting Regulations are the legal charter for shareholders of RED ELÉCTRICA, in line with best corporate governance practices, and include all of the new forms of shareholder protection and participation, with a view to recognizing, promoting and strengthening shareholder rights at the Company as far as possible.

The Annual Shareholders' Meeting held on April 13, 2011 approved the modification of the Shareholders' Meeting Regulations, the same as with the Bylaws, to adapt them to the new legal requirements established by Law 12/2010, of June 30, 2010, and by Royal Legislative Decree 1/2010, of July 2, 2010, approving the Revised Corporate Enterprises Law.

Simultaneously with the review of the Bylaws, a process has been initiated to review the Shareholders' Meeting Regulations, to adapt them to the reforms introduced by Law 25/2011, of August 1, 2011, partially reforming the Corporate Enterprises Law, which will conclude with a proposal from the Corporate Responsibility and Governance Committee to the Board of Directors, for submission to the next Shareholders' Meeting.

The detailed content of the proposed reform of the Shareholders' Meeting Regulations that is prepared by the Board of Directors, at the proposal of the Corporate Responsibility and Governance Committee, will be made public together with the call notice for the Annual Shareholders' Meeting.

All of the amendments to the Shareholders' Meeting Regulations approved have been notified to the CNMV and registered at the Commercial Registry.

The Board Regulations

The Board Regulations were approved at the Board meeting held on January 28, 2010, amending the previous text dated December 20, 2007.

As indicated in Article 22 of the Corporate Bylaws, the principal purpose of the Regulations is to establish the basic rules on the organization and functioning of the Board of Directors and its Committees, the rules of conduct for its members and the system of supervision and control of the Board of Directors and its Committees, with a view to ensuring the highest standards of professionalism and efficacy in its actions. All of this is carried out by encouraging the active participation of its members, placing the interests of the Company and of its shareholders above their own interests, while upholding the law, the Corporate Bylaws and corporate governance principles.

In 2011, the Board Regulations were subject to an in-depth view by the Corporate Responsibility and Governance Committee, to adapt them to the legislative modifications approved in 2010 and 2011 and mentioned in Chapter I of this Title, once the Shareholders' Meeting of April 13, 2011 approved the modification of the Corporate Bylaws and the Shareholders' Meeting Regulations to adapt them to Law 12/2010, of June 30, 2010 and to Legislative Royal Decree 1/2010, of July 2, 2010. The Corporate Responsibility and Governance Committee has drawn up a proposed modification of the Board Regulations to be submitted for approval by the Board, following the necessary technical adjustments, once the regulations implementing the new rules governing the ACGR and governing the new Annual Report on Directors' Compensation are published.

The Regulations of the Board of Directors have been notified to the CNMV and registered at the Commercial Registry.

The Company Chairman Succession Plan

The Board meeting held on October 27, 2011 approved the Company Chairman Succession Plan, following an increasingly common corporate governance practice worldwide, whereby listed companies prepare and approve plans governing the succession of their most senior executive or CEO. These plans are aimed at reducing the impact that the handover will have on the organization, by determining a model profile for candidates and ensuring continuity in the corporate business. They also seek to reduce as far as possible the risks and adverse effects that may arise from the appointment of a new chairman, until he or she is

fully integrated into the post. The Company Chairman Succession Plan was approved on the basis of the special conditions present in Red Eléctrica's chief executive, which position is held by the chairman of the Board of Directors, as established by Article 25 of the Corporate Bylaws. The Plan establishes a succession procedure split into several phases, attributing responsibilities to the managing bodies participating in it; all with a view to creating an environment in which the appointment of a new chairman may be carried out in an orderly and efficient manner that does not affect the Company's ordinary operations.

The Internal Code of Conduct on the Securities Market

It was approved by the Board of Directors on June 25, 2009, and replaced the former text approved on July 20, 2006. In a meeting held on June 30, 2011, the Board of Directors approved an update to the Code to adapt it to the Group's new corporate structure, and to include the new name of the Appointments, Compensation and Corporate Governance Committee which is now known as the Corporate Responsibility and Governance Committee.

The update to the Internal Code of Conduct on the Securities Market has been registered at the CNMV.

The procedure for proxies, voting and information by remote means at the Shareholders' Meeting

At a meeting held on February 24, 2011, the Board of Directors approved the rules on voting and proxies by remote means and the exercise of the right to information by electronic means for the Annual Shareholders' Meeting for fiscal year 2010. The use of electronic voting at the Shareholders' Meeting held on April 13, 2011 has, once again, clearly grown, as 664 shareholders holding 208,839 shares exercised their right to vote or delegate their vote electronically. This means that 14% of the 4,788 shareholders present at the Shareholders' Meeting, in person or by proxy, took part in the meeting by telematic means, matching the percentage obtained at the Shareholders' Meeting held on May 20, 2010, compared to 379 shareholders holding 133,711 shares who used it in 2009, and 315 shareholders holding 64,670 shares who used it in 2008.

The Code of Ethics

The Code of Ethics was approved at the Board meeting of July 26, 2007, after an extensive process of public disclosure during which more than one hundred comments were received from all employees of the Group.

The Code reflects the corporate identity and commitments made to the business community and to the various stakeholders affected by the activities of the RED ELÉCTRICA Group. The Code contains the fundamental principles that must guide all members of the Board of Directors, the management bodies and employees of the RED ELÉCTRICA Group and it can also be invoked by stakeholders. Particularly notable is the internal procedure for the management of inquiries and complaints contained in the Code to ensure it is fully complied with. This procedure is already in operation.

The Code was voluntarily prepared by the Company, and has been communicated to all Red Eléctrica Group personnel.

An Ethics Manager has been appointed, tasked with the administration of the system for the detection and handling of breaches and complaints, and the monitoring and development of the Code of Ethics.

Throughout 2009, the Audit Committee closely monitored the implementation of the Company's Code of Ethics, continuing the work begun in this area in 2008.

In addition, the information sessions and presentations begun in 2008 regarding the Code of Ethics were completed in 2009 with the active participation of the Ethics Manager, both at the corporate headquarters and in all regional offices, in order to ensure the appropriate dissemination of the principles and recommendations of the Code, including those relating to the procedure for reporting financial and accounting irregularities, paying particular attention to any questions raised or clarification required.

In June 2009, the Ethics Manager presented the Annual Report on the Management of the Code of Ethics to the Board. This was the first report on the functioning of the Code of Ethics management system and has been assumed by the Company as an obligation, so it will be prepared annually.

The Annual Report on the Management of the Code of Ethics for fiscal year 2010 was approved on July 21, 2011. The Report describes the actions taken by the Company to raise awareness of the scope of the Code of Ethics and of the procedure for managing queries and complaints. Reference is also made to the queries made, the large majority of which related to how the commitments reflected in the Code should be interpreted in specific situations. Mention is also made of the complaints received and handled by the Ethics Manager, as well as their resolution.

To boost ethical and responsible management, a plan has been drawn up known as the Plan to promote ethical management 2010-2012. This Plan highlights the Red Eléctrica Group's goal of pursuing its activity responsibly, by building a solid organizational culture, based on trust and on corporate values.

The Plan develops structures and systems, and implements awareness, training and dissemination projects, all of which will contribute to the consolidation of the Company's culture of ethical management. In 2011, a process was initiated to review and improve the Code of Ethics, which is set to conclude in fiscal year 2012.

Operating Rules of the Shareholders' Electronic Forum

These were approved by the Board of Directors in its meeting of February 24, 2011.

The Shareholders' Electronic Forum set up by Red Eléctrica Corporación, S.A. on its website – www.ree.es – on the occasion of the holding of its Shareholders' Meetings, responds to the need established in the last paragraph of Article 117.2 of Securities Market Law 24/1988, of July 28, 1988, introduced by Law 12/2010, of June 30, 2010, and in Article 528.2 of the Revised Corporate Enterprises Law (the "LSC"), approved by Legislative Royal Decree 1/2010, of July 2, 2010.

The Shareholders' Electronic Forum is aimed at facilitating communication among the Company's shareholders (individuals or legal entities, and any voluntary associations that may be created) on the occasion of the holding of the Company's Shareholders' Meetings. Shareholders have the possibility of sending, for publication on the Forum, communications in accordance with the Law, accompanied by their contact details, thereby enabling shareholders to communicate with each other.

TITLE II:
**Main Corporate
Governance Aspects and
Principles at Red Eléctrica**

Chapter I. Fundamental Corporate Governance Principles at Red Eléctrica

RED ELÉCTRICA's fundamental corporate governance principles are based on the external and internal legal framework described above and on corporate governance best practices established in Spain (the Unified Good Governance Code) and abroad (policies, practices and recommendations set by foreign institutional investors, proxy advisors and international organizations such as the OECD).

There follows a summary of the best practices adopted by the Company, by group, each of which is described at a later stage in greater detail.

The Board of Directors

- ◆ A low number of directors.
- ◆ A participative and proactive board.
- ◆ A percentage of Independent Directors (64%) in excess of the international requirements.
- ◆ A single Executive Director.
- ◆ The essential responsibilities for management of the Company, detailed in Article 5 of the Board Regulations, are expressly reserved for the Board of Directors in plenary session and cannot be delegated.
- ◆ The responsibilities that cannot be delegated cannot be carried out by the Executive Director or the Board Committees.
- ◆ The Board of Directors carries out an annual evaluation of its own operation, of the operation of the Board Committees and of the Board Chairman, and periodically with specialist external advice, as in the current process (KPMG advisory services).
- ◆ In 2011 the Board of Directors approved a Succession Plan for the office of Company Chairman, to ensure, when the time comes, an orderly and well-planned handover that will not adversely affect the corporate interest or the corporate business.
- ◆ The Board of Directors has taken on board the best recommendations on gender diversification. Three Board members (27.27%) are female, placing the Company at the vanguard of the IBEX 35. The Board of Directors prepares and approves an annual report on gender diversification, which this year is available on the Company's website.
- ◆ The Board Chairman is also the Senior Executive (Executive Director) of the Company, by express decision of the Board of Directors and of the Shareholders' Meeting, and pursuant to the Corporate Bylaws.
- ◆ The powers and responsibilities of the Executive Director are limited by:
 - The legal reservation of responsibilities of the Board of Directors that cannot be delegated.
 - The functions and responsibilities attributed to the Board Committees in the Corporate Bylaws and the Regulations of the Board of Directors.
 - The effective control exercised by the Board of Directors, at each monthly meeting, over the ordinary activities of the Executive Director.

The immediate effective control exercised by the Board of Directors, at each monthly meeting, over any extraordinary or urgent measures taken by the Executive Director.

- ◆ A high percentage of attendance and dedication to the exercise of their responsibilities by the Directors.
- ◆ Use of new technologies to facilitate the operation of the Board and provide Directors with information and documentation: the Directors' Portal.

The Board Committees

- ◆ Committees formed by the Board of Directors, with an eminently technical profile, to support it in the performance of its responsibilities, designed to achieve greater efficiency and transparency.
- ◆ Comprising qualified professionals occupying important posts in other institutions and/or companies.
- ◆ Comprising a majority of Independent Directors (in the case of the Corporate Responsibility and Governance Committee, which has four members, two are Independent Directors, one of whom is the Committee Chairman and has the casting vote in the event of a tie, meaning that it is controlled by the Independent Directors).
- ◆ Chaired by Independent Directors, as envisaged in the Corporate Bylaws and the Board Regulations; the term of office of Committee chairmen is limited to three years, after which term they may not be re-elected until at least one year has elapsed from the date of their termination in office.
- ◆ No Directors belong to both Committees, favoring their total independence.
- ◆ The Committees hold regular monthly meetings and are genuine specialist technical bodies that provide great added value to the Board.
- ◆ The term of office of all Committee members is three years; members may be re-elected.
- ◆ The functions and responsibilities of the Committees are established in the Corporate Bylaws and in the Board Regulations, which provide them with a stable legal framework.

The Compensation Policy for the Board of Directors and the Executive Director

- ◆ There is total transparency and openness in the breakdown of each Director's individual compensation.
- ◆ The maximum limit of overall annual compensation for the Board of Directors is established in Article 20 of the Corporate Bylaws (1.5 % of the Company's net annual profit approved by the Shareholders' Meeting).
- ◆ Board compensation and the Board Compensation Report are submitted for approval by the Shareholders' Meeting as two separate and independent items on the Agenda.
- ◆ The vote of the Annual Shareholders' Meeting on Board compensation and the Board Compensation Report is binding.
- ◆ Total Board compensation is divided between:
 - Fixed compensation: Fees for attending Board and Board Committee meetings.
 - Variable compensation: A sum linked to meeting of Company targets and strategies established in advance by the Board of Directors.

The targets and criteria determining the variable compensation of the Board of Directors are set in

advance by the Corporate Responsibility and Governance Committee and are also assessed and evaluated at the end of each year by that Committee.

- ◆ Total Board compensation remains unchanged since 2007.
- ◆ There are no stock option plans for Company Directors.
- ◆ The Board compensation policy is also based on other principles:
 - Moderation.
 - Link to actual dedication.
 - Link to Company performance, with continuous reduction in its weight in relation to Company results.
 - Aligned with the long-term interests of both the Company and the Shareholders.
 - Acting as an incentive, but without conditioning Directors' independence (particularly in the case of Independent Directors).
 - Transparency.
 - Aligned with general practice at listed companies.
- ◆ The compensation of the Executive Director has a fixed and a variable component.
- ◆ The compensation of the Executive Director is aligned with market practice.
- ◆ The annual variable compensation of the Executive Director cannot exceed 50% of his annual fixed compensation.
- ◆ The annual variable compensation of the Executive Director also depends on strategies, targets and criteria established in the Strategic Plan, set by the Corporate Responsibility and Governance Committee, at the end of the year.
- ◆ The Executive Director has long-term variable compensation linked to fulfillment of strategies and targets established by the Corporate Responsibility and Governance Committee.

Relations with Shareholders and Institutional Investors

The Company's relations with its shareholders and institutional investors are general in nature and no specific or special relationships are held with any of them.

The Company regularly organizes road shows, conducted by senior management, at principal financial centers in Spain and abroad where there is a high concentration of institutional investors, to inform them of its activities and its business performance, in an attempt to forge closer ties with these investors.

In light of the high percentage of foreign institutional shareholders (close to 70% in 2011), and as in previous years, the Company has conducted visits to investors and proxy advisors to explain its corporate governance practices and policies to them directly, aiming to establish appropriate mechanisms for the regular exchange of information with Spanish and foreign institutional investors and with the main proxy advisors, with a view to continuing to adapt to the most advanced international corporate governance standards.

Under no circumstances does the Company disclose to institutional shareholders any information that might place them in a privileged or advantageous situation vis-à-vis the other shareholders; rather, all information exchanged is public information.

All the above is in accordance with the provisions of the Board Regulations.

Chapter II. Shareholder Structure

The Company's capital is comprised of 135,270,000 fully subscribed and paid-in shares of a single class and series, each with a par value of €2, represented by book entries and listed on the four Spanish stock exchanges.

At December 31, 2011, the State-owned Industrial Holdings Company (Sociedad Estatal de Participaciones Industriales or "SEPI") directly owned a significant stake in the Company, holding 27,054,000 shares, which represent 20% of capital.

There are no individuals or legal entities that exercise or may exercise control over the Company, as provided in Article 4 of the Securities Market Law.

Thus, the shareholding structure of the Company consists of a 20% stake held by SEPI, with the remaining 80% being free float. As explained below, no other shareholder may hold a stake greater than 5%.

Within the free float, of note is the high percentage of foreign shareholders, in particular, of institutional investors, who at December 31, 2011, represented 70% of the capital stock, which explains the importance that the Board of Directors attaches to international corporate governance practices and recommendations.

The entry into force of Law 17/2007 of July 4, 2007 introduced various changes affecting the Company's shareholders.

The purpose of these changes is, inter alia, to guarantee the Company's independence as regards the other activities and participants in the electricity sector, since the activities pursued by RED ELÉCTRICA (transmission of electricity and operation of the electricity system) are considered by the State legislature to be an essential service. Specifically, the second paragraph of Additional Provision Three of Law 17/2007, of July 4, 2007, establishes new maximum limits on shareholdings in the Company, which are summarized below:

- ◆ Any individual or legal person may hold shares in the Company, provided that the sum of its direct and indirect holdings in the Company does not exceed five percent (5%) of capital and that it does not exercise more than three percent (3%) of voting rights. These shares may not be pooled for any purpose whatsoever.
- ◆ Parties engaging in activities in the electricity sector and any individuals or legal entities that directly or indirectly hold more than five percent (5%) of capital may not exercise more than one percent (1%) of voting rights at the Company.
- ◆ The special regime for SEPI is maintained, whereby it must hold at least ten percent (10%) of capital in all cases.

The legal provisions regarding the general and special shareholding regime are set out in Articles 5 and 14, the Sole Additional Provision of the Corporate Bylaws, and in Article 6.3 of the Shareholders' Meeting Regulations, which were amended at the Annual Shareholders' Meeting of May 22, 2008 in order to adapt them to the provisions of Law 17/2007 of July 4, 2007, described above.

The legal regime established by Directive 2009/72/EC, of July 13, 2009, which proclaims the mandatory independence of transmission companies and operators of European electricity systems, has endorsed the legal limits on holdings and voting rights applicable to the Company's shareholders, established in Law 17/2007.

Chapter III. The Shareholders' Meeting

The Shareholders' Meeting, duly called and legally constituted, represents all of the shareholders and exercises the functions corresponding to it within the Company.

Its resolutions, adopted pursuant to the Shareholders' Meeting Regulations and the Corporate Bylaws, are binding on all shareholders, notwithstanding their legal right to withdraw from the company. The Shareholders' Meeting shall have the power to adopt all resolutions specific to its status as the Company's sovereign body. In particular, and without limitation, it is responsible for:

- ◆ Approving the individual and consolidated financial statements of RED ELÉCTRICA, the management by the Board of Directors, and the proposed distribution of income.
- ◆ Appointing and removing Directors, ratifying or revoking their appointment by co-optation, and appointing and reappointing the auditors.
- ◆ Approving programs or authorizing transactions involving treasury stock.
- ◆ Approving the establishment of Director compensation systems linked to the share value.
- ◆ Resolving to issue debentures, increase or reduce capital, change the legal form, merge, spin off or dissolve the Company, and make any amendment to the Corporate Bylaws.
- ◆ Authorizing the Board of Directors to increase capital pursuant to the provisions of the Corporations Law.
- ◆ Approving transactions the effect of which is equivalent to the modification of the Company's corporate purpose.

The rules on the organization and functioning of the Shareholders' Meeting are contained in the Corporate Bylaws (Articles 11 through 18) and in the Shareholders' Meeting Regulations.

The Annual Shareholders' Meeting of April 13, 2011, approved, among other resolutions, an amendment of the Bylaws and of the Shareholders' Meeting Regulations, which, among other objectives, sought to adapt the powers of the Shareholders' Meeting to the new legal regime established in the Corporate Enterprises Law; the new powers of the Shareholders' Meeting are not substantially different from the previous powers, being more a technical adaptation to the current legislation.

For some time now, proposed resolutions have been published in full, in Spanish and in English, upon call of the Shareholders' Meeting, with all relevant information for shareholders being posted on the Company website, which is designed to make it easier for shareholders to exercise their right to information. The Company's website is a suitable mechanism for communicating with shareholders and investors, given that on it the following items of information, among others, are posted:

- ◆ The quorum requirement and the result of the votes on each of the resolutions approved by the Shareholders' Meetings in the previous year.
- ◆ Information relating to the right of attendance and procedures for granting proxies for Shareholders' Meetings, in accordance with the provisions of the Corporate Bylaws and Shareholders' Meeting Regulations.
- ◆ Information on electronic voting and proxies.
- ◆ Information on securities issues.
- ◆ Information on the rating granted by the credit rating agencies.
- ◆ Increased information on shareholdings, with greater detail on significant holdings, treasury stock and side agreements between shareholders.

Law 25/2011 has introduced certain modifications into the content of companies' websites; most of these are already reflected on RED ELÉCTRICA's current website.

In addition, to facilitate the exercise of the right of shareholders to information, the following steps are taken:

- ◆ Call notices are always posted more than one month in advance, which is the established statutory period.
- ◆ All documentation submitted for approval by the Shareholders' Meeting and especially the financial statements and the Annual Corporate Governance Report are made available to all shareholders at the corporate headquarters, on the website and at the Shareholder Information Office.
- ◆ An entire section of the agenda of the Shareholders' Meeting is devoted to reporting on the principal characteristics of the Annual Corporate Governance Report.
- ◆ The annual reports on the activities of the Audit Committee and of the Corporate Responsibility and Governance Committee, which can be found at the end of the Annual Corporate Governance Report, are made available to all shareholders.
- ◆ A Shareholder Bulletin is published quarterly, containing the main news about the Company.
- ◆ The Chairman of the Audit Committee is available to all shareholders during Shareholders' Meetings to deal with any matters falling within his jurisdiction as may arise.
- ◆ The items included on the agenda for the Shareholders' Meeting are as detailed as possible.
- ◆ Separate voting on each item is permitted, including via remote voting, with a view to giving shareholders full decision-making freedom and independence in respect of each item submitted to vote.
- ◆ The Shareholder Information Office specifically deals with requests made by Company shareholders. Shareholders may submit questions in writing regarding the information available to the public or notified to the competent authorities and make inquiries through the Shareholder Information Office.

Shareholder rights are regulated in Article 15 of the Corporate Bylaws, which expressly refers to the right to information and attendance of Shareholders' Meetings, and in Articles 6 through 10 of the Shareholders' Meeting Regulations. Specifically, the rights are as follows:

Right to Information

The Company pays special attention to the right to information, as reflected in Article 15 of the Corporate Bylaws and Article 8 of the Shareholders' Meeting Regulations. Article 8 of the Shareholders' Meeting Regulations establishes the obligation to make the documentation and information relating to the meeting agenda available to shareholders, free of charge, both at the Shareholder's Office and on the Company website.

In addition, during the meeting, shareholders can orally request any reports or clarification they deem appropriate regarding the items on the agenda. If such requests cannot be satisfied at the time, the Board of Directors must provide the information in writing within seven days of the meeting.

An open, free-flowing and accessible dialog is maintained with shareholders. Communications are made with the utmost transparency, providing all available information to shareholders at the same time as it is received by other participants in the securities and financial markets.

A specific Shareholder Information Office is in place to deal with any inquiries from minority shareholders.

The Company undertakes to make documentation and information relating to the meeting agenda

available to shareholders, free of charge, both at the Shareholder Information Office and on the Company website, including the following documentation:

- ◆ The call notice of the Shareholders' Meeting, containing the proposed resolutions and the corresponding reports by the Board of Directors.
- ◆ The Company's individual and consolidated financial statements and the proposed distribution of income for the year.
- ◆ The Company's individual and consolidated management reports for the year.
- ◆ The audit reports relating to the Company's individual and consolidated financial statements.
- ◆ The Annual Corporate Governance Report.
- ◆ The Corporate Social Responsibility Report.
- ◆ The report on the compensation policy for the Board of Directors, included in the annual public documentation submitted to the Annual Shareholders' Meeting.
- ◆ The environmental report.
- ◆ Any other report the inclusion of which is obligatory or is determined by the Board of Directors.

Law 25/2011 of August 1, 2011, has established, with precision, certain information that must be posted on the website when the Shareholders' Meeting is called, and although the strict wording of the Law is specific, its scope, as far as content is concerned, is covered by the current Shareholders' Meeting Regulations. However, the adaptation to this Law of the relevant Articles of the Shareholders' Meeting is planned to be proposed to the next Annual Shareholders' Meeting.

Law 25/2011 gives an even greater role to company websites, as it introduces a new Article 11 bis into the Corporate Enterprises Law, which regulates the electronic headquarters and corporate website. In addition, this incorporates into Article 516 of the Corporate Enterprises Law the obligation of listed companies to use their websites to publish the call notice for the Shareholders' Meeting, something which Red Eléctrica Corporación, S.A. has been doing for several years.

Law 25/2011 also introduces changes into the call notice for the Shareholders' Meeting, in general to promote shareholders' rights to information.

Right to Attend

Shareholders may attend the Shareholders' Meeting if they are up to date in the payment of capital calls and evidence their share ownership, by way of certification in their name, in the accounting register of book entries five days before the meeting is due to be held. Company Directors and Executives must attend Shareholders' Meetings.

As a general rule and in order for the proceedings of meetings and the resolutions adopted to reach the widest audience, the media are allowed access to Shareholders' Meetings. To this effect, Article 15 of the Corporate Bylaws and Article 10 of the Shareholders' Meeting Regulations provide that shareholders with the right to attend may be represented at the Shareholders' Meeting by another shareholder with the right to attend, in the manner established in the Corporations Law.

Law 25/2011 has eliminated bylaw restrictions on attending Shareholders' Meeting and, accordingly, the bylaw requirement of being represented at the Shareholders' Meeting by another shareholder is no longer considered applicable. Now the shareholder may be represented by any person. The necessary adaptation of the relevant Articles of the Bylaws and of the Shareholders' Meeting Regulations is planned to be proposed to the next Shareholders' Meeting.

There is no bylaw restriction requiring a minimum number of shares to attend the Shareholders' Meeting (application of the one share, one vote principle).

Company Directors and Executives are required to attend Shareholders' Meetings.

As a general rule and in order for the proceedings of meetings and the resolutions adopted to reach the widest audience, the media are allowed access to Shareholders' Meetings and Meetings are broadcast in an audiovisual format, with simultaneous translation into English.

Right to Participate and New Technologies

The Shareholders' Meeting Regulations allow shareholders to participate to the fullest extent in matters of interest to them (right to attend, meeting calls, inclusion of items and proposals on the agenda, inquiries and requests for information and voting).

In line with the most well-known recommendations in this area, the Shareholders' Meeting Regulations are in line with the regime established by Law 26/2003 of July 17, 2003 regarding the development of shareholder rights and the rules regarding the organization and functioning of the Shareholders' Meeting.

Thus it is provided that shareholders owning 5% of capital may request that the Board, prior to issuing the call, include any item on the agenda for the next Shareholders' Meeting. The Board of Directors must include the items requested in the manner that best suits the Company's interests, provided that they refer to matters falling within the scope of the powers of the Shareholders' Meeting.

Shareholders may also make proposals regarding items on the agenda and suggestions regarding any activities and interests of the Company that, in their opinion, should be discussed at the Shareholders' Meeting. In both cases, shareholders may make proposals and suggestions through the Shareholder Information Office.

Law 25/2011 has introduced certain adjustments and provisions aimed at reinforcing shareholders' rights to participate in the Shareholders' Meeting, which will require the necessary adaptations to the Bylaws and Shareholders' Meeting Regulations, which are planned to be submitted for approval to the next Annual Shareholders' Meeting.

In 2005, Red Eléctrica placed its bets on an electronic voting system. It was one of the pioneers of this system, which allows shareholders to exercise their voting rights electronically via the Company website, www.ree.es. Since then, the Company has enabled shareholders to vote electronically at all its Shareholders' Meetings.

Continuing the approach of making it easier for shareholders to use advanced electronic means to exercise their rights, the Board of Directors meeting held on February 24, 2011, approved the rules on electronic voting and proxies for the Shareholders' Meeting of April 13, 2011. The procedure has been satisfactory, as

664 shareholders holding 208,839 shares exercised or delegated their vote electronically. This meant that 14% of the 4,788 shareholders present in person or by proxy at the Meeting participated in the Meeting by electronic means. This matched the percentage obtained at the Shareholders' Meeting held in 2010 and nearly doubled the number of shareholders who exercised or delegated their vote electronically at the Shareholders' Meeting held in 2009, when 379 shareholders holding 133,711 shares used the electronic vote.

In addition, presentations to analysts and the Shareholders' Meeting are broadcast in real time on the Company website. Webcasts of presentations are available on the Company website. In 2007, 2008, 2009, 2010 and 2011, the Shareholders' Meeting was broadcast via live video webcast, with simultaneous translation into English.

Of note in 2011, as already mentioned above, was the start-up of the Shareholders' Electronic Forum for the Shareholders' Meeting held on April 13, 2011, which was intended to implement the requirements of Article 528.2 of the Corporate Enterprises Law. The purpose of the Forum is to facilitate communication among the shareholders of Red Eléctrica with a view to publishing proposals to supplement the agenda contained in the call notice for the Shareholders' Meeting, issuing requests for adhesion to such proposals, presenting initiatives in order to reach the percentage to exercise the minority right envisaged in the law or making offers or requests for voluntary representation.

This tool was incorporated into the Shareholders' Meeting Regulations, in Article 8.4 thereof, following its approval by the Shareholders' Meeting held on April 13, 2011.

In addition, in 2011 the Company used certain social networks (Facebook and Twitter) to publicize and provided information on the holding of the Annual Shareholders' Meeting.

It is also worth mentioning that a new duty for the Company was included in the proposed amendment of the Corporate Bylaws and the Shareholders' Meeting Regulations approved at the Annual Shareholders' Meeting of April 13, 2011, namely, equal treatment of shareholders, which is a provision that was already contained in the Regulations of the Company's Board of Directors (Article 35).

As noted above, Law 25/2011 has established the duty for corporate enterprises to have a website, which must be approved by the Shareholders' Meeting and registered at the Commercial Registry and, accordingly, the Board of Directors intends to submit the creation of the RED ELÉCTRICA website to the next Annual Shareholders' Meeting for ratification and approval.

Chapter IV. The Board of Directors

Organization, powers and composition

As of December 31, 2011, the Board of Directors was composed of 11 directors (1 executive director, 3 nominee directors and 7 independent directors).

The Board of Directors governs and represents the Company with the support of the Audit Committee and the Corporate Responsibility and Governance Committee.

The rules on the organization and functioning of the Board are contained in the Corporate Bylaws (Articles 19 through 26) and in the Board.

The Board approves the annual meeting calendar at the end of the preceding year and recognizes the right of Directors to make amendments to the agenda of each meeting, provided sufficiently in advance (in practice, at least 6 days beforehand), together with the call notice and meeting documentation.

Pursuant to the Corporate Bylaws and the Board Regulations, the principle guiding the Board's actions at all times is the defense of the viability and value of the Company in the long term, and the protection and promotion of the Company's general interests.

Specifically, the Board holds all powers to manage and represent the Company, both in and out of court, exercising such powers directly, via delegation or pursuant to a power of attorney on the terms established in the law, the Corporate Bylaws and Board Regulations.

The Board's policy is to delegate the ordinary management of the Company to the executive bodies and the management team and to concentrate on its general supervisory function, the approval of basic operating guidelines and strategies and on decisions that are highly relevant to the interests of the Company.

In particular, the Board of Directors has expressly reserved (Article 5 of the Board Regulations) on a non-delegable basis, the following responsibilities:

- a) Approval of the general policies and strategies of the Company and, in particular:
 - i) Approval of the strategic or business plan of the Company and its Group, as well as the annual budget and management objectives.
 - ii) Approval of the investment and financing policy.
 - iii) Approval of the definition of the structure of the corporate Group.
 - iv) Approval of the corporate governance policy.
 - v) Approval of the corporate responsibility policy.
 - vi) Approval of the policy regarding compensation and evaluation of senior executives.
 - vii) Approval of the policy for control and management of the principal risks of the Company and of the Group, and knowledge and periodic monitoring of internal control, prevention and reporting systems.
 - viii) Approval and, if applicable, proposal to the Shareholders' Meeting of the dividend and treasury stock policies, in particular, the limits thereof.
 - ix) The other policies and strategies specifically envisaged in the Board Regulations.

- b)** The following decisions:
 - i)** Directors' compensation and, in the case of Executive Directors, the additional consideration for their executive functions and other contractual conditions that must be observed.
 - ii)** Financial information that the Company must periodically disclose as a listed company.
 - iii)** Investments or transactions deemed to be strategic by virtue of their high amount or special characteristics, unless their approval corresponds to the Shareholders' Meeting.
 - iv)** The creation or acquisition of holdings in special-purpose vehicles or entities domiciled in countries or territories that are considered tax havens, and any other transactions and operations that could impair the transparency of the Group.
- c)** Related-party transactions, as defined by the legislation in force from time to time, that are material or outside the ordinary course of business of the Company and must be reported obligatorily to the securities markets, pursuant to the aforementioned legislation, following a report by the Audit Committee.
- d)** The annual evaluation of:
 - i)** The quality and efficiency of the functioning of the Board and the performance by the Chairman of his functions, based on a report referred thereto by the Corporate Responsibility and Governance Committee.
 - ii)** The functioning of its Committees, based on the reports referred thereto by them.

Pursuant to the Corporate Bylaws, Directors hold office for a term of 4 years.

In line with the recommendations of the Unified Code of Recommendations for the Good Governance of Listed Companies (the "Conthe Code"), the maximum term of office for Independent Directors has been established in the Board Regulations at twelve (12) years. All other types of Director may be reappointed indefinitely by the Shareholders' Meeting.

Mr. Antonio Garamendi Lecanda has completed the maximum term of 12 years as an independent director of RED ELÉCTRICA. In accordance with Article 7.2 c) of the Board Regulations, with the Unified Good Governance Code, and with the best international good governance practices, this is the maximum term for being considered an independent director, so if his reappointment is proposed to the next Annual Shareholders' Meeting, he will be classified under the "other external directors" category.

If the Annual Shareholders' Meeting approves the reappointment of Mr. Garamendi as a director of the Company, he should be immediately replaced as chairman of the Corporate Responsibility and Governance Committee, an office which should be held by an independent director, as established in the Corporate Bylaws and the Board Regulations.

Proposals for the removal of independent directors should not be made before the end of the term of office specified in the Corporate Bylaws for which they were appointed, except where there is sufficient cause, subject to a report by the Corporate Responsibility and Governance Committee.

The names of the Directors, the dates of their first and last appointment, position on the Board, type of Director, election procedure and Board Committee membership, at December 31, 2011, were as follows:

Member of the Madrid Bar Association, and member of the Legal Department of Red Eléctrica de España, S.A. since 1990.

Attendance at and Failure to Attend Board and Committee Meetings

Set out below are the data on attendance and failure to attend by Company Directors at meetings of the Board of Directors and of the Audit and Corporate Responsibility and Governance Committees in 2011.

- ◆ Board of Directors: There were seven (7) absences from the eleven (11) Board meetings held in 2011, giving rise to an attendance rate of 94%.
- ◆ Audit Committee: Of the ten (10) Audit Committee meetings held in 2011, no Directors failed to attend.
- ◆ Corporate Responsibility and Governance Committee: Of the eleven (11) Corporate Responsibility and Governance Committee meetings held in 2011, no Directors failed to attend.

Chairman of the Board

- ◆ The Chairman of the Board of Directors is also the Chairman of the Company, its Chief Executive and the person responsible for senior management, administration and full representation of the Company.
- ◆ Notwithstanding the above, Board of Directors, in the Board Regulations, has reserved, on a non-delegable basis, the responsibilities and powers that it considers strategic and which have been described in this Chapter.
- ◆ The Executive Director is subject to specific checks on his responsibilities by the Board of Directors, to which he must request subsequent ratification regarding urgent decisions that he has had to adopt or, as the case may be, request prior authorization. The Committees effectively control the corporate management within the scope of their respective powers.

Directors' Duties

- ◆ The internal corporate governance rules strictly regulate the duties of Directors, in general, and their diligence and loyalty obligations, in particular.
- ◆ Directors must act with due diligence, being required to play a proactive role on the Board and on its Committees.
- ◆ The Board Regulations also regulate breaches of the corporate governance rules by Directors.

Principle of Security and Duty of Loyalty

- ◆ The Board Regulations establish, inter alia, the following obligations on Directors:
 - To gather the relevant information and adequately prepare for meetings of the Board and the Board Committees to which they belong, and regularly attend them.
 - To actively participate in deliberations so that their opinions effectively contribute to decision-making and to perform any specific tasks entrusted to them by the Board of Directors.
 - To prompt the investigation of any irregularity in the management of the Company of which they may become aware, and the monitoring of any risk situation.
 - To request the call of special Board meetings, as the case may be, and gather the information necessary for the efficient performance of their functions.
 - To oppose resolutions that are contrary to the law, the Corporate Bylaws or the corporate interest.

Conflicts of Interest

- ◆ Directors must refrain from attending and participating in deliberations that touch on matters in which they have a direct or indirect personal interest.
- ◆ Directors must report any potential conflict of interest they may have with the Company and, where there is a conflict, they must refrain from participating in the transaction to which the conflict of interest relates.
- ◆ Nominee Directors must disclose to the Board any conflict of interest between the Company and the shareholder that proposed their appointment where the conflict of interest relates to matters submitted to the Board and must refrain from participating in the adoption of the corresponding resolutions.

Confidentiality

- ◆ Directors must maintain secrecy regarding the deliberations of the Board of Directors and the Committees of which they are members.
- ◆ Directors must refrain from disclosing any information, data, reports or background information to which they may have access in the discharge of their office, even after they have vacated office.

Noncompetition

- ◆ Directors may not engage in activities that may compete with the Company.
- ◆ Directors may not provide their professional services to companies with a corporate purpose that is analogous, in whole or in part, to that of the Company that may give rise to a conflict of interest between them.

- ◆ Independent Directors are required to consult the Board of Directors before accepting any executive position with another company or entity.
- ◆ Directors are required to report any holdings they may have in companies that engage in any activity that is identical, analogous or complementary to that of the Company or competes to some degree with the Company, as well as any positions or functions exercised at such companies and the performance, for their own account or for the account of another, of activities that are identical, analogous or complementary to the type of activity constituting the corporate purpose.
- ◆ The Board Regulations establish a new restriction for Independent Directors, who may not sit on more than two boards of directors of other listed companies.

Information not in the Public Domain

- ◆ Directors may not use Company information that is not in the public domain for private purposes, except with the prior approval of the Board of Directors.

Business Opportunities

Directors may not, for their own benefit or the benefit of related persons or third parties, take direct or indirect advantage of any business opportunity of the Company, unless the opportunity is offered to the Company beforehand, and the Company declines to take it and Board authorizes the Director to do so, subject to a report by the Corporate Responsibility and Governance Committee.

Directors' Portal

The Directors' Portal is an innovative project that was launched in January 2010 with a view to applying new technologies in the day-to-day work of the members of the Board of Directors and its Committees.

This initiative seeks to place the most modern telematic means at the disposal of the directors to enhance efficiency in the functioning of the Board of Directors and its Committees. The Portal has been designed with the aims of making the current processes more efficient, and ensuring the security of the information.

The content of the portal is divided into various sections on documentation, distinguishing between documents for Board meetings, documents for the two Committees, other documents of special interest prepared by the Board, various areas within the corporate information of the Company, the main legislation affecting the activities of the Company, all the corporate information of interest to Directors for the discharge of their duties, information on the activities and functioning of the various organizational areas of the Company, information in the press affecting the Company and other information which may be useful for Directors to gain a better understanding of the activity and functioning of the Company and for the performance of their duties as Directors.

In 2010, the contents of the Directors' Portal were expanded to include all available information on corporate responsibility matters.

In 2011 technical improvements were made and corporate information was expanded, thereby enhancing a tool which is highly valued by the Directors.

The Director's Portal is constantly reviewed to ensure it is always up to date and in order to ensure all possible improvements are made.

Evaluation of the Board

In line with annual practice, at the beginning of 2011 the Board initiated, through the Corporate Responsibility and Corporate Governance Committee, the self-evaluation process relating to the Board of Directors, its Committees and its Chairman.

By an express decision of the Corporate Responsibility and Governance Committee, the self-evaluation process is being conducted with the support of external advisers with expertise in the area (KPMG) thereby providing the process with a more objective and independent external viewpoint.

The conclusions from the KPMG report on the findings of the evaluation performed make clear the high level of commitment on the part of the Directors, their pride in belonging to the organization, their commitment to excellence in managing the Company and to the ongoing incorporation of corporate governance best practices. The same report sets out certain opportunities for improvement in the Board's practices, including those relating to enhancing communication with shareholders and investors in general, strengthening the role of independent directors in the Board's tasks or the role of the Board in defining and monitoring the risk control policy.

Board Compensation Policy

The main elements and aspects of the Board's compensation policy have been described in Chapter I of this Title II, to which readers are referred.

The Annual Report on Directors' Compensation which, for the first time, is provided to shareholders and investors in general, separately from this Annual Corporate Governance Report, sets out in detail all the information on the compensation of the Board of Directors and of Senior Management.

Committees of the Board of Directors

Since the Company's listing on the securities markets in 1999, its financial statements and economic and financial information have been prepared under the supervision and oversight of the Audit Committee, leading to greater transparency and reliability.

Pursuant to the Board Regulations and the Corporate Bylaws, there is a specific Committee for corporate governance matters called the Corporate Responsibility and Governance Committee.

Both Committees constitute support committees for the Board of Directors and have not been expressly delegated any powers by the latter.

Audit Committee

The powers, organization and functioning of the Audit Committee are governed by the Corporate Bylaws and by the Board Regulations of RED ELÉCTRICA, adapted to current commercial legislation and the recommendations of the Conthe Code.

Throughout 2011, the Committee was comprised of External Directors, with a majority of Independent Directors. At a meeting on July 27, 2011, the Board of Directors, following a report from the Corporate Responsibility and Governance Committee, approved the reappointment for a term of 3 years of two of its directors as board members (Ms. Arantza Mendizábal Gorostiaga and Ms. María Jesús Álvarez González) and designated Mr. José Folgado Blanco as a new board member for a term of 3 years following the expiration of the term for which Mr. Francisco Javier Salas Collantes had been appointed.

The composition of the Audit Committee at December 31, 2011 was as follows:

| Director | Position | Type of Director |
|-------------------------------|------------|-------------------------|
| Arantza Mendizábal Gorostiaga | Chairwoman | External Independent |
| José Folgado Blanco | Member | External Independent |
| María Jesús Álvarez González | Member | External Nominee (SEPI) |

Chapter IV of Title III of this document contains the Annual Report on the Activities of the Audit Committee for fiscal year 2011.

Corporate Responsibility and Governance Committee

In accordance with best international corporate governance practices and particularly those indicated in the Conthe Code, in 2007 the Company's Board of Directors changed the name of the Committee to the Appointments, Compensation and Corporate Governance Committee. Pursuant to the Corporate Bylaws it was assigned functions relating to the corporate governance of the Company, among others.

In 2009, the Committee carried out a review of the Board Regulations which led to the approval of a new set of Regulations at the meeting held on January 28, 2010. Some of the most notable amendments approved included the change of name to the Corporate Responsibility and Governance Committee and the express allocation to such Committee of broad powers in the area of corporate responsibility and risk control.

At 2011 year-end and at the date of approval of this Report, the Corporate Responsibility and Governance Committee was composed of four Directors, three of whom were External Directors and one an Executive Director: of the External Directors, two were Independent Directors and one was a Nominee Director.

At a meeting held on July 27, 2011, the Board of Directors, following a report from the Corporate Responsibility and Governance Committee and at the proposal of the Chairman of the Board of Directors, approved the reappointment of two of its directors as board members (Mr. Luis M^a Atienza Serna and Mr. Manuel Alves Torres) for a term of 3 years.

At 2011 year-end and on the date of approval of this Report, the composition of the Committee was as follows:

| Director | Position | Type of Director |
|-----------------------------|----------|----------------------|
| Antonio Garamendi Lecanda | Chairman | External Independent |
| María Ángeles Amador Millán | Member | External Independent |
| Luis María Atienza Serna | Member | Executive |
| Manuel Alves Torres | Member | External Nominee |

If the Annual Shareholders' Meeting approves the reappointment of Mr. Garamendi as a director of the Company, given that he is no longer considered an independent director because 12 years have elapsed since his first appointment as a director, he should be immediately replaced as chairman of the Corporate Responsibility and Governance Committee, since this office must be held by an independent director, as established in the Corporate Bylaws and in the Board Regulations.

The Executive Director and Chairman of the Company, Mr. Luis Maria Atienza Serna, is a member of the Committee by unanimous decision of the Board of Directors, which considers his presence on the

Committee to be of special interest, without prejudice to his abstaining or absenting himself during discussion of any matters that could affect him personally or give rise to a conflict of interest.

Of the four members of the Corporate Responsibility and Governance Committee, three are External Directors and two of them are Independent Directors, meaning that they constitute a relative but not absolute majority.

Further to the comments on Recommendation 44, it must again be stated that Independent Directors have a voting majority on the Corporate Responsibility and Governance Committee, since in the hypothetical event of a tie between Independent and other Directors, the Chairman, who must be an Independent Director, has a casting vote.

Chapter IV of Title III of this document contains the Annual Report on the Activities of the Corporate Responsibility and Governance Committee for fiscal year 2011.

Chapter V. Senior Management

The persons holding senior management positions at the Company throughout 2011, excluding the chief executive, were as follows:

| Name | Position |
|--------------------------------|--|
| Carlos Collantes Pérez-Ardá | Director-General of Transmission |
| Esther María Rituerto Martínez | Director-General of Finance and Administration |
| Alberto Carbajo Josa | Director-General of System Operation |

Article 16 of the Board Regulations establishes, among the basic responsibilities of the Corporate Responsibility and Governance Committee, that of informing about any appointments and removals of senior executives of the Company and of Red Eléctrica de España, S.A. Sole-Shareholder Company, that the Chairman proposes to the Board of Directors. However, in 2011 no senior managers were appointed or removed.

The above executives report directly to the Chief Executive and Chairman of the Company and form part of the main executive bodies in the organization, the Management Committee and the Executive Management Committee.

The compensation policy applicable to these executives aims to promote the achievement of the strategic objectives of value creation at the Company by attracting, retaining and motivating the best talent available in the market.

Compensation for the Company's senior executives is based on the principles of moderation, actual dedication and linkage to the results of the Company.

The annual reports on the compensation policy for the Board approved by the Board of Directors and by the Annual Shareholders' Meetings in recent years present information on the total compensation paid to these executives.

As regards compensation for fiscal year 2011, please see the Annual Report on Directors' Compensation, which includes information on senior executives.

Chapter VI. Risk Policy and Internal Control Systems

General aspects

The purpose of the Risk Policy of the Red Eléctrica Group, approved by the Board of Directors on July 24, 2008, is to establish principles and guidelines to ensure the systematic identification, analysis, assessment, management and control of material risks that may affect the Red Eléctrica Group's objectives and activities, applying uniform criteria, within the established risk limits.

Material risks of the Red Eléctrica Group are those that may significantly affect the overall objectives of the Red Eléctrica Group, related to:

- ◆ Sustained creation of value over time.
Sustained profit growth, which must allow appropriate returns for investors and enable the company to implement its strategy.
- ◆ The continuity and quality of the energy supply in the electricity systems.
The achievement of this objective involves on the one hand the management by the Operator of the Spanish Electrical System and on the other the reliability and availability of the transmission network.
- ◆ The construction of the electricity transmission infrastructure network necessary to meet future needs.
Red Eléctrica, as the sole transmission company of the Spanish Electrical System, must design, fulfill the formalities for and construct the facilities specified by energy planning. This overall objective must be achieved on a cost-effective basis.
- ◆ The compatibility of the above objectives with social and environmental concerns.
This Policy establishes criteria on the acceptable level of risk for each of the overall objectives, which may be summarized as follows: all material risks that could jeopardize achievement of the overall objectives must have a low probability/impact value. Steps must be taken to ensure that any risks that do not meet this value are lowered to such level.

The general guidelines contained in the Risk Policy are as follows:

- ◆ Risk management must be fundamentally proactive and also geared towards the medium and long term, taking into account possible scenarios in an ever more globalized environment.
- ◆ In general, risks must be managed according to the relationship between the importance of the risk (probability/impact) and the investment and resources necessary to reduce it.
- ◆ Notwithstanding the above, the impact the risks may have on the electricity system itself must also be taken into account with respect to activities relating to the electricity system.
- ◆ Processes must be designed with efficiency and efficacy in mind and contemplate controls to mitigate risks, taking the form of systems based on international standards (good practices) that are periodically verified and improved.
- ◆ Contingency plans must be established to reduce the impact of material risks.
- ◆ The insurance necessary to cover any losses that may occur must be arranged.

The most significant risks to which the Group is exposed, and which form part of the risk control system, are:

- a) Regulatory, since the principal business activities of the Group are subject to regulation.
- b) Operational, basically arising from its assigned activities within the electricity system and the requirement to care for and protect the natural environment.
- c) Market, since most revenues, as well as certain expenses, may be influenced by variables such as inflation and interest rates.
- d) Business and Credit (or counterparty), albeit to a lesser extent due to the lesser weight of the subsidiaries in the overall Group and the existing regulation regarding invoicing and collection for transmission and operation activities.

The risk control system covers both risks from internal processes and risks from the environment in which it operates, covering all activities performed by the Group, evaluating the impact of each risk on four aspects: strategy, the income statement, the electricity system and reputation.

Of all risks monitored by the system, 11 % relate to regulatory risks, 75% to operational risks and 14% to business, market or credit risks. These figures are consistent with a Group whose fundamental mission is to ensure the functioning of the electricity system as a whole in a heavily regulated environment and with the level of solvency supported by the ratings given to it by international rating agencies.

In 2011 the risk control system was subjected to an independent review of its design by the specialist consultant Ernst & Young, based on the ISO 31000 standard (Risk management. Principles and guidelines). The conclusion issued by Ernst & Young on January 14, 2012 reads as follows:

"As a result of our review, we can conclude that the design of the Risk Management System of Red Eléctrica Corporación, applied to its different activities, is in accordance with the principles established in the ISO 31000 standard on Principles and Guidelines."

Furthermore, it should be noted that in 2007 Red Eléctrica embarked on a project to align, review and improve its System for Internal Control over Financial Reporting (ICFR), with the basic aim of improving the efficiency and security of processes for preparing economic and financial information on the Company, adopting international best practices early on, on a voluntary basis. This ICFR is described in detail in one of the sections of Official Annex II to this ACGR, as an Annex which includes information additional to the current ACGR in accordance with Article 61 bis of Securities Market Law 24/1988, of July 28, as amended by Sustainable Economy Law 2/2011, of March 4, 2011.

In particular, Annex II on the ICFR includes information, among other aspects, on the mechanisms making up the risk management and control systems in relation to the process for reporting financial information (ICFR) of Red Eléctrica, which refer to its control environment, to financial information risk evaluation, to control activities, to the tasks of reporting and communication and to the supervision and operation of the system.

The Board Regulations expressly entrust the **Board of Directors** with the responsibility of approving the comprehensive risk management policy of the Company and of the Group, and of being familiar with and periodically monitoring the internal control, prevention and reporting systems.

Twice a year the Board reviews the risk control system and the material risks, notwithstanding the information that it regularly receives from the Audit Committee in the context of the monitoring carried out by such Committee on an ongoing basis.

The **Audit Committee** is responsible for the periodic supervision of the risk management system, to ensure that the main risks are adequately identified, managed and disclosed.

The **Management Committee**, comprised of executives from the key strategic areas of the Company, is responsible for:

- Promoting implementation of the integral risk management policy.
- Monitoring the Risk Map, and agreeing on the appropriate actions to facilitate the achievement of the global objectives.

The risk control function is performed on a centralized basis by the **Regulation Office**, which reports to the Office of the Chairman.

Procedures

The RED ELÉCTRICA Group constantly designs and implements processes to ensure its compliance with the various regulations and to mitigate or reduce the related risks.

These processes have been integrated into systems structured according to a set of internal standards and procedures based on international standards (ISO 9001, ISO 14001 and OHSAS 18001), which are subject to systematic audits of the adequacy of their design and compliance, and include mechanisms for controlling the objectives that they must meet.

Projects

All proposals for significant projects from an economic or strategic point of view include the corresponding risk analysis, allowing risks to be evaluated when the related decisions are to be made. These decisions are made by the competent corporate body according to the established limits, with the most important projects requiring the approval of the Board of Directors.

Verification

The design and adaptation to existing regulations of, and correct compliance with, the internal rules and procedures is systematically reviewed by the Internal Audit and Risk Management functions, which form an integral part of the Regulation Office, and these procedures are also supervised by the Audit Committee.

Internal rules and their compliance are also subject to external audits on a periodic basis, by international ISO and OHSAS standards certification bodies.

Self-evaluation of regulatory compliance

In 2011, an internal rule was approved and implemented which requires all units of the organization to establish mechanisms for identifying, disseminating and updating the regulations applicable to them, as well as performing an annual self-evaluation of compliance with such regulations.

Chapter VII. Related-Party Transactions

In relation to the Directors, Article 29.3 a) of the Board Regulations establishes that Directors must notify the Board of Directors, through the Chairman or the Secretary, of any conflict of interest to which they are subject and refrain from attending and participating in deliberations affecting matters in which they have a direct or indirect personal interest or in which there is any sign of a conflict of interest. Pursuant to that Article, a personal interest will also be considered to exist when the matter affects a person related to the Director or to a company with which he has an employment or professional relationship or at which he has an executive position or a significant shareholding.

For the purposes of the preceding paragraph, 'related persons' are those defined as such from time to time in the applicable legislation.

In accordance with the provisions of Article 29.3 b) of the Board Regulations, Nominee Directors must disclose to the Board of Directors any conflict of interest between the Company and the shareholder that proposed their appointment where said conflict affects matters submitted to the Board and they must refrain from participating in the adoption of the corresponding resolutions.

In addition, Article 2 of the Code of Conduct on the Securities Market includes within its scope of application Directors, the Secretary and Deputy Secretary of the Company's Board of Directors, executives (as defined in Chapter I of the Board Regulations) and the persons expressly designated by the Oversight Body created pursuant to the Code.

Under Article 7 of the Internal Code of Conduct on the Securities Market, persons subject or temporarily subject thereto must generally attempt to avoid situations of direct conflict of interest or conflicts concerning persons related to them and must inform the Oversight Body of any situations of conflict of interest that may reasonably arise within fifteen (15) days of such situations coming to their attention, so that the Oversight Body may adopt the corresponding decisions in advance. Directors must give notice of the situations described in the preceding paragraph through the Office of the Secretary of the Board of Directors.

Persons subject or temporarily subject to the Code must keep up to date the information regarding conflicts of interest they have disclosed, reporting any such changes as may occur. Without prejudice to the obligations specified in the preceding paragraph as regards conflicts of interest, Directors must comply with the requirements contained in the Corporate Bylaws and in the Board Regulations and, in general, with all requirements arising from the corporate/commercial legislation on corporations.

The Oversight Body will keep an up-to-date itemized Register of the conflicts of interest disclosed by the various persons subject or temporarily subject to the Code, and will adopt the appropriate security measures for its safekeeping and storage. In any event, access to the Register will be restricted.

It should be noted that for the above purposes, in accordance with Article 11 of the Internal Code of Conduct on the Securities Market, the Oversight Body is the Directorate-General of Administration and Finance, which will act in collaboration with the Secretary of the Board of Directors as regards any legal issues resulting from the application or interpretation of the Code. In addition, the Oversight Body has been entrusted with the general functions of ascertaining, registering, disseminating and monitoring compliance with the obligations and duties established in the Internal Code of Conduct. The Oversight

Body will have all necessary powers to perform the duties entrusted to it in the Internal Code of Conduct and must periodically report to the Audit Committee on the degree of compliance with the Code and on any incidents that may occur.

The Audit Committee is responsible for supervising compliance with the Internal Code of Conduct and the performance of the functions of the Oversight Body, the person responsible for the material transaction and the Office of the Secretary of the Board of Directors contemplated therein, as well as the internal resolution of any such questions and conflicts raised by parties subject or temporarily subject to the Code as may be submitted to the Committee by the Oversight Body. The Audit Committee will evaluate compliance with the Internal Code of Conduct on an annual basis and will adopt any appropriate measures for its optimum implementation and improvement. It is also responsible for proposing to the Corporate Responsibility and Governance Committee, for referral to the Board of Directors, any amendments it deems necessary in light of the Board's commitment to continuous adaptation, as well as the adoption of corporate governance best practices in the area and of the applicable legislation.

In relation to Company executives, Article 2.1.3 of the Internal Code of Conduct on the Securities Market establishes that Company executives, as defined in Chapter 1, are deemed to be subject to the Code and, accordingly, will be subject to potential conflicts of interest. Article 5.2.2 of the Internal Code provides that, when circumstances so require, the Oversight Body may decide to include as persons subject to the Code, on a temporary basis, any persons participating in a material transaction that have access to inside information. The parties affected will be given individual written notice of their inclusion on or exclusion from those lists.

In accordance with the provisions of Article 31 of the Board Regulations, the Board of Directors formally reserves the right to be informed of any material transaction of the Company with a significant shareholder, unless as a result of its nature and conditions it falls within the jurisdiction of the Shareholders' Meeting.

In May 2010, at the proposal of the Audit Committee, the Board of Directors approved a policy on controlling related-party transactions and defined objective parameters for controlling related-party transactions, material or otherwise, recurring annual related-party transactions, and related-party transactions requiring mandatory notification to the markets. The Audit Committee monitors this policy annually.

TITLE III: Fiscal Year 2011 at Red Eléctrica

Chapter I. Principal Corporate Resolutions

The principal corporate resolutions adopted by the Company in 2011 as regards corporate governance were as follows:

1. The Company's 2010 Annual Corporate Governance Report was approved following a favorable report by the Corporate Responsibility and Governance Committee at the Board meeting held on February 24, 2011.
2. At a meeting held on February 24, 2011, the Board of Directors also approved all the proposed resolutions and reports to be submitted to the Annual Shareholders' Meeting for fiscal year 2011, which was called at such meeting.
3. At the same meeting referred to above, the Board of Directors approved the procedure for proxies, voting and information by remote means at the Annual Shareholders' Meeting for fiscal year 2010.
4. In addition, as a new development, at the aforementioned meeting the Board of Directors approved the Operating Rules of the Shareholders' Electronic Forum.
5. The following resolutions were adopted, as separate and independent items on the agenda, by the Annual Shareholders' Meeting held on April 13, 2011:
 - ◆ To approve the Financial Statements (balance sheet, income statement, statement of changes in equity, cash flow statement and notes to financial statements) and the management report of Red Eléctrica Corporación, S.A. for the year ended December 31, 2010.
 - ◆ To approve the Consolidated Financial Statements (consolidated balance sheet, consolidated income statement, consolidated overall income statement, consolidated statement of changes in equity, consolidated cash flow statement and notes to the consolidated financial statements) and the Consolidated Management Report of the Consolidated Group of Red Eléctrica Corporación, S.A. for the year ended December 31, 2010.
 - ◆ To approve the distribution of income proposed by the Board of Directors at the meeting held on February 24, 2011 and, as a result, distribute 2010 income.
 - ◆ To approve the management by the Board of Directors of Red Eléctrica Corporación, S.A. in 2010.
 - ◆ To approve the appointment of the auditors of the Parent Company and of the Consolidated Group.
 - ◆ To approve the amendment of the Corporate Bylaws to update their provisions as a result of various legislative reforms relating to corporations. Specifically, the following Articles: Article 1 ("Name and legal regime"), Article 6 ("Accounting record of shares"), Article 7 ("Rights attaching to shares"), Article 8 ("Increase and reduction of capital stock"), Article 11 ("Shareholders' Meeting"), Article 12 ("Types of Shareholders' Meeting"), Article 13 ("Call to the Shareholders' Meeting"), Article 14 ("Quorum"), Article 15 ("Right to information and attendance of Shareholders' Meetings"), Article 17 ("Presiding panel, deliberations"), Article 18 ("Minutes"), Article 20 ("Board of Directors"), Article 22 ("Board Committees and delegation of powers"), Article 23 ("Audit Committee"), Article 24 ("Appointments and Compensation Committee"), Article 29 ("Audit"), Article 32 ("Rules and method of liquidation") and Article 33 ("Scope of these Bylaws").
 - ◆ To approve the amendment of the Regulations of the Shareholders' Meeting to update their provisions as a result of various legislative reforms relating to corporations: Specifically, the following articles: Article 1 ("Purpose and entry into force of the Regulations"), Article 2 ("Company website"),

Article 3 ("Powers of the Shareholders' Meeting"), Article 5 ("Call notice"), Article 6 ("Shareholders' rights"), Article 8 ("Shareholders' right to information"), Article 9 ("Right to attend"), Article 11 ("Quorum"), Article 15 ("Constitution, deliberation and adoption of resolutions"), and Article 16 ("Minutes of the Shareholders' Meeting and certificate") of the Regulations of the Shareholders' Meeting.

- ◆ To approve the following authorizations for the derivative acquisition of treasury stock, voting separately on each of them:
 - Authorization for the derivative acquisition of treasury stock by the Company or by companies of the Red Eléctrica Group, and for the direct award of treasury stock to employees and Executive Directors of the Company and of the companies of the Red Eléctrica Group, as compensation.
 - Approval of a Compensation Plan for members of Management and the Executive Directors of the Company and of the companies of the Red Eléctrica Group.
 - Revocation of previous authorizations.
 - ◆ In relation to the Board compensation policy:
 - Approval of the report on the compensation policy for the Board of Directors of Red Eléctrica Corporación, S.A.
 - Approval of the compensation of the Board of Directors of Red Eléctrica Corporación, S.A. for 2010.
 - ◆ To delegate the broadest powers to be exercised on a several basis to the Chairman and to each of the members of the Board of Directors, and to the Secretary and Deputy Secretary of the Board, so that they may implement, execute and register each and every one of the resolutions adopted by the 2010 Shareholders' Meeting.
 - ◆ To report to the Shareholders' Meeting on each of the following matters:
 - The 2010 Annual Corporate Governance Report of Red Eléctrica Corporación, S.A.
 - The elements contained in the Management Report relating to Article 116 bis of the Securities Market Law.
6. The Board of Directors, in a meeting held on July 27, 2011, within the framework of the ongoing commitment to adopt corporate governance best practices, approved the Report on Gender Diversity which was submitted to the Corporate Responsibility and Governance Committee. Of note in the Report, as a new development, was the grant of the Equality in the Workplace logo by the Ministry of Health, Social Policy and Equality. This Report was published on the Company's website.
 7. At the same Board meeting referred to in the preceding point, an analysis was performed of the Company's Equality Policy, which was approved with a favorable report by the Corporate Responsibility and Governance Committee. Red Eléctrica's Equality Policy will be carried out by implementing in the organization the appropriate internal procedures and an Integral Equality Plan, which will be subject to ongoing monitoring and evaluation by such Committee.
 8. The Board of Directors, in a meeting held on October 27, 2011, at the proposal of the Corporate Responsibility and Governance Committee and in accordance with the provisions of Article 16 of the Board Regulations, approved the Plan for the Succession of the Chairman of the Company, complying with an increasingly common corporate governance recommendation worldwide, whereby large listed companies prepare and approve plans for the succession of their most senior executive or CEO, in order to reduce the impact that the change will have on the organization, endeavoring to ensure continuity in the corporate business and reducing, as far as possible, the risks and adverse effects

that may arise from the appointment of a new chairman, until he or she is fully integrated into the post. The chairman succession plan of the Company was approved on the basis of the special conditions present in Red Eléctrica's chief executive, which position is held by the chairman of the Board of Directors, as established in Article 25 of the Corporate Bylaws, which will require the candidate to have a particular set of skills, abilities and experience. The Plan establishes a succession procedure split into several phases, establishing the bodies responsible for the procedure, in order to create an environment in which the appointment of the Chairman may be carried out in an orderly and efficient manner that affects the normal operation of the Company as little as possible.

Chapter II. Main Awards and Recognition

There follows a list of the main awards and recognition received by the Company in fiscal year 2011 in the area of corporate governance; although some of them were obtained in the context of distinction in the area of corporate responsibility, the corporate governance aspect was acknowledged.

1. Inclusion, for the sixth year running, in the renowned Dow Jones Sustainability World Index (DJSI) with a score of 76 points out of 100.
2. "SAM Bronze" distinction of the Sustainability Yearbook 2011, a publication which distinguishes companies that stand out for their actions in corporate responsibility and sustainability and which make up the DJSI. Distinction awarded by the sustainability agency that analyzes the performance of Red Eléctrica in the area of sustainability and corporate responsibility.
3. Obtainment of an overall score of 4.5 points out of a maximum of 5 in the FTSE4Good index, following the last review performed in September 2011. This index, specialized in sustainability, includes listed companies throughout the world which meet the requirements pre-established by the stock exchange index.
4. Inclusion in September 2011 in the family of indexes of STOXX Global ESG Leaders, a company specialized in sustainability, which offers a representative sample at world level of leading companies in environmental, social and good governance standards, following the analysis performed of the information provided by Sustainalytics on the management of the company in the environmental, social and governance areas. In creating this index, consideration is given to the rankings of noteworthy companies in each area, that is, the sub-indexes STOXX Global ESG Environmental Leaders, the STOXX Global ESG Social Leaders and the STOXX Global ESG Governance Leaders.

Chapter IV. Annual Reports on Board Committee Activities

The 2011 Annual Reports on the Activities of the Corporate Responsibility and Governance Committee and of the Audit Committee are reproduced in full below.

Report on the Activities of the Corporate Responsibility and Governance Committee in 2011

1. Introduction

The Committee's Action Plan for 2012, as provided in Article 16.6 a) of the Board Regulations, provides for the preparation of an annual report on the activities carried on, to be incorporated in the Annual Corporate Governance Report.

2. Structure, composition and functions

2.1. Structure

Article 24.2 of the Corporate Bylaws and Articles 15 and 16 of the Board Regulations govern the structure, composition and functions of the Corporate Responsibility and Governance Committee.

The Committee is assigned powers regarding the appointment and removal of Directors and senior executives, their compensation, compliance with Director duties and observance of corporate governance principles and rules. Article 16.5 of the Board Regulations approved on January 28, 2010 has attributed new corporate responsibility functions to the Committee.

The Committee meets as often as is appropriate for the sound performance of its functions. In any event, the Committee must meet at least once every quarter, whenever called by its Chairman or so requested by two of its members, and whenever the Board of Directors or its Chairman requests that a report be issued or proposals be adopted.

Article 15.5 of the Regulations of the Board of Directors provides that meetings may be called, and the associated documentation sent, by telematic means that guarantee due security and confidentiality for the call notice and the related documentation.

The call notice, including the agenda, will be sent by the Committee Chairman or Secretary to each of its members at least three days in advance of the date scheduled for the meeting, unless the meeting needs to be called sooner for reasons of urgency.

Article 15.5 of the Board Regulations allows Committee meetings to be held for reasons of urgency and on an exceptional basis by conference call, videoconferencing or any other remote means of communication that enables them to be held, provided that all Committee members agree to it.

The Committee may be constituted with the attendance of the majority of its members and adopt decisions or recommendations by a majority vote, which decisions or recommendations must be recorded

in the Minutes at the end of the meeting. In order to better perform its duties, the Committee may propose to the Board of Directors that advice be sought from independent professionals and may access any type of Company information or documentation that it may require to perform its functions.

Article 15 of the Board Regulations provides that the Corporate Responsibility and Governance Committee will be comprised of a minimum of three and a maximum of five members, as determined by the Board, with a majority of External Directors and at least half of its members must be Independent Directors. The Chairman of the Committee will be an Independent Director elected by its members and the Committee Secretary is the Secretary of the Board of Directors.

Committee members are appointed and removed by the Board of Directors at the proposal of the Board Chairman. Committee members hold office for a period of three years, may be reappointed and stand down when they cease to be Directors or when so resolved by the Board of Directors, subject to a report by the Appointments, Compensation and Corporate Governance Committee. The Chairman is appointed by the Committee for a period of three years and may be reappointed after one year has elapsed since he vacated office.

2.2. Composition

At 2011 year-end and on the date of approval of this Report, the Corporate Responsibility and Governance Committee was composed of four Directors: three external directors and one executive director. Of the external directors, two are independent directors and one is a nominee director.

At its meeting of July 27, 2011, the Board of Directors, following a report from the Corporate Responsibility and Governance Committee and at the proposal of the Board of Directors, approved the reappointment of two of its directors as board members (Mr. Luis M^a Atienza Serna and Mr. Manuel Alves Torres) for a term of 3 years.

At 2011 year-end and on the date of approval of this Report, the composition of the Committee was as follows:

| Director | Position | Type of Director |
|-----------------------------|----------|----------------------|
| Antonio Garamendi Lecanda | Chairman | External Independent |
| María Ángeles Amador Millán | Member | External Independent |
| Luis María Atienza Serna | Member | Executive |
| Manuel Alves Torres | Member | External Nominee |

The Executive Director and Chairman of the Company, Mr. Luis Maria Atienza Serna, is a member of the Committee by unanimous decision of the Board of Directors, which considers his presence on the Committee to be of special interest, without prejudice to his abstaining or absenting himself during discussion of any matters that could affect him personally or give rise to a conflict of interest.

The independent directors have a voting majority on the Corporate Responsibility and Governance Committee, since in the hypothetical event of a tie between independent and other directors, the chairman, who must be an Independent Director, has a casting vote.

Mr. Antonio Garamendi Lecanda has completed the maximum term of 12 years as an independent director of RED ELÉCTRICA. As established in Article 7.2 c) of the Board Regulations, and in the UNIFIED GOOD

GOVERNANCE CODE and in the international corporate governance best practices, this is the maximum term for being considered an independent director. Accordingly, if his reappointment is proposed at the next Annual Shareholders' Meeting, he will be classified under the "other external directors" category.

If the Annual Shareholders' Meeting approves the appointment and reclassification of Mr. Garamendi as director of the Company, he should be immediately replaced as chairman of the Corporate Responsibility and Governance Committee, since this office must be held by an independent director, as established in the Corporate Bylaws and the Board Regulations.

2.3. Functions

Pursuant to Article 24 of the Corporate Bylaws, the basic responsibilities of the Corporate Responsibility and Governance Committee are as follows:

- a) To report on (and, in the case of Independent Directors, make) any proposals to be submitted by the Board of Directors to the Shareholders' Meeting for the appointment or removal of Directors, including in cases of co-optation.
- b) To propose the compensation policy for Directors and senior executives to the Board of Directors and ensure its observance.
- c) To assume such reporting, supervising and proposing functions in the area of corporate governance as may be determined by the Board of Directors, as long as no ad hoc Committee has been set up for those functions.

The above basic responsibilities are detailed in Article 16 of the Board Regulations, which establishes the following:

16.1 In relation to appointments, performance and removals:

- a) To report in advance on (and, in the case of Independent Directors, make) any proposals to be submitted by the Board of Directors to the Shareholders' Meeting for the appointment or removal of Directors, including in cases of co-optation.
- b) To report, prior to their submission to the Board of Directors, on proposals for the appointment or removal of the Secretary and the Deputy Secretary of the Board of Directors.
- c) To propose the system for selecting Independent Directors to the Board of Directors.
- d) To ensure that the candidates for filling a vacant directorship meet all of the requirements imposed in the legal provisions and in these Regulations.
- e) To evaluate the skills, knowledge and experience required on the Board and consequently define the functions and skills required of the candidates for each vacancy.
- f) To evaluate the time and dedication necessary for Directors to be able to perform their duties with due quality and efficiency, evaluating for these purposes whether their position as a Director is compatible with membership on other management bodies of companies.
- g) To report on such appointments and removals of senior executives of the Company and of Red

Eléctrica de España, S.A. Sole-Shareholder Company as the Chairman may propose to the Board of Directors.

- h)** To examine or organize, in the manner deemed appropriate, the process for succession of the Chairman and, as appropriate, to make proposals to the Board so the handover takes place in a planned and orderly fashion.
- i)** To ensure that gender diversity is taken into account when filling vacancies.
- j)** To consult with the Chairman, particularly when dealing with matters relating to Executive Directors.

16.2 In Relation to compensation

- a)** To propose to the Board:
 - The compensation policy for the Directors and senior executives of the Company and of Red Eléctrica de España, S.A. Sole-Shareholder Company;
 - The individual compensation and other contractual conditions of Executive Directors;
 - The basic terms and conditions of the contracts of senior executives of the Company and of Red Eléctrica de España, S.A. Sole-Shareholder Company.
- b)** To consult with the Chairman of the Company, particularly when dealing with matters relating to Executive Directors and senior executives of the Company and of Red Eléctrica de España, S.A. Sole-Shareholder Company.
- c)** To ensure compliance with the compensation policy established by the Company.

16.3 In relation to fulfillment of Directors' duties:

- a)** To ensure the fulfillment by the Directors of the obligations established in these Regulations, to report to the Board on their fulfillment, and to issue the relevant reports and proposals and, as applicable, on the measures to be adopted in the event of breach.
- b)** To authorize Directors to use corporate assets.

16.4 In relation to corporate governance rules:

- a)** To supervise compliance with the corporate governance rules, making proposals for improvement to the Board of Directors, and to receive information in this respect and, as appropriate, issue an annual report on the measures to be implemented and submit it to the Board.
- b)** To refer to the Board of Directors the proposals of the Audit Committee on the amendment of the Internal Code of Conduct on the Securities Markets.

16.5 In relation to corporate responsibility policy:

- a)** To propose and promote the Company's policy on corporate responsibility.
- b)** To report on and supervise corporate responsibility initiatives and proposals made or decided on by the organizational units responsible, and, as appropriate, refer the relevant report or proposal to the Board of Directors.
- c)** To annually prepare a report on corporate responsibility policy.

16.6 Other functions:

- a)** To keep the Board informed of its activities and to prepare an annual report to be included in the Annual Corporate Governance Report and an Action Plan for each year.
- b)** To propose and report on any other matter related to the foregoing that may be requested by

the Chairman or by the Board of Directors.

- c) To report to the Board on the performance of their duties by the Chairman and the plenary session of the Board.
- d) To verify the type of each Director for the purposes of the pertinent explanations by the Board to the Shareholders' Meeting that is to make or ratify the Director's appointment, and for the recording of the appointment in the Annual Corporate Governance Report.
- e) Any other powers attributed to it by the Board.

3. Activities carried on in 2011

Of the eleven (11) Corporate Responsibility and Governance Committee meetings held in 2011, no Directors failed to attend.

The Board of Directors was advised on a timely basis of the matters considered at each Committee meeting and copies of the Minutes of those meetings were sent immediately to the Directors.

The most significant steps taken by the Corporate Responsibility and Governance Committee in 2011 were:

3.1. In Relation to appointments, removals and reappointments

- ◆ Monitoring of the process of appointing/reappointing directors and preparing reports and proposals for the Board of Directors. In particular, the Committee has provided favorable reports to the Board of Directors on the following proposals from the chairman of the Board of Directors:
 - To reappoint Ms. Arantza Mendizábal Gorostiaga as a member of the Audit Committee, to discharge her office for a term of three years.
 - To reappoint Ms. María Jesús Álvarez González as a member of the Audit Committee, to discharge her office for a term of three years.

- ◆ Analysis of the proposal for the Annual Share Award Program for non-executive personnel, reporting favorably to the Board of Directors.
- ◆ Referral to the Board of Directors of the proposed compensation of the Board and its Committees for fiscal years 2011 and 2012.
- ◆ Review of compensation matters relating to Senior Management.

3.3. In Relation to corporate governance rules

- ◆ Approval of the Company's knowledge activities program for directors for 2011.
- ◆ Implementation over several months of the self-evaluation process for the Board of Directors, its Committees, and the Chairman of the Board of Directors and Chief Executive Officer, commenced at the beginning of 2011 which, by express decision of the Corporate Responsibility and Governance Committee, is being carried out with the support of external advisers with expertise in the area (KPMG), which provides the process with a more objective and independent external viewpoint.
- ◆ Preparation of the proposed 2010 Annual Corporate Governance Report, for referral to the Board of Directors.
- ◆ Preparation of the proposed Annual Gender Diversity Report for referral to the Board of Directors.
- ◆ Analysis and assessment of the Company's Equality Policy.
- ◆ Preparation of the procedure for electronic voting at the 2010 Annual Shareholders' Meeting, for approval by the Board of Directors.
- ◆ Preparation of the operating rules for the Shareholders' Electronic Forum, for approval by the Board of Directors.
- ◆ Review of the contents of the call notice and agenda for the Annual Shareholders' Meeting, and issue of a favorable report on the following sections relating to the call notice for the Annual Shareholders' Meeting:
 - Proposed amendment of the Bylaws and of the Shareholders' Meeting Regulations for their adaptation to the current legislation.
 - Proposed authorization from the Shareholders' Meeting to the Board for the derivative acquisition of treasury stock.
 - Proposed compensation of the Board of Directors and the report on the compensation policy for the Board of Directors, for fiscal year 2010.

- ◆ Review and approval of the Annual Report on the Monitoring of and Compliance with the Code of Ethics, presented by the Ethics Manager.
- ◆ Review of the proposed update to the Internal Code of Conduct on the Securities Market, for its adaptation to the Group's new corporate structure. The Committee has reported favorably on this proposal, for its approval by the Board of Directors.
- ◆ Review and preparation of the proposed amendment to the Board Regulations, to be submitted for approval by the Board of Directors, following the necessary technical adjustments, once the regulations implementing the Annual Corporate Governance Report and the new Annual Report on Directors' Compensation are published.
- ◆ Analysis and approval of the outline for the new design of the Annual Corporate Governance Report for fiscal year 2011, which takes into account the main new provisions established by Article 61 bis of the Sustainable Economy Law.
- ◆ Preparation and approval of the proposed Company Chairman Succession Plan.
- ◆ Approval of the proposed Criminal Risk Prevention Program for the companies of the Red Eléctrica Group, following the changes introduced by Organic Law 5/2010, of June 22, 2010, amending the Criminal Code.
- ◆ Approval of the Company's knowledge activities program for directors for fiscal year 2012.

3.4. In Relation to corporate responsibility policy

- ◆ Analysis of the Annual Report on Corporate Responsibility Policy.
- ◆ Analysis and monitoring of the external awards and recognition obtained by the Company in the area of corporate responsibility.

3.5. Other steps

- ◆ Approval of the Annual Report on the Committee's activities in 2010, for incorporation into the Annual Corporate Governance Report.
- ◆ Approval of the Committee's Action Plan for 2012.
- ◆ Approval of the meeting schedule for 2012.

4. Attendance by Directors at Meetings

Of the eleven (11) meetings held, no Directors were absent and no proxies were granted by Directors.

Report on the Activities of the Audit Committee in 2011

1. Introduction

The Audit Committee Action Plan for 2012 envisages the preparation, in the first quarter of the year, of a report on the Committee's activities in 2011, to be included in the Annual Corporate Governance Report of the Company, which constitutes the purpose of this document.

2. Structure, composition and functions

2.1. Structure and Composition

The Audit Committee is comprised of three members, pursuant to Article 23 of the Corporate Bylaws and Article 13 of the Board Regulations, from between a minimum of three and a maximum of five members, all of whom are External Directors and are appointed for a period of three years.

The Chairman of the Committee is elected by its members from among the Independent Directors who sit on the Committee, and the Committee Secretary is the Secretary of the Board of Directors.

Throughout 2011, the Committee was comprised of External Directors, with a majority of Independent Directors.

At its meeting of July 27, 2011, the Board of Directors, following a report from the Corporate Responsibility and Governance Committee, approved the reappointment for a term of 3 years of two of its directors as board members (Ms. Arantza Mendizábal Gorostiaga and Ms. María Jesús Álvarez González) and appointed Mr. José Folgado Blanco as a new board member for a term of 3 years following the expiration of the term for which Mr. Francisco Javier Salas Collantes had been appointed.

The composition of the Audit Committee at December 31, 2011 was as follows:

| Director | Position |
|--|------------------------|
| Arantza Mendizábal Gorostiaga (independent director) | Chairwoman |
| María Jesús Álvarez González (nominee director) | Member |
| José Folgado Blanco (independent director) | Member |
| Rafael García de Diego Barber | Non-Director Secretary |

The Directors on the Committee are particularly qualified to hold their positions, with broad professional experience, having held positions of the highest responsibility outside the RED ELÉCTRICA Group, in functions related to those entrusted to the Committee. Particularly notable is their appropriate grounding in economic, financial and accounting matters.

Set out below are brief summaries of the professional careers of its members:

- ◆ Ms. Arantza Mendizábal Gorostiaga holds a Doctorate in Economics and is Professor of Applied Economics at the Faculty of Economics of Universidad del País Vasco. She has been a distinguished researcher in the areas of industrial and technological policy, an MP member of the Economy and Finance Committee, the Budget Committee and Spokeswoman for the Industry, Trade and Tourism Committee of the Lower House of Parliament. In addition to her duties as Professor, she is currently the Director of the European Documentation Center of Universidad del País Vasco. She was appointed Chairwoman of the Audit Committee on July 20, 2009, for a period of three years.
- ◆ Ms. María Jesús Álvarez González holds a degree in Law and Economics and Business Administration. She has held various executive positions within SEPI and engaged in various activities in the banking and industrial sectors. In addition, she has been a member of the Boards of Directors of Enusa Industrias Avanzadas, S.A., Equipos Nucleares, S.A., Clínica Castelló, S.A., Indra Sistemas, S.A., Infoinvest, S.A., Infoleasing, S.A., Empresa Nacional de Residuos Radioactivos, S.A. (ENRESA), Aluminio Español, S.A., and Agencia Efe, S.A. She is currently the Economic-Finance Director of Sociedad Estatal de Participaciones Industriales (SEPI), member of the Management Committee of SEPI, and member of the Board of Trustees of the SEPI Foundation and of the SEPI Labor Foundation.
- ◆ Mr. José Folgado Blanco holds an Economics Degree, with honors, and a Doctorate in Economics from the Universidad Autónoma de Madrid. He has been the Director of the Economics Department of the CEOE, Member of the Economic and Social Council on behalf of the Business Organizations, Secretary of State of Budgets and Expenditure. Ministry of Economy and Finance, since May 1996, Secretary of State for the Economy, Energy and Small and Medium-sized Enterprises of the Ministry of Economy, since April 2000, Secretary of State of Energy, Industrial Development and of Small and Medium-sized Enterprises of the Ministry of Economy, since July 2002, MP of the province of Zamora in the Lower House of Parliament and Deputy Chairman of the Economics and Finance Committee, since March 2004. He is currently a Professor of Public Finance and Tax Systems at the Universidad Autónoma de Madrid on leave, Mayor of Tres Cantos (Madrid) since June 2007 and member of the Social Council of the Universidad Autónoma de Madrid.

The Committee Secretary is Mr. Rafael García de Diego Barber, the Secretary of the Board of Directors and the Head of the Company's Legal Department.

Mr. Luis Villafruela Arranz, Director of Regulation, and Ms. Esther Rituerto Martínez, the Director-General of Administration and Finance, also regularly attended Committee meetings to report on various matters falling within their areas of responsibility.

The meeting of February 2011, at which the financial statements of the Company and of its Group for fiscal year 2010 were reviewed, was attended by the external auditor of the Company and its Group for such fiscal year, PriceWaterhouseCoopers, which explained, as is customary, the philosophy and processes of the audit performed on the Group's companies. The Committee resolved to provide the Board with a favorable report on the presentation of the 2010 financial statements.

The Shareholders' Meeting of April 13, 2011, approved an amendment of the Corporate Bylaws to adapt them, among other rules, to the new legal requirements established in Law 12/2010, of June 30, 2010, which basically affect the composition, structure and functions of the Audit Committee. The purpose of the amendment has been to make certain technical adjustments to the Bylaws but without essentially affecting the composition or essence of the functions already attributed to the Audit Committee of the Company.

In particular, with respect to the composition of the Committee, the formal bylaw obligation has been established of having, at least, one independent director appointed taking into account his/her skills and experience in the areas of accounting, audits or both (although the Bylaws already contained the obligation that the chairman of the Audit Committee be an independent director; and the Board Regulations already expressly provided that when appointing all the members of the Committee, account would be taken of their skills and experience in the areas of accounting, audits or risk management).

2.2. Functions

Under Article 23 of the Corporate Bylaws and Article 14 of the Board Regulations, the functions of the Audit Committee include the provision of support to the Board of Directors in its function of supervision of the process of preparing economic and financial information, the internal control of the Company, the independence of the external auditor, compliance with statutory provisions and internal regulations, provisions relating to the Company's shareholders and any powers expressly attributed to it by the Board of Directors.

The above-mentioned amendment of the Bylaws approved by the Annual Shareholders' Meeting held in 2011 has also to a certain degree affected the functions of the Committee, adapting them to the strict wording of the new legislation; these functions have not changed in essence with respect to the functions established and implemented in the Board Regulations.

Accordingly, the new powers of the Audit Committee formally incorporated into the Bylaws include the following:

- ◆ To supervise the efficacy of the Company's internal control, any internal audit, and risk management systems, as well as discuss with the auditors any significant weaknesses of the internal control system detected in the course of the audit.
- ◆ To supervise the process of preparing and filing regulated financial information.
- ◆ To receive each year from the auditors written confirmation of their independence from the Company or from entities related to the Company directly or indirectly, as well as information on additional services of any kind provided to such entities by those auditors or by persons or entities related to those auditors in accordance with the provisions of the legislation in force.
- ◆ To issue, before the auditors' report is issued, a report each year expressing an opinion on the independence of the auditors or audit firms.

Among the powers that the Board Regulations attribute to the Audit Committee, the following, divided into groups, stand out:

1. In relation to economic and financial information, responsibility for supervising the process of preparation and integrity of the financial information of the Company and, where appropriate, its Group, ensuring that legislative requirements are taken into account, the consolidated group is adequately defined, and the applicable accounting principles and methods are correctly applied.

In addition, the need to review and report to the Board in advance on economic and financial information that the Company must disclose and send to the market supervisory bodies has been established. Following the recommendations of the Unified Good Governance Code, the Committee must ensure that any interim financial statements are prepared using the same accounting methods as annual financial statements and, where it sees fit, it may ask the external auditor to conduct a limited review.

2. In relation to internal control and risk management systems, the internal audit function has been given responsibility for ensuring the sound functioning of the internal reporting and control systems; the Audit Committee has been assigned the functions of monitoring the independence and efficacy of the internal audit function; supervising and controlling the process of selection, appointment, reappointment and removal of the head of the internal audit function, as well as its action plans; supervising and controlling the resources allocated to the internal audit function, including its budget; receiving periodic information on its activities; and verifying that senior management of the Company and of Red Eléctrica de España, S.A. Sole-Shareholder Company is acting on the conclusions and recommendations in its reports.

The head of internal audit must present an annual work program to the Committee, directly report on any incidents arising during its implementation and submit an activities report at the end of each year.

In addition, following the recommendations of the Unified Good Governance Code, the Committee must periodically supervise the internal control and risk management systems, so that the principal risks are adequately identified, managed and disclosed; and must also supervise the procedure established by the Board to enable employees to communicate any potentially significant irregularities, particularly financial and accounting irregularities, that they may detect at the Company.

3. In relation to the external auditor, particularly noteworthy is the responsibility for ensuring that the Company discloses any change of auditor to the CNMV as a material event and, if applicable, any disagreements with the outgoing auditor, and also for ensuring that the Company, within the scope of its responsibilities, complies with current rules regarding the provision of non-audit services, limits on concentration of the auditor's business and, in general, any other rules established to safeguard the independence of auditors. In the event of resignation of the external auditor, it must review the underlying circumstances, and verify that senior management of the Company and of Red Eléctrica de España, S.A. Sole-Shareholder Company is acting on the recommendations of the external auditor.
4. In relation to compliance with legal provisions and internal regulations, the Regulations establish the obligation on the Audit Committee to supervise compliance with the Internal Code of Conduct on the Securities Market and with the functions of the Oversight Body provided in that Code, periodically informing the Corporate Responsibility and Governance Committee of the degree of compliance with the Code and of any incidents that occur; to annually evaluate compliance with the rules of the Internal Code of Conduct on the Securities Market, and review compliance with the actions and measures resulting from reports or inspections by the supervisory and control authorities of the securities market.
5. In relation to the Company's shareholders, the Committee is responsible for entertaining and, if applicable, responding to any initiatives, suggestions or complaints raised by the shareholders within the scope of its jurisdiction and for reporting to the Shareholders' Meeting, as applicable, on any issues falling within its jurisdiction that are raised by shareholders.
6. The Other Responsibilities section provides for the Committee's duty to report to the Board on any related-party transactions proposed that require the Board's authorization and, in the event they take place, informing the Board in relation to transactions creating or acquiring interests in special-purpose vehicles or entities domiciled in countries or territories that are considered tax havens, and also on any transactions and operations that could impair the Group's transparency.

The principal activities undertaken by the Audit Committee in 2011, based on the above areas of responsibility, are described below.

3. Activities carried on in 2011

The Audit Committee has pursued its activities in accordance with the Annual Plan, approved by the Committee on December 13, 2010, in light of the responsibilities assigned to it in the Corporate Bylaws and the Board Regulations. This plan served as a guide for the preparation of the corresponding schedule of Committee meetings.

In addition, the Audit Committee reported on its activities to the Board of Directors at the Board meetings immediately following each Committee meeting, and provided the Directors with copies of the Minutes of its meetings.

The Audit Committee met ten (10) times in 2011, and reported ten times to the Board on its activities.

In 2011, the Audit Committee performed the following main tasks:

3.1. In relation to economic and financial information

A.9. State the conditions and term of the current authority conferred by the Shareholders' Meeting on the Board of Directors for acquisitions or transfers of treasury stock:

The Corporate Enterprises Law (LSC) has consolidated the legal regime applicable to the treasury stock of companies established in Law 3/2009, of April 3, 2009, on Structural Modifications to Commercial Companies, without introducing any material amendments to the regime.

In light of the foregoing, and although the authorization approved by the Shareholders' Meeting on May 20, 2010, in relation to the award of treasury shares, as compensation, to employees of the Company and of the RED ELÉCTRICA Group, was still in force, pursuant to the law, for another four years, it was submitted for approval by the Shareholders' Meeting held on April 13, 2011. It was intended that the shareholders renew the authorization granted last year, in accordance with the most recent corporate governance practices. As a separate item on the agenda, it was also intended to establish a Compensation Plan for members of Senior Management and the Executive Directors of Red Eléctrica Corporación, S.A., which may be extended to companies in its Consolidated Group, allowing part of their compensation to be awarded in the form of Company shares, on the same terms as last year and always within the maximum annual legal limit of €12,000 per participant, which enables certain tax advantages to be enjoyed (which are applied equally to all employees of the Company within their relevant Plan). This Plan requires a resolution with certain legally established conditions.

Accordingly, the Shareholders' Meeting of the Company held on April 13, 2011, gave an authorization to the Board of Directors, pursuant to the provisions of Article 146 and related provisions of the Corporate Enterprises

Law and other applicable legislation, for the derivative acquisition of treasury stock in Red Eléctrica Corporación, S.A. by the Company itself and by companies of the Red Eléctrica Group directly or indirectly and insofar as the Board of Directors considers that the circumstances so dictate, subject to the following conditions:

- ◆ The maximum number of shares to be acquired must not exceed the established legal limit, provided that the other applicable legal requirements can also be fulfilled.
- ◆ Acquisitions cannot be made for a consideration higher than the market value of the shares at the time of acquisition, or for a consideration lower than 50% of the market price at that time.
- ◆ The methods of acquisition may consist of sale and purchase, swap or any other type of transaction for consideration or for no consideration, as the circumstances so dictate. In the case of acquisition for no consideration, pursuant to the provisions of Article 146.4 of the Corporate Enterprises Law, the shares acquired may be partially paid-in.
- ◆ Pursuant to the provisions of Article 146.1 b) of the Corporate Enterprises Law, the acquisition, including any shares previously acquired by the Company and held as treasury stock, may not have the effect of leaving net worth below the amount of capital stock plus legal reserves or restricted reserves pursuant to the bylaws.

For these purposes, 'net worth' will be considered the amount classed as such pursuant to the criteria used to prepare the financial statements, reduced by the amount of income attributed directly to same and increased by the amount of uncalled subscribed capital stock, as well as by the nominal amount and the subscribed additional paid-in capital recorded for accounting purposes as shareholders' equity.

In accordance with paragraph three of Article 146.1 a) of the Corporate Enterprises Law, the Board of Directors of the Company may use some or all of the treasury stock acquired under this authorization and the treasury stock already owned by the Company on the date of approval of the resolution to implement compensation programs consisting of the direct award of shares to employees and Executive Directors of the Company and of the companies belonging to the RED ELÉCTRICA Group.

For all of the foregoing, an authorization as broad as may be necessary is granted to the Board of Directors to request all such authorizations and adopt all such resolutions as may be necessary or appropriate for compliance with the legislation in force, and the implementation and successful outcome of this resolution.

The term of this authorization will be five (5) years as from the date of this Shareholders' Meeting.

The Shareholders' Meeting expressly revoked and, therefore, rendered ineffective the authorization for the derivative acquisition of treasury stock given to the Board of Directors by the Shareholders' Meeting held on May 20, 2010.

A.10. Indicate, as appropriate, any statutory or bylaw restrictions on the exercise of voting rights, and any statutory restrictions on the acquisition or transfer of holdings in the capital:

State whether there are statutory restrictions on the exercise of voting rights: YES NO

**Maximum percentage of voting rights that may be exercised by
one shareholder due to special statutory restrictions (Electricity Industry Law)**

3 %
1 % (electricity industry)

**Maximum percentage of voting rights that may
be exercised by a shareholder due to bylaw restrictions**

3 %
1 % (electricity industry)

State whether there are bylaw restrictions on the exercise of voting rights: YES NO

Description of the statutory and bylaw restrictions on the exercise of voting rights

Each share gives the right to one vote and all shareholders are entitled to attend Shareholders' Meetings, without any required minimum number of shares, as was the case until the Special Shareholders' Meeting of July 17, 2003, which removed the bylaw requirement to hold at least 50 shares in order to attend Shareholders' Meetings.

Various amendments to Electricity Industry Law 54/1997 of November 27, 1997, affecting restrictions on voting rights were introduced with the entry into force of Law 17/2007 of July 4, 2007, amending Electricity Industry Law 54/1997 to adapt it to the provisions of Directive 2003/54/EC of the European Parliament and of the Council of June 26, 2003 concerning common rules for the internal market in electricity, a Community provision that has been superseded by Directive 2009/72/EC of July 13, 2009, which proclaims the mandatory independence of transmission companies and operators of European electricity systems.

Specifically, Subprovision Two of Additional Provision Three of Law 17/2007 established maximum limits on the exercise of voting rights, in order to guarantee the independence of a company engaging in regulated activities in the electricity industry which, as provided in Electricity Industry Law 54/1997 of November 27, 1997, constitute an essential service.

As a result, the Corporate Bylaws were adapted to such legislation. The literal wording of the Articles referring to restrictions on the exercise of voting rights is as follows:

«Article 5.- Capital

1. *The capital of the Company stands at two hundred and seventy million five hundred and forty thousand euros (€270,540,000), and is divided into one hundred and thirty-five million two hundred and seventy thousand (135,270,000) shares, of a single class and series, each with par value of two euros (€2), fully subscribed and paid in, and represented by book entries.*
2. *In accordance with the provisions of the Additional Provision Three of Law 17/2007 and the Electricity Industry Law:*
 1. *Unless otherwise permitted by law, the sum of the direct and indirect interests in the Company's capital held by any individual or legal entity may not at any time exceed five percent of the Company's capital. These shares may not be pooled for any purpose whatsoever. No shareholder may exercise more than three percent of voting rights. Parties that engage in activities in the electricity industry and those individuals or legal entities that directly or indirectly hold more than five percent of their capital, may not exercise more than one percent of voting rights. Furthermore, the sum of the direct or indirect interests held by parties that pursue activities in the electricity industry must not exceed forty percent.*
 2. *For the purposes of calculating the holding of each shareholder, a specific individual or legal entity shall be deemed to own, in addition to the shares and other securities owned or acquired by entities belonging to its group, as this term is defined in Article 4 of Securities Market Law 24/1988 of July 28, 1988, the shares or securities owned:*
 - a) *By persons acting in their own name but for the account of the former, on a concerted basis or as a part of a decision-making unit, the members of a legal entity's Board of Directors being deemed, unless proven otherwise, to act for the account of or on a concerted basis with such entity.*
 - b) *By shareholders with whom it exercises control over a controlled entity.*

In any event, regard shall be had both to the nominee ownership of the shares and other securities and to the voting rights enjoyed by any means.
3. *Without prejudice to the provisions of Article 6.2 of these Corporate Bylaws, the breach of the limits indicated in Article 5.2 or of those established at any time by the legislation in force shall entail the legal consequences specified therein, including, as*

the case may be, the imposition of the appropriate penalties and the provisions of these Bylaws.

The voting rights corresponding to the shares or other securities which, pursuant to the provisions of the legislation in force from time to time, exceed the limit specified in this Article shall be held in abeyance until such time as they comply with the limit.

4. As an exception to the general rule, and by reason of the special regime applied by the Electricity Industry Law to SEPI, the holding and voting rights of that company shall be governed by the provisions of these Corporate Bylaws, except as provided for in the Sole Additional Provision thereof.

Sole Additional Provision.- Special Regime for SEPI

1. By virtue of the provisions of the Electricity Industry Law, neither the limitations stipulated in Subprovision 2 of Additional Provision Three of Law 17/2007, nor the limitations stipulated in these Bylaws on the holding of shares in the Company and on voting rights shall apply to the State-owned Industrial Holdings Company. The State-owned Industrial Holdings Company will in all cases have a holding of not less than 10%.

2. Where a Director who is an individual holds office on behalf of the shareholder referred to in Transitional Provision Nine in relation to Article 34.1 of the Electricity Industry Law, his compensation must be in keeping with the applicable provisions on incompatibility in the public sector, notwithstanding any compensation that may accrue to such public shareholder, either because it has been directly appointed as a member of the Board of Directors or because of the services provided to the Board or its delegated Committees by the individuals representing such public holder of shares in the capital of the Company, and which exceed any compensation to which he may be personally entitled under such legislation, all of the foregoing, pursuant to Transitional Provision Nine, while such ownership situation is maintained».

There are no other additional bylaw restrictions differing from purely legal restrictions.

In turn, the National Energy Commission is authorized to take legal action to enforce the aforementioned statutory limits. Breach of the established shareholding limits constitutes a very serious infringement under the Electricity Industry Law and the individuals or legal entities that own the securities or to whom the excess shareholding is attributable will be liable.

The legal regime established by Directive 2009/72/EC, of July 13, 2009, which proclaims the mandatory independence of transmission companies and operators of European electricity systems, has endorsed the legal limitations on shareholders established in Law 17/2007.

Indicate whether there are statutory restrictions on the acquisition or transfer of holdings in the capital:

YES NO

Description of statutory restrictions on the acquisition or transfer of holdings in the capital

The transfer of the shares representing the capital of Red Eléctrica Corporación, S.A. is free and is not subject to any restriction. Electricity industry legislation establishes certain limits on shareholdings, in the terms set out above.

As for all listed entities, the acquisition of certain significant holdings must be notified to the issuer and to the CNMV, as provided in Article 53 of Securities Market Law 24/1988 of July 28, 1988, in Royal Decree 1362/2007 of October 19, 2007, and in CNMV Circular 2/2007 of December 19, 2007, which establish the first notification threshold at 3% of capital or voting rights.

A.11. Indicate whether the Shareholders' Meeting has resolved to adopt countermeasures in the event of a tender offer pursuant to the provisions of Law 6/2007

YES NO

If so, explain the measures approved and the circumstances in which the restrictions would be ineffective.

Antonio Garamendi Lecanda has completed the maximum term of 12 years as an Independent Director of RED ELÉCTRICA. According to the provisions of Article 7.2 c) of the Board Regulations, the Unified Good Governance Code and international corporate governance best practices, this is the maximum period for which he may be treated as an Independent Director and, therefore, if a proposal is made for his reappointment at the next Annual Shareholders' Meeting, he will be classed the category of "other External Directors."

If the Annual Shareholders' Meeting approves the reappointment of Mr. Garamendi as a Company Director, he must immediately be replaced as Chairman of the Corporate Responsibility and Governance Committee, a position which must be occupied by an Independent Director, in accordance with the Corporate Bylaws and the Board Regulations.

| Rafael Suñol Trepal | INYPSA Informes y Proyectos, S.A. | Director |

B.1.9. Indicate and explain, as appropriate, whether the Company has established rules on the number of Committees of which its Directors may be members:

YES NO

Explanation of the rules

As part of the basic duties of the Corporate Responsibility and Governance Committee in respect of the appointment and removal of directors, Article 16.1 f) of the Regulations of the Board of Directors provides for the evaluation of the time and dedication necessary for directors to perform their work with due quality and efficiency, evaluating for these purposes whether their position as a director is compatible with membership of other managing bodies of companies.

In this regard, the Corporate Responsibility and Governance Committee has the power to analyze and authorize, as the case may be, the members of the Board of Directors of Red Eléctrica to join the boards of directors of other companies.

Article 7.3 of the Board Regulations limits the maximum number of boards of other listed companies on which an Independent Director may sit to two.

B.1.10. Regarding Recommendation 8 of the Unified Code, state the general policies and strategies of the Company reserved for approval to the plenary session of the Board:

| | Yes | No |

| TOTAL (nota a): | 2,526 |

⁽⁴⁾ At the Company to which this report relates.

⁽⁵⁾ This section is broken down in the following table under "Other benefits".

(note a): The compensation of the Board of Directors, without taking into account the compensation of the Chairman in his capacity as Executive Director, amounted to €1,886,000, the same amount as in 2010. This compensation has remained unaltered since 2007.

(note b): The fixed compensation of the Chairman, in his capacity as Executive Director, amounted to €429,000, the same amount as in 2010. This fixed compensation has remained unaltered since 2008. In his capacity as member of the Board of Directors of REN, the Executive Director received compensation of €8,000 in 2011 (€29,000 in 2010) which, as in previous years, has been discounted from the fixed compensation. As of April 2011, REC holds the status of corporate Director on the Board of Directors of REN and the Company has therefore received the compensation directly since that date. Accordingly, for the Executive Director, the sum of the fixed compensation, life insurance and pension plan contributions, together with the compensation received in his capacity as member of the Board of Directors of REN, amounted to €429,000.

(note c): Eleven Board meetings were held in 2011, two less than in 2010.

| Other benefits | € Thousand |
|--|-------------------|
| Advances | |
| Loans granted | |
| Pension funds and plans: contributions | 6 |
| Pension funds and plans: agreed obligations | |
| Life insurance premiums | 11 |

b) Due to membership of the Company's Directors of other boards of directors and/or senior management of Group companies:

| Compensation Item | € Thousand |

c) Total compensation by type of Director:

| Type of Director | By company | By Group |
|----------------------|--------------|----------|
| Executive | 822 | |
| External Nominee | 517 | |
| External Independent | 1,187 | |
| Other External | | |
| TOTAL | 2,526 | |

The compensation of the Executive Director, including the compensation received from REN, amounts to €831,000 in 2011 (€825,000 in 2010). The variation in compensation in 2011 compared to 2010 is fundamentally due to variable compensation.

d) With respect to income attributed to the parent company ⁽⁶⁾:

| | |
|---|-------|
| Total Directors' compensation (€ thousand) | 2,526 |
| Total Directors' compensation / Income allocated to parent company (as a %) | 0.54 |

B.1.12. Identify the members of senior management who are not, in turn, Executive Directors, and indicate the total compensation paid to them during the year ⁽⁷⁾:

Set forth below is the information regarding the members of senior management that provide services within the Red Eléctrica Group:

| Name | Position |
|--------------------------------|--|
| Carlos Collantes Pérez-Ardá | Director-General of Transmission |
| Esther María Rituerto Martínez | Director-General of Finance and Administration |
| Alberto Carbajo Josa | Director-General of System Operation |

| | |
|--|-----------------------------|
| Total senior management compensation (€ Thousand) | 1,023 ⁽⁸⁾ |
|--|-----------------------------|

(6) The income obtained by the RED ELÉCTRICA Group and attributed to the parent company in 2011 amounted to €460,348,000 (€390,150,000 in 2010).

(7) Exclusively for the purposes of CNMV Circular 4/2007 of March 27, 2007, members of senior management are those individuals who manage the Company at the highest level (excluding the CEO) and, consequently, independently of their legal employment relationship with the Company.

(8) This amount includes €57,000 of life insurance and pension plan contributions.

B.1.13. Identify, in aggregate terms, whether there are any safeguard or golden parachute clauses for members of senior management, including the Executive Directors of the Company or of its Group, in the event of dismissal or changes in control. Indicate whether these contracts have to be disclosed to and/or approved by the bodies of the Company or of its Group:

| | | |
|--|---------------------------|------------------------------|
| Number of beneficiaries | 3 | |
| Body authorizing the clauses | Board of Directors | Shareholders' Meeting |
| | X | |
| Is the Shareholders' Meeting informed of the clauses? | YES | NO |
| | X | |

There are safeguard or golden parachute clauses in favor of the Executive Director to cover dismissal or changes in control. These clauses were proposed by the Appointments, Compensation and Corporate Governance Committee (now called the Corporate Responsibility and Governance Committee) and approved by the Board of Directors. These clauses are in line with standard market practices and cover the termination of the employment relationship, providing for indemnification of one year's salary, unless the applicable legislation provides for a higher amount.

In 2011, there are also safeguard or golden parachute clauses for dismissal in favor of two executives. These clauses are in line with standard market practices and cover the termination of the employment relationship, providing for indemnification of up to two years' salary, unless the applicable legislation provides for a higher amount. The contracts containing these clauses were approved by the Appointments, Compensation and Corporate Governance Committee and they were duly notified to the Board of Directors.

B.1.14. Indicate the process for establishing the compensation of the members of the Board and the relevant Bylaw provisions:

Process for establishing the compensation of Board members and Bylaw clauses

Provisions regarding the compensation of the members of the Board of Directors are currently contained in Article 20 and in the Sole Additional Provision of the Bylaws, as well as in Article 27 of the Board Regulations. These provisions are set forth below:

I. Corporate Bylaws:

Article 20:

«...The compensation of the Board of Directors shall consist of a fixed monthly fee for the attendance of Board meetings and a share in the Company's income. Overall annual compensation for the entire Board and for the above items shall be 1.5 percent of the Company's net income, approved by the Shareholders' Meeting. The above compensation is, in all cases, a maximum figure and the Board itself shall be in charge of allocating the amount among the aforesaid items and among the Directors in such manner, at such time and in such proportion as it freely determines. Pursuant to Article 218.2 of the Corporate Enterprises Law, compensation in the form of a share in income may only be received by Directors after the provisions to the legal and bylaw reserves have been covered and the shareholders have been recognized a dividend of not less than 4%.

Compensation consisting of the award of shares or stock options or compensation linked to share value shall require a resolution

of the Shareholders' Meeting, which must state the number of shares to be awarded, the price for exercising the options, the share value taken as a reference and the term of this compensation system.

The compensation stipulated in this Article shall be compatible with and independent of salaries, wages, severance pay, pensions or compensation of any kind established generally or individually for members of the Board of Directors who hold an ordinary or special senior management employment relationship or an independent professional relationship with the Company, which relationships shall be compatible with the status of member of the Board of Directors».

Sole Additional Provision, second paragraph:

«Where a Director who is an individual holds office on behalf of the shareholder referred to in Transitional Provision Nine in relation to Article 34.1 of the Electricity Industry Law —the State-owned Industrial Holdings Company—, his compensation must be in keeping with the applicable provisions on incompatibility in the public sector, notwithstanding any compensation that may accrue to such public shareholder, either because it has been directly appointed as a member of the Board of Directors or because of the services provided to the Board or its delegated Committees by the individuals representing such public holder of shares in the capital of the Company, and which exceed any compensation to which he may be personally entitled under such legislation, all of the foregoing, pursuant to Transitional Provision Nine, while such ownership situation is maintained».

II. Board Regulations (Article 27):

1. Directors shall be entitled to obtain such compensation as is established by the Shareholders' Meeting and by the Board of Directors in accordance with the provisions of the Corporate Bylaws and those contained in these Regulations.

2. The compensation policy approved by the Board of Directors shall cover at least the following matters:

- a) The amount of the fixed compensation items, itemizing any fees for attending Board and Committee meetings, with an estimate of the annual fixed compensation to which they give rise.
- b) Variable compensation items, including, in particular:
 - i) The types of Director to which they apply, with an explanation of the relative weighting of variable to fixed compensation items.
 - ii) Criteria for evaluating results on which any right to compensation is based.
 - iii) Fundamental parameters and the basis for any system of annual bonuses or other benefits not paid in cash.
 - iv) An estimate of the absolute amount of the variable compensation arising from the proposed compensation plan, depending on the degree of compliance with the assumptions or objectives taken as a reference.

This shall also include the technical safeguards necessary to ensure that such variable compensation is in line with the professional performance of its beneficiaries and is not merely the result of the general performance of the markets or of the industry in which the Company operates, or other similar circumstances.

- c) The principal characteristics of the corporate welfare systems, with an estimate of their amount or equivalent annual cost.
- d) Conditions that must be observed in the contracts of those exercising senior management functions as Executive Directors, including term, advance notice periods and any other clauses relating to signing bonuses, as well as indemnification for early termination or termination of the contractual relationship between the Company and the Executive Director.

3. Compensation by way of the award of Company shares, on the terms authorized by the Shareholders' Meeting, variable compensation linked to the Company performance and corporate welfare systems shall be reserved to Executive Directors.

4. Compensation linked to the Company's earnings shall take into account any qualifications stated in the external auditor's report that reduce such income.

5. Directors' compensation shall be transparent. For such purpose, the Corporate Responsibility and Governance Committee shall prepare an annual report on Directors' compensation, which shall include:

- a) An individual breakdown of the compensation obtained by each Director, to include, where appropriate:
 - i) Any attendance fees and other fixed compensation as Director.
 - ii) Additional compensation as a member of any Board Committee.
 - iii) Any compensation in the form of a share in income or premiums, and the reason for which it is granted.
 - iv) Contributions on behalf of Executive Directors to fixed-contribution pension plans, or any increase in the vested rights of Executive Directors in the case of contributions to fixed-benefit plans.
 - v) Any severance agreed or paid in the event of termination of their functions.
 - vi) Any compensation received as a Director of other Group companies.
 - vii) Compensation for the performance of senior management functions by Executive Directors.

viii) Any other compensation item other than those listed above, regardless of its nature or the Group company that pays it, especially where it is deemed a related-party transaction or where its omission distorts the true and fair view of the compensation received by the Director.

b) An individual breakdown of any award of shares to Executive Directors, on the terms authorized by the Shareholders' Meeting.

c) Information on the relationship, in the preceding year, between the compensation obtained by Executive Directors and the earnings or other performance indicators of the Company.

Indicate whether approval of the following decisions is reserved to the plenary session of the Board:

| | YES | NO |
|---|-----|----|
| At the proposal of the Company's Chief Executive, the appointment and removal of senior executives and their indemnification clauses. | X | |
| Directors' compensation and, in the case of Executive Directors, the additional consideration for their executive functions and other contractual conditions that must be observed. | X | |

B.1.15. Indicate whether the Board of Directors approves a detailed compensation policy and specify the matters addressed by it:

YES NO

| | YES | NO |
|--|-----|----|
| The amount of the fixed compensation items, broken down, where necessary, into attendance fees for Board and Board Committee meetings, and an estimate of the fixed annual compensation to which they give rise. | X | |
| Variable compensation items. | X | |
| The principal characteristics of corporate welfare systems, with an estimate of their amount or equivalent annual cost. | X | |
| Conditions to be respected in the contracts of those individuals exercising senior management functions as Executive Directors. | X | |

B.1.16. Indicate whether the Board submits a report on the Directors' compensation policy to the advisory vote of the Shareholders' Meeting, as a separate item on the agenda. As appropriate, explain the aspects of the report on the compensation policy approved by the Board for future years, the most significant changes in that policy by comparison with the policy applied during the year, and an overall summary of how the compensation policy was applied during the year. Describe the role of the Compensation Committee and, where external advisers have been used, identify the external consultants engaged:

YES NO

Matters addressed by the compensation policy report

The report on Red Eléctrica's compensation policy is prepared following the recommendations of the Conthe Code (section 40), the European Commission Recommendation of December 14, 2004 and the European Commission Recommendation of April 30, 2009 as regards the regime for the remuneration of Directors of listed companies, which has been incorporated into Sustainable Economy Law 2/2011, of March 4, 2011, which added Article 61 ter to the Securities Market Law. This Article introduces the obligation of the boards of directors of listed companies to prepare an annual report on directors' compensation, to include complete, clear and understandable information on the compensation policy of the company approved by the board for the year in question and, as the case may be, the policy envisaged for future years. It also establishes that the report shall also include an overall summary of how the compensation policy was applied during the year, and a breakdown of the individual compensation earned by each Director, which shall be disclosed and submitted to the advisory vote of the Annual Shareholders' Meeting, as a separate item on the agenda.

Over and above the requirements of Article 61 ter of the Securities Market Law, for several years now Red Eléctrica has been voluntarily submitting the compensation of the Board of Directors of the Company for approval by the Annual Shareholders' Meeting. Both the report on director's compensation and the resolution to be proposed to the Shareholders' Meeting regarding Board compensation will be submitted by the Board — as separate items on the Agenda for the Shareholders' Meeting— to the Annual Shareholders' Meeting.

This year, the report on directors' compensation has been prepared by taking into account not only the requirements of the new Article 61 ter of the Securities Market Law but also the requests for information from foreign international investors and their advisers, as well the most advanced national and international corporate governance practices in this area.

For further information, please see the 2011 Annual Report on Directors' Compensation.

Role of the Corporate Responsibility and Governance Committee

The policy for applying the bylaw compensation criteria was proposed by the Corporate Responsibility and Governance Committee and approved by the Board of Directors, without prejudice to its subsequent submission to the Shareholders' Meeting for approval.

The Committee met on 11 occasions in 2011, for the most part to address compensation matters relating to the Company's Board and senior management.

B.1.18. Indicate whether there have been any amendments to the Board Regulations during the year:

YES NO

Description of amendments

B.1.19. Indicate the procedures for the appointment, reappointment, evaluation and removal of Directors. Give details of the competent bodies, the formalities to be fulfilled and the criteria to be used in each of the procedures.

1. Appointment and reappointment

Article 19 of the Board Regulations provides that Directors will be appointed by the Shareholders' Meeting or by the Board of Directors by way of co-optation. The Corporate Responsibility and Governance Committee must report in advance on the proposed appointment of Directors, including by way of co-optation. Within the scope of its powers, the Board of Directors will procure that the candidates appointed are of good standing, competence and experience, as provided in Article 20 of the Regulations.

As provided in Article 21 of the Regulations, Directors will hold office for the period stipulated in the Corporate Bylaws. Proposals submitted by the Board to the Shareholders' Meeting for the appointment or reappointment of Directors, as well their provisional appointment by co-optation, will be approved by the Board:

- i) At the proposal of the Corporate Responsibility and Governance Committee, in the case of Independent Directors.
- ii) Following a report by the Corporate Responsibility and Governance Committee in the case of all other Directors.

Article 20 of the Corporate Bylaws establishes a four-year term of office for Directors, who may be reappointed indefinitely. As provided in Article 7 of the Board Regulations, Independent Directors may not remain in office for a continuous period of more than twelve years.

In October 2011, the Board of Directors approved a Board Chairman Succession Plan, in accordance with the most recent international corporate governance practices. More information on this is set forth in section G) of this Report.

2. Evaluation of Directors

As in every year, the Board has begun the yearly self-evaluation of the Board, its Committees and its Chairman.

After the consideration given in 2010 to the possibility of having the self-evaluation process reviewed by external advisers with a view to optimizing the methodology used and aligning it with the best practices in this area, the 2011 self-evaluation is being carried out with the support of expert external advisers (KPMG).

The conclusions of the KPMG report on the findings of the evaluation highlight the high level of commitment of the Directors, their pride in belonging to the Company, their commitment to excellence in the management of the company and the continuous incorporation of corporate governance best practices. The report also contemplates certain ways of improving Board practices, including strengthening communications with shareholders and investors in general, reinforcing the role of Independent Directors in Board tasks or the role of the Board in defining and monitoring the risk control policy.

3. Removal

Article 22 of the Board Regulations provides that Directors will cease to hold office at the end of the term for which they were appointed or when so decided by the Shareholders' Meeting in exercise of the authority conferred upon it by law or the Bylaws. The Board of Directors must not propose the removal of an Independent Director prior to the completion of the term of office specified in the bylaws for which the Director was appointed, unless there is just cause and subject to a report from the Corporate Responsibility and Governance Committee.

Directors must tender their resignation to the Board of Directors and, if the Board deems it appropriate, formally resign in the cases contemplated in Article 22.2 of the Board Regulations and listed in section B.1.20 below.

Article 22.3 of the Board Regulations provides that Committee members will vacate their office when they relinquish their directorships.

When a Director vacates his office before the end of his term, by reason of resignation or otherwise, he will explain the reasons in a letter to be sent to all members of the Board, the matter being reported in the Annual Corporate Governance Report, as provided in Article 22.4 of the Board Regulations.

B.1.20. Indicate the cases in which Directors must resign:

Article 22.2 of the Board Regulations provides that Directors must tender their resignation to the Board of Directors and, if the Board deems it appropriate, formally resign, in the following cases:

- a) Upon reaching 70 years of age.*
- b) When they are subject to any of the grounds of incompatibility or prohibition provided for by law.*
- c) When they are convicted of an offense or penalized for a serious or very serious infringement in disciplinary proceedings conducted by the supervisory authorities of the securities, energy and telecommunications markets.*
- d) When they have seriously breached their obligations as Directors.*
- e) When they stand down from the executive positions with which their appointment as Director was associated.*

- f) When their continued presence on the Board jeopardizes the Company's interests, in particular, in relation to Article 30.4 of these Regulations, and the Board deems this to be the case with the affirmative vote of two-thirds of its members.
- g) In the case of a Nominee Director, when the shareholder whose shareholding interests he represents on the Board disposes of its shareholding in the Company or reduces it below the level which reasonably justified his appointment as such».

B.1.21. Explain whether the function of Company Chief Executive falls to the Chairman of the Board. As appropriate, indicate what measures have been taken to limit the risks of power being concentrated in the hands of one person:

YES NO

Measures to limit risks

Article 25 of the Corporate Bylaws states that the Chairman of the Board is the Chairman of the Company and of its governing and management bodies.

Furthermore, he is the person responsible for senior management and full representation of same in all matters, acting with the powers delegated by the Board.

The Chairman has the power to adopt, for reasons of urgency, the measures he deems appropriate in the interests of the Company, but must immediately report on such measures to the Board of Directors. All of the foregoing is without prejudice to regular reporting to ordinary Board meetings on the corporate management of the different areas of the Company, requesting, as the case may be, approval of the resolutions submitted.

In particular, pursuant to the provisions of Article 5.6 of the Board Regulations, the Board is reserved «*the direct exercise of the following responsibilities that cannot be delegated, except for those contemplated in letters b) and c) below, which may be adopted for reasons of urgency by the Chairman of the Company and subsequently ratified by the Board:*

a) Approval of the general policies and strategies of the Company and, in particular:

- i) Approval of the strategic or business plan of the Company and its Group, as well as the annual budget and management objectives.
- ii) Approval of the investment and financing policy.
- iii) Approval of the definition of the structure of the corporate Group.
- iv) Approval of the corporate governance policy.
- v) Approval of the corporate responsibility policy.
- vi) Approval of the policy regarding compensation and evaluation of senior executives.
- vii) Approval of the policy for control and management of the principal risks of the Company and of the Group, and knowledge and periodic monitoring of internal control, prevention and reporting systems.

The risk control and management policy shall identify at least the following:

- The different kinds of risk (operating, technological, financial, legal, reputational, etc.) the Company is exposed to, including contingent liabilities and other off-balance-sheet risks among the financial or economic risks.
- The determination of the risk level the Company deems to be acceptable.
- The measures envisaged to mitigate the impact of the identified risks, should they materialize.
- The internal reporting and control systems to be used to control and manage the above risks, including contingent liabilities and off-balance-sheet risks.

viii) Approval and, if applicable, proposal to the Shareholders' Meeting of the dividend and treasury stock policies, in particular, the limits thereof.

ix) Those specifically stipulated in these Regulations.

b) The following decisions:

- i) Directors' compensation and, in the case of Executive Directors, the additional consideration for their executive functions and other contractual conditions that must be observed.
- ii) Financial information that the Company must periodically disclose as a listed company.
- iii) Investments or transactions deemed to be strategic by virtue of their high amount or special characteristics, unless their approval corresponds to the Shareholders' Meeting.
- iv) The creation or acquisition of holdings in special-purpose vehicles or entities domiciled in countries or territories that are considered tax havens, and any other transactions and operations that could impair the transparency of the Group.

c) Related-party transactions, as defined by the legislation in force from time to time, that are material or outside the ordinary course of business of the Company and must be reported obligatorily to the securities markets, pursuant to the aforementioned legislation, following a report by the Audit Committee.

Where a related-party transaction involves a Director, in addition to not exercising or delegating his right to vote, the Director shall leave the meeting while the Board of Directors deliberates and votes on the transaction, after having informed the Board of the transaction.

d) The annual evaluation of:

- i) The quality and efficiency of the functioning of the Board and the performance by the Chairman of his functions, based on a report referred thereto by the Corporate Responsibility and Governance Committee.
- ii) The functioning of its Committees, based on the reports referred thereto by them».

To all of the foregoing it should be added that the existence of the Audit Committee and of the Corporate Responsibility and Governance Committee, entirely composed of members of the Board of Directors specializing in matters within their sphere of responsibility, reinforces the specific control exercised over the basic and strategic responsibilities of the Board of Directors, which in no event will be performed exclusively by the Chairman.

Indicate and, as appropriate, explain whether rules have been established allowing Independent Directors to request the call of Board meetings or the inclusion of new items on the agenda in order to coordinate and give voice to the concerns of External Directors and to lead the evaluation by the Board of Directors.

YES NO

Explanation of the rules

Directors may request the inclusion of new items on the agenda for Board meetings without limitation. In this regard, pursuant to Article 17 of the Board Regulations, a Board meeting may be called by three Directors.

Therefore, any Director may request a Board meeting to be called, and, where jointly requested in writing by three Directors, independently of the type of Director, the Corporate Bylaws and the Board Regulations establish that the Board must meet, thus providing greater flexibility for calling Board meetings.

Management of the evaluation process is expressly delegated to the Corporate Responsibility and Governance Committee.

The Board Regulations attribute to the Chairman of the Corporate Responsibility and Governance Committee, who is an Independent Director, the function of communication and coordination between External and/or Independent Directors in the discharge of their duties, and include the possibility of requesting a Board meeting to be called or the inclusion of new items on the agenda at the request of any Director, as well as the coordination of the concerns of External Directors.

Law 25/2011, of August 1, 2011, partially reforming the Corporate Enterprises Law, establishes the possibility that Directors making up less than one-third of the members of the Board may call a Board meeting, setting the agenda, to be held in the municipality of the registered office, if, after making a request to the Chairman, the Chairman fails to call the meeting within one month without just cause.

B.1.22. Are qualified majorities, other than the statutory majorities, required for any type of decision?

YES NO

Article 3.4 of the Board Regulations provides that, in order to be valid, any amendment of the Regulations will require a resolution adopted by a two-thirds majority of the Directors present.

Indicate how resolutions are adopted on the Board of Directors and specify, at least, the minimum attendance quorum and the type of majority for adopting resolutions:

| Adoption of resolutions | | |
|---|--|------------------|
| Type of resolution | Quorum | Type of majority |
| Any resolution, with the exception of amendments to the Board Regulations | Half plus one of the Directors present in person or by proxy | Simple |

No provision is made for resolutions that require a qualified majority for their adoption, apart from those specifically contemplated in the applicable legislation and those relating to amendments to the Board Regulations.

Except in cases where other quorum requirements have been specifically established, the Board will be validly constituted where at least half plus one of its members are present, in person or by proxy. Where an odd number of Directors are present, a sufficient quorum will be deemed to exist if the next whole number immediately exceeding half of the Directors is present.

Article 21 of the Corporate Bylaws establishes that any Director may grant a proxy to another Director, in writing and specifically for each meeting, to attend and vote on his behalf at meetings of the Board of Directors, procuring that the proxy is granted to a Director of the same type as the Director represented (Article 28.2 b of the Board Regulations).

The Chairman will be tasked with organizing the debate, ensuring and encouraging the participation of all Directors in Board deliberations, and putting the items to a vote once he deems them to have been sufficiently debated. Each Director, present in person or by proxy, will have one vote.

Article 21 of the Bylaws and Article 18 of the Board Regulations establish that resolutions will be adopted by majority vote, unless the law requires that resolutions be adopted by a higher majority or in the aforesaid case of amendment of the Regulations of the Board of Directors, as specified in Article 3.4 thereof.

B.1.23. Explain whether there are any specific requirements, apart from those relating to the Directors, to be appointed Chairman:

YES NO

Description of requirements

B.1.24. Indicate whether the Chairman has a casting vote:

YES NO

Matters on which there is a casting vote

In the event of a tied vote, the Chairman will have the casting vote and will decide upon the issue independently of the subject matter of the resolution being voted on (Article 21 of the Corporate Bylaws and Article 18.3 of the Board Regulations).

B.1.25. Indicate whether the Bylaws or the Board Regulations impose any limit on the age of Directors:

YES NO

Age limit for Chairman 70 **Age limit for Managing Director** — **Age limit for Director** 70

Article 22 of the Board Regulations provides that Directors must tender their resignation to the Board of Directors and, where the Board deems it appropriate, formally resign once they reach seventy (70) years of age.

B.1.26. Indicate whether the Bylaws or Board Regulations establish any limit on the term of office of Independent Directors:

YES NO

Maximum number of years in office 12

As with all other Company Directors, Independent Directors will hold office for four years and may be reappointed indefinitely.

Notwithstanding the foregoing, as provided in Article 7.2 c) in fine of the Board Regulations, Independent Directors may not remain in office for a continuous period of more than twelve years.

Antonio Garamendi Lecanda has completed the maximum term of 12 years as an Independent Director of RED ELÉCTRICA. According to the provisions of Article 7.2 c) of the Board Regulations, the Unified Good Governance Code and international corporate governance best practices, this is the maximum period for which he may be treated as an Independent Director and, therefore, if a proposal is made for his reappointment at the next Annual Shareholders' Meeting, he will be classed the category of "other External Directors."

If the Annual Shareholders' Meeting approves the reappointment of Mr. Garamendi as a Company Director, he must immediately be replaced as Chairman of the Corporate Responsibility and Governance Committee, a position which must be occupied by an Independent Director, in accordance with the Corporate Bylaws and the Board Regulations.

As already indicated in Section B.1.19 above, unless there is sufficient cause and subject to a report by the Corporate Responsibility and Governance Committee, the Board of Directors may not propose the removal of any External Directors before the end of the term for which they were appointed.

B.1.27. Where female Directors are few or non-existent, explain the reasons why and the initiatives adopted to correct the situation.

Explanation of reasons and initiatives

In line with Recommendation 15 of the Conthe Code, the aim of gradually adding female Directors with the appropriate qualifications and experience to the Board served as a guide for the reports and proposals of the Corporate Responsibility and Governance Committee and of the Board of Directors. As a result, two female Directors were appointed by the Annual Shareholders' Meeting held on May 22, 2008.

At 2011 year-end, the Board of Directors of Red Eléctrica Corporación S.A. had the same number of female Directors as at 2010 year-end, that is, 3 female Directors (2 Independent and 1 Nominee) out of a total of 11 Directors, meaning that women represented 27.3% of the Board.

The commitment of the Board of Directors of Red Eléctrica to strengthening the presence of women is an objective of good corporate governance policies, both on the Board of Directors and in Company Management and the rest of the organization of the main companies of the Red Eléctrica Group. Its pursuit must be ongoing in order to consolidate a responsible corporate management model based, among other aspects, on active management of the principles of equality and non-discrimination.

As part of its ongoing commitment to adopt corporate governance best practices, the Board of Directors assumed the obligation of approving an annual report on gender diversity matters at the proposal of the Corporate Responsibility and Governance Committee, and the first edition of the report was approved at the end of 2008.

In line with this commitment, the Board meeting held on July 27, 2011 approved the Report on Gender Diversity, which was referred to it by the Corporate Responsibility and Governance Committee, and was notably granted the *Igualdad en la Empresa* (Equality in Enterprise) distinction by the Ministry of Health, Social Policy and Equality. This Report has been published on the Company's website.

The same Board meeting of July 27, 2011 also analyzed the content of a Company Equality Policy, which was approved following a favorable report by the Corporate Responsibility and Governance Committee.

The Red Eléctrica Equality Policy will be implemented by setting up the relevant internal procedures at the Company and establishing an Integral Equality Plan, which shall be subject to continuous monitoring and evaluation by the Corporate Responsibility and Governance Committee and by the Board of Directors.

In particular, indicate whether the Appointments and Compensation Committee has established procedures so that selection processes do not suffer from implicit bias preventing the selection of female Directors and consciously seek candidates that meet the required profile:

YES NO

Identify the main procedures

As stated, the measures put in place by the Company are aimed at actively promoting the selection of female Directors and their incorporation onto the Board of Directors, on the terms provided in Recommendation 15 of the Conthe Code and in accordance with Article 16.1 of the Board Regulations.

B.1.28. Indicate whether there are any formal procedures for granting proxies to vote at Board meetings. If so, give brief details:

Each Director may grant a proxy to another Director, in writing and specifically for each meeting, to represent him/her and vote on his/her behalf at the meetings of the Board of Directors. This is provided in Article 21 of the Corporate Bylaws.

Where a Director cannot, with just cause, attend the Board meeting(s) to which he has been called, he must give instructions to the Director that is to represent him, procuring that he is represented by a Director of the same type, as provided in Article 28.2 b) of the Board Regulations.

B.1.29. Indicate the number of Board meetings held during the year. Also indicate, as appropriate, how often the Board met without the Chairman's attendance:

| | |
|---|----|
| Number of Board meetings | 11 |
| Number of Board meetings not attended by the Chairman | 0 |

Indicate how many meetings of the various Board Committees were held during the year:

| | |
|--|----|
| Number of Executive or Delegated Committee meetings | — |
| Number of Audit Committee meetings | 10 |
| Number of Appointments and Compensation Committee meetings | 11 |
| Number of Appointments Committee meetings | — |
| Number of Compensation Committee meetings | — |

B.1.30. Indicate how many Board meetings held during the year were not attended by all members. Proxies granted with no specific instructions will be treated as absences:

| | |
|---|----|
| Number of Director absences during the year | 7 |
| Absences as a percentage of total number of votes during the year | 6% |

B.1.31. Indicate whether the individual and consolidated financial statements submitted for approval by the Board are certified beforehand:

YES NO

Indicate, as appropriate, the person(s) who certified the Company's individual and consolidated financial statements for their preparation by the Board:

| Name | Position |
|------|----------|
| | |

B.1.32. Explain the mechanisms, if any, established by the Board of Directors to prevent the individual and consolidated financial statements prepared by it from being submitted at the Shareholders' Meeting with a qualified auditors' report:

The Board Regulations expressly establish that the Company's Board of Directors will formulate the definitive financial statements, procuring that they do not give rise to any qualifications by the auditor. Nevertheless, where the Board considers that it must maintain its policy, it will publicly explain the substance and scope of the discrepancy.

In this regard, the Audit Committee plays a particularly important role, as it continuously monitors the process of preparing the economic and financial information sent to the market supervisory bodies, thereby increasing the likelihood that there will be no qualifications in the annual auditors' reports.

Since the formation of the Company in 1985, it has not been subject to any qualifications in the audits of its financial statements. This demonstrates the utmost accuracy, reliability and sufficiency of the financial statements of the Company and its consolidated Group since its formation, guaranteeing at all times the maximum transparency in its reporting.

B.1.33. Is the Board Secretary a Director?

YES NO

B.1.34. Explain the procedures for appointment and removal of the Board Secretary, indicating whether his/her appointment and removal were reported to the Appointments Committee and approved by the plenary session of the Board.

Procedure for appointment and removal

As provided in Article 10.4 of the Board Regulations, the Corporate Responsibility and Governance Committee will report on proposals for the appointment and removal of the Board Secretary, prior to their submission to the Board.

The Secretary of the Board of Directors is Mr. Rafael García de Diego Barber, a member of the Madrid Bar Association. He is not a Company Director and has served as Secretary since May 4, 1995, for which reason the Committee could not report on his appointment, since it did not exist at that time.

Is the Board Secretary specifically tasked with monitoring good governance recommendations?

YES NO

Comments

As provided in Article 26 e) of the Bylaws and Article 10.3 b) of the Board Regulations, the duties of the Secretary of the Board of Directors include ensuring compliance by the Board of Directors and its Committees with the Corporate Bylaws, the Shareholders' Meeting Regulations, the Board Regulations, and other corporate governance rules at the Company.

In addition, Article 26 f) of the Corporate Bylaws and the corresponding Article 10.3 c) of the Board Regulations provide that the Secretary of the Board of Directors is responsible for *«ensuring that the Company's corporate governance rules and the actions of the Board of Directors are in line with the good corporate governance recommendations in force from time to time»*.

B.1.35. Indicate the mechanisms, if any, established by the Company to preserve the independence of the auditors, of financial analysts, of investment banks, and of rating agencies:

The Audit Committee is the body within the Board of Directors that is responsible for the relationship with external auditors. In this regard, the Audit Committee assists the Board of Directors in monitoring the independence of the Company's external auditor.

Pursuant to the power contemplated in Article 23.2 of the Corporate Bylaws, Article 14.3 b) of the Board Regulations, in relation to the independence of external auditors, tasks the Audit Committee with establishing procedures to ensure the independence and professionalism of the external auditors and receiving information regarding matters that might jeopardize their independence and professionalism.

In this regard, the Audit Committee must ensure that the Company (i) discloses any change of auditor to the CNMV as a material event and, if applicable, any disagreements with the outgoing auditor; and (ii) complies with the rules in force regarding the provision of non-audit services, limits on concentration of the auditor's business and, in general, all other rules established to safeguard the independence of the auditor. In the event of resignation of the auditor, the Audit Committee must examine the underlying circumstances.

Moreover, Article 37 of the Board Regulations imposes the duty on the Board to refrain from engaging audit firms whose envisaged fees for all items exceed 10% of their total revenues in the preceding year.

In addition, Article 37 of the Board Regulations imposes the obligation on the Board of Directors to provide yearly information on the overall fees paid by the Company to the audit firm for non-audit services. The Company frequently makes all manner of presentations to financial analysts and investment banks to report on the key economic and financial highlights of the Group, and on its business performance.

These presentations are regularly attended by the most prominent industry professionals and experts. After these presentations, all participants are offered the opportunity to be included on a list of entities that periodically receive the most relevant Company information of interest to them.

All presentations to analysts are sent to the Spanish CNMV beforehand so that they may be consulted by the markets on its website. The presentations are also posted immediately on the Company website.

The main purpose of the Investor Relations Department, which reports to the Company's Directorate-General of Administration and Finance, is to act as a channel for communications with financial professionals and institutional investors, and to handle their inquiries.

B.1.36. Indicate whether the Company changed external auditors in the year. If so, identify the new and outgoing auditors:

YES NO

Outgoing auditor

New auditor

If there were any disagreements with the outgoing auditor, explain the substance thereof:

YES NO

Explanation of disagreements

B.1.37. Indicate whether the audit firm performs any non-audit work for the Company and/or its Group, and if so, state the amount of fees received for such work and the percentage they represent of the fees billed to the Company and/or its Group:

YES NO

| | Sociedad | Grupo | Total |
|--|----------|-------|-------|
| Fees for non-audit work (€ thousand) | - | 110 | 110 |
| Fees for non-audit work / Total fees billed by audit firm (as a %) | 0% | 48% | 48% |

B.1.38. Indicate whether the audit report on the financial statements for the preceding year contains any reservations or qualifications. If so, state the reasons given by the Chairman of the Audit Committee to explain the substance and scope of such reservations or qualifications

YES NO

Explanation

B.1.39. Indicate the number of consecutive years the current audit firm has audited the financial statements of the Company and/or its Group. Indicate the number of years the current audit firm has audited the Company's financial statements as a percentage of the total number of years during which the Company's financial statements have been audited:

| | Company | Group |
|---|---------|-------|
| Number of consecutive years | 6 | 6 |
| Number of years audited by current audit firm/ Number of years the company has been audited (as a %) | 23.1% | 54.5% |

B.1.40. Indicate any holdings, as disclosed to the Company, owned by the members of the Company's Board of Directors in the capital of entities engaging in business of a kind identical, similar or complementary to the business constituting the corporate purpose of the Company or of its Group. Also indicate the offices they hold or the functions they perform at these companies:

| Name of Director | Name of company in which shares are held | % Holding | Office or functions |
|-----------------------------------|--|-----------|--|
| Luis M ^a Atienza Serna | CFO of REN-REDES ENERGÉTICAS NACIONAIS, SGPS | — | Individual representative of the corporate Director Red Eléctrica Corporación, S.A., on the Board of Directors of Portuguese company REN-REDES ENERGÉTICAS NACIONAIS, SGPS |
| Rui Manuel Janes Cartaxo | CFO of REN-REDES ENERGÉTICAS NACIONAIS, SGPS | 0.0036 % | Chairman and CEO of REN-REDES ENERGÉTICAS NACIONAIS, SGPS |

B.1.41. Indicate whether there is a procedure to allow Directors to seek external professional advice? If so, give details:

YES NO

Details of the procedure

There is a specific procedure in place at the Company to allow Directors to seek external advice.

In order to receive assistance in exercising their functions, Article 26 of the Board Regulations establishes that External Directors may request that the Board of Directors engage legal, accounting, financial or other expert advisers, at the expense of the Company.

The engagement must refer to specific problems of a certain scale and complexity arising in the discharge of their office.

The engagement request must be addressed to the Chairman. The request may be rejected by the Board of Directors if it transpires or can be inferred that:

- a) it is not necessary for the proper performance of the functions entrusted to the Directors;
- b) the cost thereof is not reasonable in view of the significance of the problem and the assets and revenues of the Company; or
- c) the technical assistance sought may be adequately provided by Company experts or technical personnel, or has been entrusted to other external experts.

Articles 13.5 and 15.7 of the Board Regulations provide that the Audit Committee and the Corporate Responsibility and Governance Committee may propose that the Board of Directors seek independent professional advice.

Furthermore, those Committees may access any type of Company information or documentation necessary for the better performance of their duties, pursuant to the provisions of the aforementioned Articles of the Board Regulations.

B.1.42. Indicate whether there is a procedure to ensure that Directors have the necessary information in order to prepare for meetings of the management bodies sufficiently in advance. If so, give details:

YES NO

Details of the procedure

Board meetings are called at least six (6) days in advance and all relevant information is sent out with the call notice. The call notice always includes the agenda for the meeting and, in general, except where it is not possible, the relevant information, duly summarized and prepared.

Notwithstanding the foregoing, Article 17.3 of the Board Regulations establishes that the call notice for Board meetings will be sent at least three (3) days prior to the date of the meeting. As an exception and for reasons of urgency, the Board may be called by telephone and the advance notice period will not apply where the Chairman deems that the circumstances justify it. The reasons of urgency will be explained in the Minutes of the meeting.

Article 25 of the Board Regulations provides that Directors have the broadest rights to be informed of and to inspect any aspect of the Company. In this regard, Directors may, at any time, examine the books, registers, documents and other background information on corporate transactions and may even inspect all Company facilities. The right to information extends to subsidiary companies, both domestic and foreign.

In accordance with Article 25 of the Board Regulations and so as not to disturb the ordinary management of the Company, the exercise of the right to information will be channeled through the Chairman of the Board of Directors, who will handle all requests from Directors, providing the information directly to them. The Chairman will also offer the appropriate contact persons at the relevant level within the organization or make arrangements to allow Directors to conduct the desired examination and inspection *in situ*.

Article 25 of the Board Regulations provides that the Chairman of the Company may restrict access to certain information on an exceptional and temporary basis, informing the Board of Directors of this decision at its next meeting.

Both the Audit Committee and the Corporate Responsibility and Governance Committee may access any kind of Company information or documentation that they may need for the better performance of their duties, as indicated in section B.1.41 above.

B.1.43. Indicate whether the Company has established rules requiring Directors to report on and, as the case may be, resign in cases that could harm the credit and reputation of the Company. If so, give details:

YES NO

Details of rules

Article 30 of the Board Regulations provides, among the disclosure obligations of Directors, that Directors must inform the Company of all judicial, administrative and other claims that by reason of their significance could harm the credit and reputation of the Company and, in particular, of any criminal proceedings in which they appear as an accused party, and of subsequent progress in the case.

Furthermore, pursuant to Article 22.2 f) of the Board Regulations, Directors must tender their resignation to the Board of Directors and, where the Board deems it appropriate, formally resign where their continued presence on the Board may jeopardize the interests of the Company, as envisaged above, and where the Board deems this to be the case with the affirmative vote of two-thirds of its members.

If a Director is indicted or a decision is rendered to bring him to trial for any of the crimes referred to in Article 213 of the Corporate Enterprises Law, the Board shall review the matter as soon as possible and, in light of the specific circumstances, shall decide, as provided for in the preceding paragraph, whether or not it is appropriate for the Director to remain in office. All of the foregoing will be reported on in the Annual Corporate Governance Report.

B.2.3. Describe the rules of organization and functioning, and the responsibilities attributed to each of the Board Committees:

I. AUDIT COMMITTEE

a) Background

At the meeting held on November 18, 2003, the Board of Directors of Red Eléctrica created the Audit Committee to replace the former Audit and Compliance Committee, pursuant to the provisions of Article 23 of the Corporate Bylaws and Chapter V, Articles 15 and 16 of the Board Regulations, approved at that meeting. The foregoing was also consistent with the provisions of Article 47 of Law 44/2002 of November 22, 2002 on Measures to Reform the Financial System.

Specifically, the Audit Committee was created by a resolution adopted by the Board of Directors of Red Eléctrica on November 30, 1999, under the name of the Audit and Compliance Committee. This Committee was created as part of the process to adapt the Company's governance rules to the new situation resulting from the tender offer made by the State-Owned Industrial Holdings Company (SEPI) and from the Company's listing on the stock markets on July 7, 1999.

The Annual Shareholders' Meeting of the Company on May 31, 2007, approved an amendment to the Corporate Bylaws to bring them into line with the Single Text of Corporate Governance Recommendations, known as the Unified Good Governance Code, approved by the CNMV under a Decision dated May 19, 2006.

The Annual Shareholders' Meeting amended Article 23 of the Corporate Bylaws to bring it into line with Recommendation 22 of the Unified Good Governance Code, regarding the composition of the Audit Committee, and changed the name of the Audit Committee from Audit Commission to Audit Committee, more in keeping with commercial practices.

The Shareholders' Meeting held on April 13, 2011, approved an amendment to the Corporate Bylaws and to the Shareholders' Meeting Regulations in order to adapt them to the new legal requirements established in Law 12/2010, of June 30, 2010 (basically affecting the composition, structure and functions of the Audit Committee) and Legislative Royal Decree 1/2010, of July 2, 2010, approving the Revised Corporate Enterprises Law (fully repealing the Corporations Law and partially repealing the Securities Market Law).

All of the approved amendments have been notified to the CNMV and registered at the Mercantile Registry.

b) Composition

Article 13 of the Board Regulations provides that the Committee will be comprised of a minimum of three (3) and a maximum of five (5) members, as determined by the Board, the majority being External Directors and appointed by the Board of Directors, and reasonably endeavoring to reflect the composition of the Board.

Following a report by the Corporate Responsibility and Governance Committee, the Board meeting held on July 27, 2011, approved the reappointment for a period of 3 years of two of its members (Ms. Arantza Mendizábal Gorostiaga and Ms. María Jesús Álvarez González) and appointed Mr. José Folgado Blanco as a new member for a period of 3 years following the expiration of the term for which Mr. Francisco Javier Salas Collantes was appointed.

As already mentioned, the Directors on the Audit Committee are particularly qualified to hold their positions, with lengthy professional experience in positions of the highest responsibility outside the RED ELÉCTRICA Group, in functions similar to those entrusted to the Committee. A brief description is given below of each member's professional career (further details are provided in Section B.1.3 above):

- ◆ Ms. Arantza Mendizábal Gorostiaga holds a Doctorate in Economics and is Professor of Applied Economics at the Faculty of Economics of Universidad del País Vasco. She has been a distinguished researcher in the areas of industrial and technological policy, an MP member of the Economy and Finance Committee, the Budget Committee and Spokeswoman for the Industry, Trade and Tourism Committee of the Lower House of Parliament. In addition to her duties as Professor, she is currently the Director of the European Documentation Center of Universidad del País Vasco. She was appointed Chairwoman of the Audit Committee on July 20, 2009, for a period of three years.
- ◆ Ms. María Jesús Álvarez González holds degrees in Law, and in Economics and Business Studies. She has

held various executive positions within SEPI and engaged in various activities in the banking and industrial sectors. She has also been a member of the board of directors of Enusa Industrias Avanzadas, S.A., Equipos Nucleares, S.A., Clínica Castelló, S.A., Indra Sistemas, S.A., Infoinvest, S.A., Infoleasing, S.A., Empresa Nacional de Residuos Radioactivos, S.A. (ENRESA), Aluminio Español, S.A. and Agencia Efe, S.A. She is currently the Economic and Financial Director of SEPI, a member of the Management Committee of SEPI and a member of the Board of Trustees of Fundación SEPI and of Fundación Laboral SEPI.

- ◆ Mr. José Folgado Blanco holds a Degree in Economics (and final-year award with special distinction) and a Doctorate in Economics, Universidad Autónoma de Madrid. He has been Head of the Economics Department of the CEOE, Member of the Economic and Social Board representing business organizations and Secretary of State for Budgets and Expenditure. Ministry of Economy and Finance, since May 1996, Secretary of State for Economy, Energy and Small and Medium-Sized Enterprises of the Ministry of Economy, since April 2000, Secretary of State for Energy, Industrial Development and Small and Medium-Sized Enterprises of the Ministry of Economy, since July 2002, Parliamentary representative of the province of Zamora and Deputy Chairman of the Economy and Finance Committee, since March 2004. He is currently a Tenured Professor of Public Finance and Tax Systems at Universidad Autónoma de Madrid (on extended leave of absence), the Mayor of Tres Cantos (Madrid) since June 2007 and a Member of the Social Board of Universidad Autónoma de Madrid.

The members of the Committee hold office for a term of not more than three years, may be reappointed indefinitely and stand down on expiration of that term, when they cease to be Directors, or when so resolved by the Board of Directors, in the latter case following a report by the Corporate Responsibility Governance Committee. The Chairman of the Committee is an Independent Director elected by its members and the Committee Secretary is the Secretary of the Board of Directors. The Chairman must be substituted every three years and may be reappointed after one year has elapsed since he left office. Committee members are appointed and removed by the Board of Directors at the proposal of the Board Chairman following a report from the Corporate Responsibility and Governance Committee.

c) Organization and functioning

The Audit Committee meets at least once every quarter and any time it is called by its Chairman or two of its members so request, and whenever the Board or its Chairman requests that it issue a report. The Committee met ten (10) times in 2011.

Article 13.4 of the Board Regulations establishes that meetings may be called, and the associated documentation sent, by telematic means that guarantee due security and confidentiality for the call notice and the related documentation.

The call notice, including the agenda, will be sent by the Committee Chairman or Secretary to each of its members at least three days in advance of the date scheduled for the meeting, unless the meeting needs to be called sooner for reasons of urgency.

Article 13.4 also allows Committee meetings to be held for reasons of urgency and on an exceptional basis by conference call, videoconferencing or any other remote means of communication that enables them to be held, provided that all Committee members can have access thereto.

The Committee may be constituted with the attendance of the majority of its members and will adopt decisions or recommendations by a majority vote, which decisions or recommendations must be recorded in the Minutes at the end of the meeting. Members of the management team or Company personnel who are

requested by the Chairman of the Audit Committee will be obliged to attend Committee meetings and must provide assistance and allow access to any information they have, in relation to the matters discussed.

In order to better perform its functions, the Committee may propose to the Board of Directors that advice be sought from independent professionals and may access any type of Company information or documentation it may require.

d) Powers

The basic powers of the Committee are set out in Article 14 of the Board Regulations and can be summarized in six major groups: i) economic and financial information; ii) internal control and risk management systems; iii) external auditors; iv) compliance with legal provisions and internal rules; v) Company shareholders; and vi) other general powers.

The Committee, composed entirely of External Directors, formally met with the external auditor on various occasions in 2011, whenever it deemed it appropriate for the better performance of its functions, passing on the questions, clarification and comments it saw fit.

Its remit includes most notably the procedure for fulfilling the functions assigned in relation to the financial statements. Since its creation in 1999, the Audit and Compliance Committee has been responsible for reviewing the Company's financial statements, monitoring compliance with legal requirements and the correct application of generally accepted accounting principles, and reporting on any amendments to the accounting principles and methods proposed by Company Management.

When the Committee became the Audit Committee in November 2003, with the functions and responsibilities established by law and the Bylaws, it also assumed responsibility for approving the accounting principles and methods to be used in preparing the Company's financial statements and those of its consolidated Group, and for verifying their accuracy, reliability and sufficiency.

Also notable is the specific procedure for supervision by the Committee of any financial information sent on a periodic or *ad hoc* basis to the market supervisory bodies. The Committee is also responsible for ensuring that Company's financial documentation complies with legal accounting standards and, in particular, with any applicable EU recommendations and obligations on bookkeeping by electric utilities.

All of the foregoing leads to more direct control over the preparation of the Company's economic and financial information. Since this control is carried out by a collective body consisting of Directors with the highest professional qualifications in relation to the matters falling under the Committee's jurisdiction (as can be seen from the professional careers of Directors as described above), the accounting principles of reliability, certainty, accuracy and sufficiency are reinforced, as is the transparency of the process for the preparation of corporate economic information.

The Regulations of the Board of Directors approved on January 28, 2010 gave the Audit Committee the following new responsibilities:

- ◆ To report previously to the Board of Directors on material transactions or operations for the financing of the companies of the Red Eléctrica Group.
- ◆ To report to the Board of Directors on related-party transactions, as defined in the legislation in force from time to time, that are material or fall outside the ordinary course of business of the Company, that must be reported obligatorily to the securities markets pursuant to the aforementioned legislation, and that require the Board's approval.

II. CORPORATE RESPONSIBILITY AND GOVERNANCE COMMITTEE

a) Background

Following the listing of Red Eléctrica on the stock exchange in 1999, an Appointments Committee was created within the Board of Directors and began to perform functions as regards the appointment of Directors and senior executives. Following the recommendations of the Aldama Report of November 18, 2003, the Company's Board of Directors converted this Committee into the Appointments and Compensation Committee. The Committee's initial powers regarding appointments were expanded and it assumed new functions in relation to the compensation of the Board of Directors and the management team of the Company and of its Group.

In accordance with corporate governance recommendations and particularly those set out in the Conthe Code, pursuant to the amendments made by the Shareholders' Meeting held on May 31, 2007, the Company's Board of Directors changed the name of the Committee in 2007 to the Appointments, Compensation and Corporate Governance Committee and extended its powers. Particularly noteworthy among the powers expressly attributed to this Committee are those relating to corporate governance.

At the meeting held on January 28, 2010, the Board of Directors amended the Board Regulations by renaming the Appointments, Compensation and Corporate Governance Committee as the Corporate Responsibility and Governance Committee. The change of name of this Committee was accompanied by broad powers granted in the area of corporate responsibility.

b) Structure

Article 24.2 of the Corporate Bylaws and Article 15 and 16 of the Board Regulations govern the structure, composition and functions of the Corporate Responsibility and Governance Committee.

The Committee must consider the suggestions made by the Chairman, the members of the Board, and Company executives or shareholders in matters affecting the appointment of Directors, including Managing or Executive Directors, and compliance with corporate governance principles, the Corporate Bylaws and the Board Regulations.

The Committee meets as often as is appropriate for the sound performance of its functions. In any event, the Committee must meet at least once every quarter, whenever called by its Chairman or so requested by two of its members, and whenever the Board of Directors or its Chairman requests that a report be issued or proposals be adopted.

As in the case of the Audit Committee, Article 15.5 of the Regulations of the Board of Directors provides, for the first time, that meetings may be called, and the associated documentation sent, by telematic means that guarantee due security and confidentiality for the call notice and the related documentation.

The call notice, which must include the agenda, is sent by the Committee Chairman or Secretary to each Committee member at least three days in advance of the date scheduled for the meeting, unless the meeting needs to be held sooner for reasons of urgency.

Also with respect to this Committee, Article 15.5 of the Board Regulations allows Committee meetings to be held for reasons of urgency and on an exceptional basis by conference call, videoconferencing or any other remote means of communication that enables them to be held, provided that all Committee members can have access thereto.

The Committee met eleven (11) times in 2011.

The Committee may be constituted with the attendance of the majority of its members and adopt decisions or recommendations by a majority vote, which decisions or recommendations must be recorded in the Minutes at the end of the meeting. In order to better perform its functions, the Committee may propose to the Board of Directors that advice be sought from independent professionals and may access any type of Company information or documentation it may require to perform its functions.

Article 15 of the Board Regulations provides that the Corporate Responsibility and Governance Committee will be comprised of a minimum of three and a maximum of five members, as determined by the Board, with a majority of External Directors and at least half of its members must be Independent Directors. The Chairman of the Committee is an Independent Director elected by its members and the Committee Secretary is the Secretary of the Board of Directors.

Committee members are appointed and removed by the Board of Directors at the proposal of the Board Chairman following a report from the Corporate Responsibility and Governance Committee. Committee members hold office for a maximum period of three years, may be reappointed and stand down when they cease to be Directors or when so resolved by the Board of Directors, following a report by the Corporate Responsibility and Governance Committee. The Chairman must be substituted every three years and may be reappointed after one year has elapsed since he vacated office, as in the case of the Audit Committee.

c) Composition

Following a report by the Corporate Responsibility and Governance Committee, the Board meeting held on July 27, 2011, approved the reappointment of two of its members (Mr. Luis María Atienza Serna and Mr. Manuel Alves Torres) for a period of 3 years.

At 2011 year-end and at the date of approval of this Report, the Corporate Responsibility and Governance Committee was composed of four Directors: three External Directors and one Executive Director. Two of the External Directors were Independent Directors and one of them was the Chairman of the Committee, who has the casting vote in the event of a tie.

At 2011 year-end and at the date of approval of this Report, the composition of the Committee was as follows:

| Director | Position | Type of Director |
|-----------------------------|----------|------------------|
| Antonio Garamendi Lecanda | Chairman | Independent |
| María Ángeles Amador Millán | Member | Independent |
| Luis María Atienza Serna | Member | Executive |
| Manuel Alves Torres | Member | Nominee |

The Chairman of the Committee, who must be an Independent Director, is elected by its members and the Committee Secretary is the Secretary of the Board of Directors, Mr. Rafael García de Diego Barber. Committee members are appointed and removed by the Board of Directors at the proposal of the Board Chairman.

Antonio Garamendi Lecanda has completed the maximum term of 12 years as an Independent Director of RED ELÉCTRICA. According to the provisions of Article 7.2 c) of the Board Regulations, the Unified Good Governance Code and international corporate governance best practices, this is the maximum period for which he may be treated as an Independent Director and, therefore, if a proposal is made for his reappointment at the next Annual Shareholders' Meeting, he will be classed the category of "other External Directors."

If the Annual Shareholders' Meeting approves the reappointment of Mr. Garamendi as a Company Director, he must immediately be replaced as Chairman of the Corporate Responsibility and Governance Committee, a position which must be occupied by an Independent Director, in accordance with the Corporate Bylaws and the Board Regulations.

d) Powers

The basic responsibilities of the Corporate Responsibility and Governance Committee are regulated in Article 24 of the Corporate Bylaws and Articles 15 and 16 of the Board Regulations.

Pursuant to the authorization contained in Article 24.2 of the Corporate Bylaws, the Corporate Responsibility and Governance Committee has basic responsibilities concerning appointments and removals, compensation, fulfillment of Director duties, corporate governance rules and other generic functions.

The Board Regulations approved on January 28, 2010 established a specific section on the powers of this Committee in the area of corporate responsibility.

B.2.4. Indicate the advisory and consultative powers and any delegated powers held by each of the Committees:

Name of Committee: AUDIT

Brief description

The basic responsibilities of this Committee, pursuant to Article 23 of the Corporate Bylaws, are as follows:

- (i) To report at Shareholders' Meetings on matters falling within its jurisdiction which are raised in the course of such Meetings.
- (ii) To supervise the efficacy of the Company's internal control, any internal audit, and risk management systems, as well as discuss with the auditors any significant weaknesses of the internal control system detected in the course of the audit.
- (iii) To supervise the process of preparing and filing regulated financial information.
- (iv) To propose to the Board of Directors the appointment of auditors for submission to the Shareholders' Meeting.
- (v) To duly engage with the auditors in order to receive information on any issues that may jeopardize their independence, for their examination by the Committee, and any other issues relating to the audit process, as well as other communications provided for in audit legislation and audit standards. In any case, they must receive each year from the auditors written confirmation of their independence from the Company or from entities related to the Company directly or indirectly, as well as information on additional services of any kind provided to such entities by those auditors or by persons or entities related to those auditors in accordance with the provisions of the legislation in force.

- (vi) Before the auditors' report is issued, to issue a report each year expressing an opinion on the independence of the auditors or audit firms. This report must, in any case, make a pronouncement on the provision of the additional services referred to in the preceding letter.
- (vii) Any other powers attributed to it by the Board, whether generally in the Board Regulations or by specific assignment.

The above basic responsibilities are detailed in Article 14 of the Board Regulations, which establishes the following:

As regards economic and financial information:

- a) To approve the accounting principles and methods to be used in the preparation of the financial statements of the Company and of its consolidated Group, and to verify their accuracy, reliability and sufficiency.
- b) To supervise the preparation and integrity of the financial information of the Company and, as appropriate, of the Group, ensuring that legislative requirements are taken into account, the consolidated group is adequately defined, and the applicable accounting principles and methods are correctly applied.
- c) To review and report to the Board in advance on the economic and financial information the Company must disclose and send to the market supervisory bodies. The Committee must ensure that any interim financial statements are prepared using the same accounting methods as annual financial statements and, where it sees fit, it may ask the external auditor to conduct a limited review.
- d) To report previously to the Board of Directors on material transactions or operations for the financing of companies in the Red Eléctrica Group.

As regards internal control and risk management systems:

- a) To approve the Company's internal control procedures in the areas of expenditure and investment, making the appropriate amendments, as the case may be.
- b) To supervise the internal audit function, which will ensure the sound functioning of the internal reporting and control systems and must address requests for information from the Audit Committee in the performance of its functions.
- c) To ensure the independence and efficacy of the internal audit function; to supervise and control the process for selection, appointment, reappointment and removal of the head of the internal audit function, and its action plans; to supervise and control the media and resources assigned to the internal audit function, including its budget; to receive periodic information on its activities; and to verify that senior management of the Company and of Red Eléctrica de España, S.A. Sole-Shareholder Company is acting on the conclusions and recommendations of its reports.

The head of internal audit must present an annual work program to the Committee, directly report on any incidents arising during its implementation and submit an activities report at the end of each year.

- d) To periodically supervise the internal control and risk management systems, so that the main risks are identified, managed and appropriately disclosed.

- e) To supervise the procedure established by the Board to enable staff to report any potentially significant irregularities, particularly financial or accounting irregularities, they may detect at the Company.

The persons in charge of internal control must inform the Committee when they detect irregularities or breaches that may significantly impact or harm the net worth, earnings or image of the Company or of its Group.

As regards the external auditor:

- a) To propose the appointment of external auditors to the Board of Directors for submission to the Shareholders' Meeting, procuring that it be the same audit firm for all Group companies, and the terms of the audit contract, the scope of the professional mandate and the renewal or termination thereof.
- b) To establish procedures to ensure the independence and professionalism of the external auditors and to receive information regarding matters that might jeopardize their independence and professionalism. To that end:
 - i) It will ensure that any change of auditor and, if applicable, any disagreements with the outgoing auditor are disclosed by the Company to the CNMV as material events.
 - ii) It will ensure that the Company, within the scope of its responsibilities, complies with the rules in force regarding the provision of non-audit services, limits on concentration of the auditor's business and, in general, all other rules established to safeguard the independence of the auditor.
 - iii) The Committee will investigate the circumstances giving rise to the resignation of any external auditor.
- c) To receive any relevant information relating to the Audit Plan, the process and results of its implementation, as well as any other information provided for in the accounting standards.
- d) To act as a communication channel between the Board and the external auditor; to evaluate the results of each audit and verify that senior management of the Company and of Red Eléctrica de España, S.A. Sole-Shareholder Company acts on its recommendations, mediating in the event of discrepancies between the former and the latter in relation to the principles and methods applicable in the preparation of the financial statements.
- e) To supervise compliance with the audit contract, seeking to ensure that the principal contents of the audit report are drafted clearly and precisely.
- f) To be informed of the material situations detected by the external auditor, in the same way as information from the internal control systems is received, which may adversely affect the net worth, earnings, or image of the Group.
- g) To periodically request from the external auditors, and at least once a year, an evaluation of the quality of the Group's internal control procedures.

As regards compliance with legal provisions and internal regulations:

- a) To supervise compliance with the Internal Code of Conduct on the Securities Market and with the functions of the Oversight Body provided in the Code, reporting periodically to the Corporate Responsibility and Governance Committee on the degree of compliance with the Code and on any incidents that occur.
- b) To resolve doubts and conflicts raised by parties affected by the Internal Code of Conduct on the Securities Market and submitted to the Committee by the Oversight Body over compliance with the Code.

- c) To annually evaluate compliance with the rules of the Internal Code of Conduct on the Securities Market and, as the case may be, adopt the appropriate measures for its optimum implementation and improvement; in this connection, the Committee is also responsible for submitting to the Corporate Responsibility and Governance Committee for referral to the Board of Directors any proposed amendments to the Code it may consider necessary.
- d) To review compliance with the actions and measures resulting from reports or inspections by the supervisory and control authorities of the securities market.

As regards the Company's shareholders:

- a) To entertain and, as appropriate, respond to the initiatives, suggestions or complaints that may be made by shareholders in respect of the scope of the Committee's functions.
- b) To report, as appropriate, to the Shareholders' Meeting on issues raised at the meeting by shareholders in relation to matters falling within its jurisdiction.

Other:

- a) To keep the Board of Directors duly informed of its activities and to prepare an annual report to be included in the Annual Corporate Governance Report and an Action Plan for each year.
- b) To report to the Board on extraordinary investment transactions when so requested by the Board and, in all cases, on transactions for the creation or acquisition of holdings in special-purpose vehicles or entities domiciled in countries or territories that are considered tax havens, as well as any transactions and operations that could impair the transparency of the Group.
- c) To report to the Board in advance on related-party transactions requiring authorization from the Board of Directors, as provided in Article 5.6 c) of the Regulations.
To also report to the Board on other related-party transactions not requiring Board authorization but which the Committee considers the Board should be made aware of.
- d) To propose and report on any other matter related to the foregoing that may be requested by the Chairman or by the Board of Directors.
- e) Any other powers attributed to it by the Board.

Name of Committee: CORPORATE RESPONSIBILITY AND GOVERNANCE

Brief description

The basic responsibilities of this Committee, pursuant to Article 24 of the Corporate Bylaws, are as follows:

- a) To report on (and, in the case of Independent Directors, make) any proposals to be submitted by the Board of Directors to the Shareholders' Meeting for the appointment or removal of Directors, including in cases of co-optation.
- b) To propose the compensation policy for Directors and senior executives to the Board of Directors and ensure its observance.
- c) To assume such reporting, supervising and proposing functions in the area of corporate governance as may be determined by the Board of Directors, as long as no *ad hoc* Committee has been set up for those functions.

The above basic responsibilities are detailed in Article 16 of the Board Regulations, which establishes the following:

In relation to appointments and removals:

- a) To report in advance on (and, in the case of Independent Directors, make) any proposals to be submitted by the Board of Directors to the Shareholders' Meeting for the appointment or removal of Directors, including in cases of co-optation.
- b) To report, prior to their submission to the Board of Directors, on proposals for the appointment or removal of the Secretary and the Deputy Secretary of the Board of Directors.
- c) To propose the system for selecting Independent Directors to the Board of Directors.
- d) To ensure that the candidates for filling a vacant directorship meet all of the requirements imposed in the legal provisions and in these Regulations.
- e) To evaluate the skills, knowledge and experience required on the Board and consequently define the functions and skills required of the candidates for each vacancy.
- f) To evaluate the time and dedication necessary for Directors to be able to perform their duties with due quality and efficiency, evaluating for these purposes whether their position as a Director is compatible with membership on other management bodies of companies.
- g) To report on such appointments and removals of senior executives of the Company and of Red Eléctrica de España, S.A. Sole-Shareholder Company as the Chairman may propose to the Board of Directors.
- h) To examine or organize, in the manner deemed appropriate, the process for succession of the Chairman and, as appropriate, to make proposals to the Board so the handover takes place in a planned and orderly fashion.
- i) To ensure that gender diversity is taken into account when filling vacancies.
- j) To consult with the Chairman, particularly when dealing with matters relating to Executive Directors.

In relation to compensation:

- a) To propose to the Board:
 - the compensation policy for the Directors and senior executives of the Company and of Red Eléctrica de España, S.A. Sole-Shareholder Company;
 - the individual compensation and other contractual conditions of Executive Directors;
 - the basic terms and conditions of the contracts of senior executives of the Company and of Red Eléctrica de España, S.A. Sole-Shareholder Company.
- b) To consult with the Chairman of the Company, particularly when dealing with matters relating to Executive Directors and senior executives of the Company and of Red Eléctrica de España, S.A. Sole-Shareholder Company.
- c) To ensure compliance with the compensation policy established by the Company.

In relation to fulfillment of Director duties:

- a) To ensure the fulfillment by the Directors of the obligations established in these Regulations, to report to the Board on their fulfillment, and to issue the relevant reports and proposals and, as applicable, on the measures to be adopted in the event of breach.
- b) To authorize Directors to use corporate assets.

In relation to the corporate governance rules:

- a) To supervise compliance with the corporate governance rules, making proposals for improvement to the Board of Directors, and to receive information in this respect and, as appropriate, issue an annual report on the measures to be implemented and submit it to the Board.
- b) To refer to the Board of Directors the proposals of the Audit Committee on the amendment of the Internal Code of Conduct on the Securities Markets.

In relation to the corporate responsibility policy *(section introduced in the January 2010 reform of the Regulations of the Board of Directors):*

- a) To propose and promote the Company's policy on corporate responsibility.
- b) To report on and supervise corporate responsibility initiatives and proposals made or decided on by the organizational units responsible, and, as appropriate, refer the relevant report or proposal to the Board of Directors.
- c) To annually prepare a report on corporate responsibility policy.

Other functions:

- a) To keep the Board informed of its activities and to prepare an annual report to be included in the Annual Corporate Governance Report and an Action Plan for each year.
- b) To propose and report on any other matter related to the foregoing that may be requested by the Chairman or by the Board of Directors.
- c) To report to the Board on the performance of their duties by the Chairman and the plenary session of the Board.
- d) To verify the type of each Director for the purposes of the pertinent explanations by the Board to the Shareholders' Meeting that is to make or ratify the Director's appointment, and for the recording of the appointment in the Annual Corporate Governance Report.
- e) Any other powers attributed to it by the Board.

B.2.5. Indicate, as appropriate, whether there are any regulations for the Board Committees, where they can be consulted, and whether any amendments have been made during the year. Also indicate whether any annual report on the activities of each Committee has been prepared voluntarily:

There are no specific internal regulations for the Committees, the preference having been for comprehensive regulation in the Board Regulations.

The Regulations may be consulted on the Company website, www.ree.es, in the Corporate Governance area of the Shareholders and Investors section, without prejudice to the fact they are registered at the CNMV and the Madrid Mercantile Registry and are therefore generally available to investors.

Each of the Board Committees prepares an annual report on their activities. These reports are published on the Company's website.

The Shareholders' Meeting held on April 13, 2011, approved an amendment to the Corporate Bylaws and to the Shareholders' Meeting Regulations in order to adapt them to the new legal requirements established

in Law 12/2010, of June 30, 2010 (basically affecting the composition, structure and functions of the Audit Committee) and Legislative Royal Decree 1/2010, of July 2, 2010, approving the Revised Corporate Enterprises Law (fully repealing the Corporations Law and partially repealing the Securities Market Law).

During 2011, the Corporate Responsibility and Governance Committee carried out an in-depth review of the Board Regulations in order to adapt them to the legislative amendments approved in 2010 and 2011 mentioned in Chapter I of this Section, following the approval by the Shareholders' Meeting held on April 13, 2011 of the amendment to the Corporate Bylaws and to the Shareholders' Meeting Regulations in order to adapt them to Law 12/2010, of June 30, 2010 and Legislative Royal Decree 1/2010, of July 2, 2010. The Corporate Responsibility and Governance Committee has prepared a proposed amendment to the Board Regulations that will be submitted to the Board for approval, subject to the necessary technical adjustments, once the regulations implementing the new rules governing the Annual Corporate Governance Report and the new Annual Report on Directors' Compensation are published.

The legislative amendments approved in the area of corporate governance in 2011, in particular, Law 25/2011, of August 1, 2011, have led to the commencement of a new review of the Corporate Bylaws and the Shareholders' Meeting Regulations in order to adapt them to the new legal requirements and this review is expected to conclude with a proposal by the Corporate Responsibility and Governance Committee to the Board of Directors, for referral to the next Shareholders' Meeting.

For further details of the content of the above reforms of the Corporate Bylaws and the Shareholders' Meeting Regulations, please consult the relevant explanatory reports, which will be published together with the call notice for the Annual Shareholders' Meeting.

B.2.6. Indicate whether the composition of the Executive Committee reflects the participation of the various Directors on the Board according to their status:

YES NO

If no, explain the composition of the Executive Committee

Not applicable as there is no Executive Committee.

C Related-Party Transactions

C.1. State whether the plenary session of the Board has reserved approval, subject to a favorable report by the Audit Committee or any other Committee to which that function has been delegated, of any transactions performed by the Company with Directors, significant shareholders or shareholders represented on the Board, or persons related to them:

YES NO

C.2. Give details of material transactions entailing a transfer of funds or obligations between the Company or entities of its Group and the significant shareholders of the Company:

| Name of significant shareholder | Name of Group company | Nature of the relationship | Type of transaction | Amount (€ Thousand) |
|---------------------------------|-----------------------|----------------------------|---------------------|---------------------|
| | | | | |

C.3. Give details of material transactions entailing a transfer of funds or obligations between the Company or entities of its Group and the Company's Directors or executives:

| Name of Director or executive | Name of Group company | Nature of the relationship | Type of transaction | Amount (€ Thousand) |
|-------------------------------|-----------------------|----------------------------|---------------------|---------------------|
| | | | | |

There are no material transactions with Company Directors or executives.

At December 31, 2011, there were no loans, advances or guarantees established by the Company in favor of members of the Board of Directors of the Company. There were also no pension liabilities incurred vis-à-vis the members of the Company's Board of Directors at that date.

C.4. Give details of material transactions by the Company with other companies of the same Group, where such transactions are not eliminated in the process of preparing the consolidated financial statements and do not fall within the course of the Company's business, as regards their subject matter or terms and conditions:

| Name of Group company | Brief description of the transaction | Amount (€ Thousand) |
|---------------------------------|---|---------------------|
| Red Eléctrica del Sur (REDESUR) | Transactions of no material significance, carried out in the ordinary course of the business between enterprises, which are included merely for informational purposes. | 980 |

C.5. Indicate whether any members of the Board of Directors were subject to any conflict of interest during the year, as provided for in Article 229 of the Corporate Enterprises Law:

YES NO

Name of Director

Description of conflict of interest

C.6. Give details of the mechanisms in place for detecting, identifying and resolving any potential conflicts of interest between the Company and/or its Group and its Directors, executives or significant shareholders:

In relation to the Directors, Article 29.3 a) of the Board Regulations establishes that Directors must notify the Board of Directors, through the Chairman or the Secretary, of any conflict of interest to which they are subject and refrain from attending and participating in deliberations affecting matters in which they have a direct or indirect personal interest or in which there is any sign of a conflict of interest. Pursuant to that Article, a personal interest will also be considered to exist when the matter affects a person related to the Director or to a company with which he has an employment or professional relationship or at which he has an executive position or a significant shareholding.

For the purposes of the preceding paragraph, 'related persons' are those defined as such from time to time in the applicable legislation.

In accordance with the provisions of Article 29.3 b) of the Board Regulations, Nominee Directors must disclose to the Board of Directors any conflict of interest between the Company and the shareholder that proposed their appointment where said conflict affects matters submitted to the Board and they must refrain from participating in the adoption of the corresponding resolutions.

In addition, Article 2 of the Code of Conduct on the Securities Market includes within its scope of application Directors, the Secretary and Deputy Secretary of the Company's Board of Directors, executives (as defined in Chapter I of the Board Regulations) and the persons expressly designated by the Oversight Body created pursuant to the Code.

Under Article 7 of the Internal Code of Conduct on the Securities Market, persons subject or temporarily subject thereto must generally attempt to avoid situations of direct conflict of interest or conflicts concerning persons related to them and must inform the Oversight Body of any situations of conflict of interest that may reasonably arise within fifteen (15) days of such situations coming to their attention, so that the Oversight Body may adopt the corresponding decisions in advance. Directors must give notice of the situations described in the preceding paragraph through the Office of the Secretary of the Board of Directors.

Persons subject or temporarily subject to the Code must keep up to date the information regarding conflicts of interest they have disclosed, reporting any such changes as may occur. Without prejudice to the obligations specified in the preceding paragraph as regards conflicts of interest, Directors must comply with the requirements contained in the Corporate Bylaws and in the Board Regulations and, in general, with all requirements arising from the corporate/commercial legislation on corporations.

The Oversight Body will keep an up-to-date itemized Register of the conflicts of interest disclosed by the various persons subject or temporarily subject to the Code, and will adopt the appropriate security measures for its safekeeping and storage. In any event, access to the Register will be restricted.

It should be noted that for the above purposes, in accordance with Article 11 of the Internal Code of Conduct on the Securities Market, the Oversight Body is the Directorate-General of Administration and Finance, which will act in collaboration with the Secretary of the Board of Directors as regards any legal issues resulting from the application or interpretation of the Code. In addition, the Oversight Body has been entrusted with the general functions of ascertaining, registering, disseminating and monitoring compliance with the obligations and duties established in the Internal Code of Conduct. The Oversight Body will have all necessary powers to perform the duties entrusted to it in the Internal Code of Conduct and must periodically report to the Audit Committee on the degree of compliance with the Code and on any incidents that may occur.

The Audit Committee is responsible for supervising compliance with the Internal Code of Conduct and the performance of the functions of the Oversight Body, the person responsible for the material transaction and the Office of the Secretary of the Board of Directors contemplated therein, as well as the internal resolution of any such questions and conflicts raised by parties subject or temporarily subject to the Code as may be submitted to the Committee by the Oversight Body. The Audit Committee will evaluate compliance with the Internal Code of Conduct on an annual basis and will adopt any appropriate measures for its optimum implementation and improvement. It is also responsible for proposing to the Corporate Responsibility and Governance Committee, for referral to the Board of Directors, any amendments it deems necessary in light of the Board's commitment to continuous adaptation, as well as the adoption of corporate governance best practices in the area and of the applicable legislation.

In relation to Company executives, Article 2.1.3 of the Internal Code of Conduct on the Securities Market establishes that Company executives, as defined in Chapter 1, are deemed to be subject to the Code and, accordingly, will be subject to potential conflicts of interest. Article 5.2.2 of the Internal Code provides that, when circumstances so require, the Oversight Body may decide to include as persons subject to the Code, on a temporary basis, any persons participating in a material transaction that have access to inside information. The parties affected will be given individual written notice of their inclusion on or exclusion from those lists.

In accordance with the provisions of Article 31 of the Board Regulations, the Board of Directors formally reserves the right to be informed of any material transaction of the Company with a significant shareholder, unless as a result of its nature and conditions it falls within the jurisdiction of the Shareholders' Meeting.

In 2010, at the proposal of the Audit Committee, the Board of Directors approved a policy on controlling related-party transactions and defined objective parameters for controlling related-party transactions, material or otherwise, recurring annual related-party transactions, and related-party transactions requiring mandatory notification to the markets.

C.7. Is more than one Group company listed in Spain?

YES NO

List the subsidiaries listed in Spain:

Listed subsidiaries

Indicate whether the areas of activity they engage in and any business dealings between them, and between the listed subsidiary and other Group companies, have been publicly and precisely defined:

YES NO

Define any business dealings between the parent company and the listed subsidiary, and between the listed subsidiary and other Group companies

Identify the mechanisms envisaged for the resolution of potential conflicts of interest between the listed subsidiary and other Group companies:

D Risk Control Systems

D.1. General description of the risk policy of the Company and/or its Group, giving details and evaluating the risks covered by the system, together with evidence that the system is appropriate for the profile of each type of risk:

The purpose of the Risk Policy of the Red Eléctrica Group, approved by the Board of Directors on July 24, 2008, is to establish principles and guidelines to ensure the systematic identification, analysis, assessment, management and control of material risks that may affect the Red Eléctrica Group's objectives and activities, applying uniform criteria, within the established risk limits.

Material risks of the Red Eléctrica Group are those that may significantly affect the overall objectives of the Red Eléctrica Group, related to:

- ◆ Sustained creation of value over time.

Sustained profit growth, which must allow appropriate returns for investors and enable the company to implement its strategy.

- ◆ The continuity and quality of the energy supply in the electricity systems.

The achievement of this objective involves the management by the Spanish System Operator and is dependent on the reliability and availability of the transmission network.

- ◆ The construction of the electricity transmission infrastructure network necessary to meet future needs.

Red Eléctrica, as the sole transmission company of the Spanish electricity system, must design, fulfill the formalities for and construct the facilities specified by energy planning. This overall objective must be achieved on a cost-effective basis.

- ◆ The compatibility of the above objectives with social and environmental concerns.

This Policy establishes criteria on the acceptable level of risk for each of the overall objectives, which may be summarized as follows: all material risks that could jeopardize achievement of the overall objectives must have a low probability/impact value. Steps must be taken to ensure that any risks that do not meet this value are lowered to such level.

The general guidelines contained in the Risk Policy are as follows:

- ◆ Risk management must be fundamentally proactive and also geared towards the medium and long term, taking into account possible scenarios in an ever more globalized environment.
- ◆ In general, risks must be managed according to the relationship between the importance of the risk (probability/impact) and the investment and resources necessary to reduce it.
- ◆ Notwithstanding the above, the impact the risks may have on the electricity system itself must also be taken into account with respect to activities relating to the electricity system.
- ◆ Processes must be designed with efficiency and efficacy in mind and contemplate controls to mitigate risks, taking the form of systems based on international standards (good practices) that are periodically verified and improved.

- ◆ Contingency plans must be established to reduce the impact of material risks.
- ◆ The insurance necessary to cover any losses that may occur must be arranged.

The most significant risks to which the Group is exposed, and which form part of the risk control system, are:

- a) **Regulatory**, since the principal business activities of the Group are subject to regulation.
- b) **Operational**, basically arising from its assigned activities within the electricity system and the requirement to care for and protect the natural environment.
- c) **Market**, since most revenues, as well as certain expenses, may be influenced by variables such as inflation and interest rates.
- d) **Business and Credit (or counterparty)**, albeit to a lesser extent due to the lesser weight of the subsidiaries in the overall Group and the existing regulation regarding invoicing and collection for transmission and operation activities.

The risk control system covers both risks from internal processes and risks from the environment in which it operates, covering all activities performed by the Group, evaluating the impact of each risk on four aspects: strategy, the income statement, the electricity system and reputation.

Of all risks monitored by the system, 11% relate to regulatory risks, 75% to operational risks and 14% to business, market or credit risks. These figures are consistent with a Group whose fundamental mission is to ensure the functioning of the electricity system as a whole in a heavily regulated environment and with the level of solvency supported by the ratings given to it by international rating agencies.

An independent review of the design of the risk control system was carried out in 2011 by specialist consultant Ernst & Young, based on the ISO 31000 Standard (Risk Management. Principles and Guidelines). The conclusion issued by the firm on January 14, 2012, is as follows:

“As a result of our review, we can conclude that the design of the Risk Management System of Red Eléctrica Corporación applicable to its different activities is in line with the principles established in the ISO 31000 Standard on Principles and Guidelines.”

Furthermore, it should be noted that in 2007 Red Eléctrica embarked on a project to align, review and improve its System for Internal Control over Financial Reporting (ICFR), with the basic aim of improving the efficiency and security of processes for preparing economic and financial information on the Company, adopting international best practices early on, on a voluntary basis. The ICFR is detailed in one of the sections of Annex II to this Annual Corporate Governance Report, which Annex includes additional information to the current Annual Corporate Governance Report in accordance with Article 61 bis of Securities Market Law 24/1998, of July 29, 1988, as amended by Sustainable Economy Law 2/2011, of March 4, 2011.

D.2. Indicate whether any of the various kinds of risk (operating, technological, financial, legal, reputational, tax, etc.) to which the Company and/or its Group are exposed arose during the year:

YES NO

If yes, describe the underlying circumstances and whether the established control systems functioned:

| Risk materializing during the year | Underlying circumstances | Functioning of the control systems |
|---|---|---|
| The transmission network facilities are constantly exposed to operating events that may affect the continuity and security of the electricity supply. | In general, these events were caused by third parties and meteorological phenomena. | The control systems functioned adequately, as shown by the transmission network availability index, which reached 97.65% in 2011 (compared with 97.92% in 2010). The Company has insurance policies that limit the potential impact of these events on the income statement. |

D.3. Indicate whether any Committee or other governing body is responsible for establishing and supervising those control mechanisms:

YES NO

If yes, give details of their functions

| Name of Committee or body | Description of functions |
|---------------------------|--------------------------|
| | |

As expressly recognized in the Board regulations, the **Board of Directors** is responsible for approval of the integral risk management policy of the Company and of the Group, and knowledge and periodic monitoring of internal control, prevention and reporting systems.

The Board reviews the risk control system and material risks twice a year, notwithstanding the information it receives on a regular basis from the Audit Committee as part of the ongoing monitoring process carried out by the Committee.

The **Audit Committee** is responsible for the periodic supervision of the risk management system, to ensure that the main risks are adequately identified, managed and disclosed.

The **Management Committee**, comprised of executives from the key strategic areas of the Company, is responsible for:

- ◆ Promoting implementation of the integral risk management policy.
- ◆ Monitoring the Risk Map, and agreeing on the appropriate actions to facilitate the achievement of the global objectives.

The risk control function is performed on a centralized basis by the **Regulation Office**, which reports to the Office of the Chairman.

D.4. Identification and description of the procedures for compliance with the various regulations affecting the Company and/or its Group:

Procedures

The RED ELÉCTRICA Group constantly designs and implements processes to ensure its compliance with the various regulations and to mitigate or reduce the related risks.

These processes have been integrated into systems structured according to a set of internal standards and procedures based on international standards (ISO 9001, ISO 14001 and OHSAS 18001), which are subject to systematic audits of the adequacy of their design and compliance, and include mechanisms for controlling the objectives that they must meet.

Projects

All proposals for significant projects from an economic or strategic point of view include the corresponding risk analysis, allowing risks to be evaluated when the related decisions are to be made. These decisions are made by the competent corporate body according to the established limits, with the most important projects requiring the approval of the Board of Directors.

Verification

The design and adaptation to existing regulations of, and correct compliance with, the internal rules and procedures is systematically reviewed by the Internal Audit and Risk Management functions, which form an integral part of the Regulation Office, and these procedures are also supervised by the Audit Committee.

Internal rules and their compliance are also subject to external audits on a periodic basis, by international ISO and OHSAS standards certification bodies.

Self-evaluation of legal compliance

An internal rule was approved and implemented in 2011 which obliges all units of the organization to establish mechanisms for the identification, dissemination and updating of the legislation applicable to them, and to carry out a yearly self-evaluation of their compliance.

E Shareholders' Meeting

E.1. Indicate and, as appropriate, give details of any differences between the minimum quorum requirements provided for in the Corporate Enterprises Law (LSC) and the quorum required for the Shareholders' Meeting.

YES NO

Percentage quorum other than as provided in Art. 193 LSC for general matters

Percentage quorum other than as provided in Art. 194 LSC for general matters

Quorum required on first call

Quorum required on second call

E.2. Indicate and, as appropriate, give details of any differences between the regime provided for in the Corporate Enterprises Law (LSC) and the regime for adopting corporate resolutions:

YES NO

Describe how it differs from the regime provided for in the LSC.

Qualified majority other than as provided in Art. 194.1 and 194.2 LSC

Other instances of qualified majority

Percentage established by the Company for adoption of resolutions

Describe the differences

E.3. List any shareholder rights in connection with Shareholders' Meetings that differ from those established in the Corporate Enterprises Law (LSC).

Shareholder rights in relation to Shareholders' Meetings are regulated in Article 15 of the Corporate Bylaws, which expressly refer to the right to information and the right to attend Meetings, and in Articles 6 to 10 of the Shareholders' Meeting Regulations.

In accordance with the corporate legislation currently in force, Article 6 of the Shareholders' Meeting Regulations sets out the rights of shareholders, introducing, over and above the provisions of the LSC, a new right to participate in company matters on the terms established in Article 7 of the Shareholders' Meeting Regulations.

Right to Information

The Company pays particular attention to the shareholders' right to information, as reflected in Article 15 of the Corporate Bylaws and Article 8 of the Shareholders' Meeting Regulations. Thus, Article 8 of the Shareholders' Meeting Regulations establishes an obligation to make available to shareholders, free of

charge, both through the Shareholder Information Office and on the Company website, the documentation and information relating to the agenda for the Shareholders' Meeting, including the following:

- ◆ The call notice of the Shareholders' Meeting, containing the proposed resolutions and the corresponding reports by the Board of Directors.
- ◆ The Company's individual and consolidated financial statements and the proposed distribution of income for the year.
- ◆ The Company's individual and consolidated management reports for the year.
- ◆ The audit reports for the consolidated financial statements and the Company's financial statements.
- ◆ The Annual Corporate Governance Report.
- ◆ The Corporate Responsibility Report.
- ◆ The Environmental Report.
- ◆ The report on the compensation policy for the Board of Directors, included in the annual public documentation submitted to the Annual Shareholders' Meeting.
- ◆ Any other report the inclusion of which is obligatory or is determined by the Board of Directors.

In order to reinforce the shareholders' right to information, shareholders may request the pertinent documentation, reports or clarification from the Company on the items included on the agenda, as well as request any information or clarification or ask questions in writing regarding any information provided by the Company to the CNMV since the date of the last Shareholders' Meeting.

The Shareholder Information Office specifically deals with requests made by Company shareholders. Shareholders may also submit questions in writing regarding any information available to the public or communicated to the competent authorities, and make inquiries through the Shareholder Information Office.

In addition, Article 15.4 of the Shareholders' Meeting Regulations establishes that shareholders may orally request any reports or clarification during the Meeting that they consider appropriate regarding items on the agenda. If this right cannot be satisfied at that time, the Board of Directors must provide the information in writing within seven days after the holding of the Shareholders' Meeting.

Law 25/2011, of August 1, 2011, precisely establishes certain information that is to be published on the website at the time of calling the Shareholders' Meeting, the scope of which is covered by the current Shareholders' Meeting Regulations.

Under Law 25/2011 more prominence is given to company websites, since it introduces a new Article 11 bis to the Corporate Enterprises Law regulating the online site or corporate website. The Law also incorporates an obligation under Article 516 of the Corporate Enterprises Law for listed companies to use the website to disseminate the call notice for the Shareholders' Meeting, something which Red Eléctrica Corporación, S.A. has been doing for a number of years.

The Law also introduces amendments to the call notice for the Shareholders' Meeting, mainly to reinforce the shareholders' right to information.

Right to attend

Article 15 of the Corporate Bylaws and Article 9 of the Shareholders' Meeting Regulations establish that shareholders may attend the Shareholders' Meeting if they are up to date in the payment of capital calls and evidence their share ownership, by way of certification in their name, in the accounting register of book entries five days before the meeting is due to be held.

Company Directors and Executives must attend Shareholders' Meetings. As a general rule and in order for the proceedings of meetings and the resolutions adopted to reach the widest audience, the media are allowed access to Shareholders' Meetings. In order to facilitate such dissemination, Meetings may be filmed.

The Corporate Bylaws and the Shareholders' Meeting Regulations establish specific conditions for the representation of shareholders at Shareholders' Meetings, but there is no specific policy established by the Company regarding proxies for Shareholders' Meetings.

In this regard, Article 15 of the Corporate Bylaws and Article 10 of the Shareholders' Meeting Regulations provide that shareholders with the right to attend may confer a proxy for the Shareholders' Meeting on another shareholder with the right to attend, in the manner established in Article 184 of the LSC and in accordance with the provisions of the Corporate Bylaws. Proxies must be conferred in writing and specifically for each Meeting.

With the entry into force of Law 25/2011, the bylaw restrictions on attendance at Shareholders' Meetings have been eliminated and therefore it should be understood that the bylaw provision that proxies may only be conferred on another shareholder no longer applies and that proxies may be conferred on any individual. All of the above is notwithstanding the necessary adaptation of the relevant articles of the Corporate Bylaws and the Shareholders' Meeting Regulations, which are expected to be proposed to the next Shareholders' Meeting.

Except for cases of public proxies, which are subject to the legal provisions in force, no person may accumulate proxy votes that, together with their own votes, give them voting rights exceeding 3% of capital, as indicated in this Report (Section A.10).

Law 17/2007 amended Article 34 of Electricity Industry Law 54/1997, of November 27, 1997, by establishing various limits on shareholdings. Law 17/2007 provides that the voting rights corresponding to shares that exceed the maximum percentage established by law will be held in abeyance until the amount of shareholdings or voting rights is adjusted, establishing certain limits on shareholdings and voting rights at the Company.

Consequently, according to Article 5 (Capital Stock), Article 14 (Quorum) and the Sole Additional Provision (Special Regime for the State-Owned Industrial Holdings Company) of the Corporate Bylaws, and Article 6.3 (Limitations) and Article 15.8 (Vote) of the Shareholders' Meeting Regulations, the sum of the direct or indirect holdings in the Company's capital of any individual or legal entity may not exceed five percent of the Company's capital stock at any time, unless otherwise authorized by law. These shares may not be pooled for any purpose whatsoever. No shareholder may exercise more than three percent of voting rights. Parties that engage in activities in the electricity industry and those individuals or legal entities that directly or indirectly hold more than five percent of their capital, may not exercise more than one percent of voting rights. Furthermore, the sum of the direct or indirect interests held by parties that pursue activities in the electricity industry must not exceed forty percent.

As an exception to the above general rule, a special regime is applicable to the State-Owned Industrial Holdings Company (SEPI) pursuant to the new Sole Additional Provision of the Corporate Bylaws, according to which, in line with the provisions of the Electricity Industry Law, the limitations established in Subprovision 2 of Additional Provision Three of Law 17/2007 and those established in the Corporate Bylaws on shareholdings in the Company and voting rights do not apply to SEPI. The State-Owned Industrial Holdings Company will in all cases have a holding of not less than 10%.

Article 14 of the Corporate Bylaws provides that shares or other securities the non-economic rights of which exceed the limits recognized in Article 5 shall not be taken into account when calculating the quorum required to convene the relevant Shareholders' Meetings, or when calculating the majorities for the adoption of resolutions.

Moreover, in accordance with Article 15 of the Corporate Bylaws and Article 10 of the Shareholders' Meeting Regulations, as required by Law 17/2007, except in cases of public proxies, which are subject to the legal provisions in force in each case, no person may accumulate proxy votes that, together with their own votes, give them voting rights exceeding 3% of capital.

The special legal regime limiting holdings and voting rights in the Company's capital stock must be regarded as endorsed by Directive 2009/72/EC, of July 13, 2009, applying to transmission companies and operators of European electricity systems.

Right to Participate and New Technologies

The Shareholders' Meeting Regulations allow shareholders to participate to the fullest extent in matters of interest to them (right to attend, meeting calls, inclusion of items and proposals on the agenda, inquiries and requests for information and voting).

In line with the most well-known recommendations in this area, the Shareholders' Meeting Regulations are in line with the regime established by Law 26/2003 of July 17, 2003 regarding the development of shareholder rights and the rules regarding the organization and functioning of the Shareholders' Meeting.

Thus it is provided that shareholders owning 5% of capital may request that the Board, prior to issuing the call, include any item on the agenda for the next Shareholders' Meeting. The Board of Directors must include the items requested in the manner that best suits the Company's interests, provided that they refer to matters falling within the scope of the powers of the Shareholders' Meeting.

Shareholders may also make proposals regarding items on the agenda and suggestions regarding any activities and interests of the Company that, in their opinion, should be discussed at the Shareholders' Meeting. In both cases, shareholders may make proposals and suggestions through the Shareholder Information Office.

Law 25/2011 has introduced a number of adjustments and provisions aimed at reinforcing the shareholders' right to participate in the Shareholders' Meeting, which will require the necessary adaptations to be made to the Corporate Bylaws and to the Shareholders' Meeting Regulations, and these are expected to be submitted for approval to the Annual Shareholders' Meeting.

Red Eléctrica introduced the electronic voting system in 2005. It was one of the pioneers of this system, which allows shareholders to exercise their voting rights electronically via the Company website, www.ree.es. Since then, the Company has allowed shareholders to exercise their voting rights electronically at all Shareholders' Meetings.

Following the ongoing policy of providing shareholders with advanced telematic means of exercising their rights, the Board meeting held on February 24, 2011 approved the rules regarding voting and proxies by remote means and the exercise of the right to information by electronic means for the Annual Shareholders' Meeting held on April 13, 2011. The procedure was very satisfactory yet again: 664 shareholders holding 208,839 shares voted and/or delegated their vote electronically. This meant that 14% of the 4,788 shareholders present in person or by proxy at the Meeting participated in the Meeting by electronic means. This was another success as it equaled the percentage obtained at the 2010 Shareholders' Meeting and almost doubled the number of shareholders that voted and/or delegated their vote electronically at the 2009 Shareholders' Meeting, when 379 shareholders holding 133,711 shares used the electronic voting procedure.

Presentations to analysts and the Shareholders' Meeting are broadcast in real time on the Company website. Webcasts of presentations are available on the Company website. In 2007, 2008, 2009, 2010 and 2011 the Shareholders' Meeting was broadcast via live video webcast, with simultaneous translation into English.

Particularly noteworthy in 2011, as mentioned previously, was the implementation of the Shareholders' Electronic Forum at the Shareholders' Meeting held on April 13, 2011, with the aim of meeting the legislative requirements envisaged in Article 528.2 of the Corporate Enterprises Law. The purpose of the Forum is to facilitate communication among the shareholders of Red Eléctrica with a view to publishing proposals to supplement the agenda contained in the call notice, issuing requests for adherence to such proposals, presenting initiatives in order to reach the percentage to exercise the minority right envisaged in the law or making offers or requests for voluntary representation.

This tool has been incorporated into Article 8.4 of the Shareholders' Meeting Regulations, following its approval by the Shareholders' Meeting held on April 13, 2011.

The Company has also used certain social networking sites (Facebook and Twitter) in 2011 to publicize and provide information on the Annual Shareholders' Meeting.

It is worth mentioning that the amendment of the Corporate Bylaws and the Shareholders' Meeting Regulations approved at the Annual Shareholders' Meeting held on April 13, 2011, included a new duty for the company: equal treatment of shareholders, a provision that was already contained in the Board Regulations (Article 35).

As indicated previously, Law 25/2011 established the obligation on corporate enterprises to have a website, which must be approved by the Shareholders' Meeting and registered at the Mercantile Registry. The creation of the RED ELÉCTRICA website is expected to be submitted for approval or ratification to the next Annual Shareholders' Meeting.

E.4. Indicate, as appropriate, the measures adopted to encourage participation by shareholders at Shareholders' Meetings:

The Shareholders' Meeting Regulations pay particular attention to the right to participate, as developed upon in Article 7 and explained in detail in Section E.3 above, which should be consulted for further information.

Regarding the use of electronic voting, please see section E.3 above.

Law 25/2011, of August 1, 2011, partially reforming the Corporate Enterprises Law, has established provisions in this regard, leading to the need to adapt the Corporate Bylaws and Shareholders' Meeting Regulations.

E.5. Indicate whether the Chairman of the Board of Directors chairs Shareholders' Meetings. Give details, as appropriate, of what measures are adopted to ensure the independence and sound functioning of the Shareholders' Meeting:

YES NO

Details of measures

As provided in the Company's regulations, the office of Chairman of the Shareholders' Meeting falls to the Chairman of the Board of Directors.

Article 12 of the Shareholders' Meeting Regulations establishes that the Shareholders' Meeting will be chaired by the Chairman of the Board of Directors and, in his absence, by the corresponding Deputy Chairman, either by rank or longest time in office. Failing that, it will be chaired by the person appointed by the Board of Directors and, if no appointment has been made, by the Director or shareholder freely chosen by the shareholders attending each meeting.

The Secretary or, as the case may be, Deputy Secretary of the Board of Directors will act as Secretary of the Shareholders' Meeting. If both are absent, the Secretary of the Shareholders' Meeting will be the Director or shareholder freely chosen by the shareholders attending each meeting.

The Chairman is tasked with chairing the meeting and establishing the order of deliberations and speeches; deciding on the method of voting on resolutions; handling any questions, clarification or claims arising in relation to the agenda, the list of attendees, share ownership, delegations or proxies, quorum requirements for the valid constitution of the Shareholders' Meeting and the adoption of resolutions, or the Bylaws limit on voting rights; and granting the floor to the shareholders who so request, withdrawing or refusing the floor when he deems the matter in question have been sufficiently debated.

The new contents of Article 5 of the Shareholders' Meeting Regulations and Article 13 of the Corporate Bylaws, both amended by the Shareholders' meeting held on April 13, 2011, establish measures aimed at ensuring the independence and sound functioning of the Shareholders' Meeting. These Articles provide that the Board of Directors will call annual and special Shareholders' Meetings by publishing a notice in the Official Mercantile Registry Gazette and on the Company's website at least one month before the date scheduled for the Shareholders' Meeting.

Royal Decree-Law 13/2010, of December 3, 2010, introduced the possibility of the Company website substituting the call notice published in the press, a possibility which the Company has included in the amendments to the Corporate Bylaws and the Shareholders' Meeting Regulations which, as previously mentioned, were approved by the Annual Shareholders' Meeting held on April 13, 2011.

The call notice shall state the name of the Company, the date and time of the Meeting on first call and the agenda on which the business to be transacted shall appear. The date for the second call may also be set. A minimum period of twenty-four hours must elapse between the two calls. Where a second call is not provided for and the Shareholders' Meeting cannot be held, the Meeting must be announced in the same way as the first call, within fifteen days from the date on which it was not held and at all times eight days prior to holding the second meeting. In the call notice the Board will endeavor to state the likely date for the meeting on first or second call.

Shareholders' Meetings shall be held in Spain at such venue as may be decided in each case by the Board of Directors, and as shall be duly indicated in the call notice.

It is worth noting here, in view of its importance to the Company, that pursuant to the new LSC, the Corporate Bylaws can, for the first time, expressly establish a venue for the Shareholders' Meeting outside the municipality where the registered office is located, an option which has been included in Article 13 of the Corporate Bylaws and Article 5 of the Shareholders' Meeting Regulations.

The Board must call a Special Shareholders' Meeting when shareholders holding five percent of the capital stock send a request stating the reasons and describing the business to be transacted, which must relate to matters falling within the jurisdiction of the Shareholders' Meeting. In this case the Shareholders' Meeting must be called to be held within thirty days from the date on which the Board of Directors was asked by way of a notary to call it and it shall fall to the Board of Directors to draw up the agenda, including the items indicated in the request in the manner which best suits the interests of the Company.

Shareholders representing at least five percent of the capital stock may request the publication of a supplement to the call notice for a Shareholders' Meeting, including one or more items on the agenda. This right must be exercised by giving duly authenticated notice which must be received at the registered office within five days after the publication of the call notice.

The supplement to the call notice must be published at least fifteen days prior to the date set for holding the Shareholders' Meeting. If included by the aforesaid shareholders in their request, the Board shall make available to the shareholders the complete wording of the resolutions proposed on the same terms as indicated above.

Failure to publish the supplement to the call notice by the statutory deadline shall be a ground for rendering the Shareholders' Meeting void.

If the Shareholders' Meeting is not called by the Board of Directors despite it being required to do so, it may be called, at the request of the shareholders and with the Board having been given the opportunity to be heard, by the judge having jurisdiction over the Company's registered office who, if applicable, will appoint the person to chair the Meeting.

The quorum necessary for constitution of the Shareholders' Meeting is established in Article 14 of the Corporate Bylaws and in Article 11 of the Shareholders' Meeting Regulations. The Corporate Bylaws and the Shareholders' Meeting Regulations do not differ from the provisions established in Articles 193 and 194 LSC. As already indicated, the minimum share requirement (50) in order to be able to attend Shareholders' Meetings was eliminated from the Corporate Bylaws in 2003.

Article 15 of the Shareholders' Meeting Regulations contains detailed rules for the sound functioning of the Shareholders' Meeting. This Article provides that, prior to addressing the items on the agenda, a list of attendees will be drawn up, detailing the status or representative authority of each attendee and the number of shares with which they attend, whether in person or by proxy. The number of shareholders present in person or by proxy and the amount of capital held by them will be stated at the bottom of the list, summarizing the capital corresponding to shareholders with the right to vote, and all such data will be verified by the Secretary.

Once the meeting has been called to order, the Secretary will read the call and attendance data based on the list of attendees. Based on the list of attendees, the Chairman will declare the meeting to be validly constituted, if appropriate. If a notary is present at the request of the Company to draw up the Minutes of the meeting, he will ask those attending if there are any reservations or objections to the shareholder attendance and capital data stated by the Chairman.

At the Annual Shareholders' Meeting the Chairman will inform the meeting of the most significant matters in the year and the proposals of the Board, and his presentation may be completed by the individuals authorized by him.

The Chairman of the Audit Committee will be available to the Shareholders' Meeting to respond to any questions raised by the shareholders on matters falling within its jurisdiction.

When the appropriate presentations have been concluded, the Chairman shall grant the floor to shareholders who have so requested, directing and coordinating the debate, and seeking to follow the established agenda.

Article 15.8 of the Shareholders' Meeting Regulations establishes that each share gives the right to one vote on the terms established in the Corporate Bylaws, with the limits set out therein as required by the Electricity Industry Law.

The Chairman will also decide on the most suitable method for voting in each case, announcing it publicly at the Shareholders' Meeting sufficiently in advance and prior to the vote.

Article 15 of the Shareholders' Meeting Regulations allows for the possibility of establishing electronic voting systems, provided that the identity of the voter and his status as shareholder or proxyholder are evidenced and that the number of shares with which he votes, as well as the direction of the vote or, as the case may be, his abstention, are stated clearly and unequivocally.

Article 17 of the Corporate Bylaws and Article 15.9 of the Shareholders' Meeting Regulations do not differ from the provisions established in the legislation in force, since they simply establish that resolutions will be adopted by majority vote, except where a higher majority is required by law.

All the above is also without prejudice to the rights to participate, to information and to attend, which are described in sufficient detail in Section E.3 of this Report.

E.6. Indicate, as appropriate, any amendments made to the Shareholders' Meeting Regulations during the year:

The Shareholders' Meeting held on April 13, 2011 approved the amendment of certain articles of the Shareholders' Meeting Regulations in order to update their provisions in light of certain legislative reforms (principally, Law 2/2010, of June 30, 2010 and Legislative Royal Decree 1/2010, of July 2, 2010, approved the Revised Corporate Enterprises Law) which have affected the legal regime governing corporations, in line with the reform of the Corporate Bylaws, also approved at the same meeting.

The reform consists of the deletion of the introductory paragraph and the amendment of Articles 1 ("Purpose and entry into force of the Regulations"), Article 2 ("Company website"), Article 3 ("Powers of the Shareholders' Meeting"), Article 5 ("Call"), Article 6 ("Shareholders' rights"), Article 8 ("A shareholder's right to information"), Article 9 ("Right to attend"), Article 11 ("Quorum"), Article 15 ("Constitution, deliberation and adoption of resolutions" in relation to Article 15.5 "Debate"), and Article 16 ("Minutes of the Shareholders' Meeting and certificate") of the Shareholders' Meeting Regulations.

The approved amendments to the Shareholders' Meeting Regulations have been notified to the CNMV, registered at the Mercantile Registry and published on the Company's website.

Following the approval of Law 25/2011, of August 1, 2011, it is necessary to carry out a new review of the Shareholders' Meeting Regulations and, subject to a report by the Corporate Responsibility and Governance Committee, it is expected that the Board of Directors will submit the proposed amendment to the next Annual Shareholders' Meeting.

For further details of the content of this proposed amendment to the Shareholders' Meeting Regulations, please consult the explanatory report prepared by the Board of Directors, which will be published together with the call notice for the Shareholders' Meeting.

E.7. Indicate the data on attendance at the Shareholders' Meetings held in the year to which this Report refers:

| Date of Shareholders' Meeting | ATTENDANCE DATA | | | | Total |

E.9. Indicate whether there is any restriction in the Bylaws regarding the minimum number of shares necessary to attend the Shareholders' Meeting:

YES NO

Number of shares necessary to attend the Shareholders' Meeting

1

E.10. Indicate and provide support for the policies followed by the Company with respect to proxy voting at Shareholders' Meetings:

The Company has no specific policy for granting proxies to vote at Shareholders' Meetings. Notwithstanding the above, the Corporate Bylaws and the Shareholders' Meeting Regulations establish specific conditions for the representation of shareholders at Shareholders' Meetings.

In this regard, Article 15 of the Corporate Bylaws and Article 10 of the Shareholders' Meeting Regulations provide that shareholders with the right to attend may confer a proxy for the Shareholders' Meeting on another shareholder with the right to attend, in the manner established in Articles 185 through 187 of the LSC respecting the provisions of the Corporate Bylaws. Proxies must be conferred in writing and specifically for each Meeting.

With the entry into force of Law 25/2011, the bylaw restrictions on attendance at Shareholders' Meetings have been eliminated and therefore it should be understood that the bylaw provision that proxies for the Shareholders' Meeting may only be conferred on another shareholder no longer applies and that

proxies may be conferred on any individual. All of the above is notwithstanding the necessary adaptation of the relevant articles of the Corporate Bylaws and the Shareholders' Meeting Regulations, which are expected to be proposed to the next Shareholders' Meeting.

Except for cases of public proxies, which are subject to the legal provisions in force, no person can accumulate proxy votes that, together with their votes, give them voting rights exceeding 3% of capital. In addition, shares may not be pooled for any purpose.

As already discussed in this Report (section A), Law 17/2007 amended Article 34 of Electricity Industry Law 54/1997 of November 27, 1997. Specifically, Subprovision two of Additional Provision Three of Law 17/2007 established new maximum limits on the exercise of voting rights, in order to guarantee the independence of a company engaging in regulated activities in the electricity industry which, pursuant to Electricity Industry Law 54/1997 of November 27, 1997, constitute an essential service.

These legal provisions have been included in the Corporate Bylaws and the Shareholders' Meeting Regulations, as indicated in section E.3 above.

Thus, any individual or legal entity may hold shares in the Company, provided that the sum of their direct and indirect interests in the Company's capital does not exceed five percent of capital and they do not exercise more than three percent of voting rights. These shares may not be pooled for any purpose whatsoever.

Parties that pursue activities in the electricity industry, and those individuals or legal entities that directly or indirectly hold more than five percent of their capital, may not exercise more than one percent of voting rights at the company responsible for operation of the system.

The special regime for SEPI, whereby it must hold at least ten percent of capital in all cases, remains unchanged.

The legal regime established by Directive 2009/72/EC, of July 13, 2009, which proclaims the mandatory independence of transmission companies and operators of European electricity systems has endorsed the legal limitations on shareholders established in Law 17/2007.

Also notable are the provisions of the Corporate Bylaws and Shareholders' Meeting Regulations regarding electronic voting and proxies, which have been successfully applied since 2005 and are discussed in detail in section E.3 above.

As is customary, the Company facilitated the use of electronic voting systems and proxies by shareholders for the Annual Shareholders' Meeting held on April 13, 2011, following approval of the corresponding procedure by the Board meeting held on February 24, 2011.

Law 25/2011 has introduced certain amendments to the legal regime applicable to proxies and the relevant amendments will therefore be made to the Corporate Bylaws and Shareholders' Meeting Regulations.

E.11. Indicate whether the Company is aware of the policy of institutional investors on whether or not to participate in the Company's decisions:

YES NO

Describe the policy

Relations between the Company and institutional investors are general in nature and no specific or special relationships are held with any of them.

The Company regularly organizes road shows at the principal financial centers in Spain and abroad where there is a higher concentration of institutional investors, in order to inform them of its activities and its business performance in an attempt to forge closer ties with this group of investors. In light of the high percentage of foreign institutional investors (close to 70%), in 2011, as in previous years, the Company implemented a program of visits to investors and proxy advisers in order to directly explain the corporate governance practices and initiatives followed by the Company, with a view to consolidating adequate mechanisms for the regular exchange of information with domestic and foreign institutional investors and the most prominent proxy advisers, in order to continue adapting to the most advanced international corporate governance standards.

Under no circumstances does the Company disclose any information to institutional shareholders that might place them in a privileged or advantageous situation vis-à-vis the other shareholders.

E.12. Indicate the URL and means of accessing corporate governance content on the website:

Article 2 of the Shareholders' Meeting Regulations establishes the content of the Company website, the purpose of which is to serve as an instrument to ensure transparency in the way the Company conducts itself and, at the same time, to allow shareholders to exercise their rights more effectively, as well as make their dealings with the Company easier. The Company has been using this form of communication since it was listed on the stock markets in 1999. The content of the website is updated regularly and exceeds the requirements of the applicable legislation.

Under Law 25/2011 more prominence is given to company websites, since it introduces a new Article 11 bis to the Corporate Enterprises Law regulating the online site or corporate website. The Law also incorporates an obligation under Article 516 of the Corporate Enterprises Law for listed companies to use the website to disseminate the call notice for the Shareholders' Meeting, something which Red Eléctrica Corporación, S.A. has been doing for a number of years.

As indicated previously, Law 25/2011 established the obligation on corporate enterprises to have a website, which must be approved by the Shareholders' Meeting and registered at the Mercantile Registry. The creation of the RED ELÉCTRICA website is expected to be submitted for approval or ratification to the next Annual Shareholders' Meeting.

The Company's website (www.ree.es) includes a "Shareholders and Investors" section accessible from the home page. Among other items, it includes a section specifically entitled "Corporate Governance" containing all information on this matter that may be of interest to shareholders. The website includes the following content, among other items, in accordance with the Shareholders' Meeting Regulations:

- ◆ The Corporate Bylaws.
- ◆ The Shareholders' Meeting Regulations, the Board Regulations and other corporate governance provisions.
- ◆ Quarterly reports for the year and annual reports for the past two years, together with reports by the external auditor.
- ◆ The Annual Corporate Governance Report prepared by the Board.
- ◆ The composition of the Board and its Committees.

- ◆ Details of shareholders with stable holdings, both direct and indirect, and their representation on the Board, as well as any side agreements between shareholders which have been disclosed to the Company and the market.
- ◆ The shareholdings of each of the members of the Board.
- ◆ The report on the compensation policy for the Board of Directors.
- ◆ Information contained in the presentations made to different market operators and analysts, intermediaries and significant shareholders.
- ◆ Material events disclosed to the CNMV.
- ◆ The resolutions adopted at the last Shareholders' Meeting, including details on the composition and result of the vote.
- ◆ The current call for the next Shareholders' Meeting.
- ◆ Any information that must be made available to shareholders along with the call for the Shareholders' Meeting.
- ◆ Responses to proposals and suggestions made by shareholders.
- ◆ Communication channels between the Company and the shareholders and the relevant explanations regarding the exercise of the right to information, indicating the postal and electronic mail addresses to which shareholders may send their questions.
- ◆ The Shareholders' Electronic Forum and its Operating Rules.
- ◆ Means and procedures for granting proxies for Shareholders' Meetings, as well as the means and procedures for casting votes remotely, with the ballots approved for doing so.

As regards the disclosure of resolutions approved by the Shareholders' Meeting, Article 17 of the Shareholders' Meeting Regulations specifies that, without prejudice to the recording of all registrable resolutions at the Mercantile Registry and to any applicable legal provisions regarding disclosure of corporate resolutions, the Company will submit the text of the approved resolutions to the CNMV in a notice disclosing a material event, on the same day the meeting is held or on the immediately following business day. Once it has been reported to the CNMV, the text of the resolutions will also be made available on the Company website.

Work continued in 2011 to improve the content of the Company website as a means of communication with shareholders and investors, pursuant to Order ECO/3772/2003 of December 26, 2003 and CNMV Circular 4/2007. The following steps were particularly noteworthy:

- ◆ The live and simultaneous broadcast, in Spanish and English, of the Annual Shareholders' Meeting held on April 13, 2011.
- ◆ The live and simultaneous broadcast, in Spanish and English, of the presentation of 2010 year-end results and the Company's 2011-2015 Strategic Plan.
- ◆ The publication in English of the call notice, as from the date of its publication in Spanish, and proposed resolutions submitted for approval to the Shareholders' Meeting, as well as all the related documentation, including the Annual Corporate Governance Report.

Particularly noteworthy in 2011 was the implementation of the Shareholders' Electronic Forum at the Shareholders' Meeting held on April 13, 2011. The Operating Rules for the Shareholders' Electronic Forum were approved by the Board of Directors at the meeting held on February 24, 2011.

The Shareholders' Electronic Forum set up by Red Eléctrica Corporación, S.A. on its website (www.ree.es) on the occasion of holding its Shareholders' Meetings, responds to the need established in the last paragraph of Article 117.2 of Securities Market Law 24/1988, of July 28, 1988, introduced by Law 12/2010 of June 30, 2010, and in Article 528.2 of the Revised Corporate Enterprises Law, approved by Legislative Royal Decree 1/2010, of July 2, 2010.

The purpose of the Forum is to facilitate communication among the shareholders of Red Eléctrica with a view to publishing proposals to supplement the agenda contained in the call notice, issuing requests for adherence to such proposals, presenting initiatives in order to reach the percentage to exercise the minority right envisaged in the law or making offers or requests for voluntary representation.

This tool has been incorporated into Article 8.4 of the Shareholders' Meeting Regulations, following its approval by the Shareholders' Meeting held on April 13, 2011.

Following the approval of Law 25/2011, it is expected that the Board will propose the incorporation of certain technical amendments to the Shareholders' Meeting Regulations to the Annual Shareholders' Meeting in order to adapt the relevant articles to the literal wording of the Law.

F Degree of Compliance with Corporate Governance Recommendations

Indicate the degree to which the Company complies with the recommendations of the Unified Good Governance Code.

In the event of noncompliance with any of the recommendations, explain the recommendations, rules, practices or criteria used by the Company.

It is worth noting that the level of compliance with the corporate governance recommendations remains the same as that detailed in the 2010 Annual Corporate Governance Report.

1. The bylaws of listed companies should not place an upper limit on the votes that can be cast by a single shareholder, or impose other restrictions that hinder the taking of control at the Company by means of the acquisition of its shares on the market.

See sections: A.9, B.1.22, B.1.23 and E.1, E.2

Complies Explain

2. When a parent company and a subsidiary are listed, the two should provide detailed disclosure on:

a) Their respective areas of activity and any business dealings between them, as well as between the listed subsidiary and other Group companies.

b) The mechanisms in place to resolve possible conflicts of interest.

See sections: C.4 and C.7

Complies Complies partially Explain Not applicable

3. Even when not expressly required under corporate/commercial law, any decisions involving a structural change should be submitted to the Shareholders' Meeting for approval or ratification. In particular:

a) The conversion of listed companies into holding companies by way of "subsidiarization", or the transfer to dependent entities of core activities previously pursued by the original company, even where the latter retains full control of the former.

b) Any acquisition or disposal of key operating assets that would effectively alter the company's corporate purpose.

c) Operations the effect of which is equivalent to the company's liquidation.

Complies Complies partially Explain

4. Detailed proposals of the resolutions to be adopted at the Shareholders' Meeting, including the information stated in Recommendation 28, should be made available at the same time as the publication of the call notice.

5. Separate votes should be taken at the Shareholders' Meeting on substantially independent items, so that shareholders can express their preferences in each case. This rule will apply in particular to:

- a) The appointment or ratification of Directors, with separate voting on each;
- b) Amendments to the Corporate Bylaws, with votes taken on all articles or groups of articles that are substantially independent.

See section: E.8

Complies

7. The Board should perform its duties with unity of purpose and independent judgment, treat all shareholders equally and be guided by the interests of the Company, understood to be maximizing the economic value of the Company on a sustained basis.

The Board also should ensure that the Company abides by the laws and regulations in its dealings with stakeholders; fulfils its obligations and agreements in good faith; respects the customs and good practices of the industries and territories where it does business; and upholds any additional social responsibility principles it has subscribed to voluntarily.

Complies

8. The core mission of the Board should be to approve the Company's strategy and authorize the organizational resources to implement it, and ensure that management meets the objectives set while pursuing the Company's interests and corporate purpose. As such, the plenary session of the Board should reserve the right to approve:

- a) The general policies and strategies of the Company, in particular:
 - i) The strategic or business plan, as well as annual management objectives and budgets.
 - ii) The investment and financing policy.
 - iii) Definition of the structure of the corporate group.
 - iv) The corporate governance policy.

- v) The corporate social responsibility policy.
- vi) The policy regarding compensation and evaluation of senior executives.
- vii) The risk control and management policy, as well as periodic monitoring of internal reporting and control systems.
- viii) The dividend and treasury stock policies and, in particular, their limits.

See sections: B.1.10, B.1.13, B.1.14 and D.3

b) The following decisions:

- i) On the proposal of the Company's Chief Executive, the appointment and removal of senior executives, and their indemnification clauses.

See section: B.1.14

- ii) Directors' compensation and, in the case of Executive Directors, the additional consideration for their executive functions and other contractual conditions that must be observed.

See section: B.1.14

- iii) The financial information that the Company must periodically disclose as a listed company.

- iv) Investments or operations considered strategic by virtue of their amount or special characteristics, unless their approval corresponds to the Shareholders' Meeting.

- v) The creation or acquisition of shares in special-purpose vehicles or entities resident in countries or territories that are considered tax havens, and any other transactions or operations of an analogous nature whose complexity could impair the transparency of the Group.

c) Transactions the Company enters into with Directors, significant shareholders, shareholders with Board representation or other persons related thereto ("related-party transactions").

However, Board authorization will not be required for related-party transactions that simultaneously meet the following three conditions:

1. They are governed by standard-form agreements applied on an across-the-board basis to a large number of clients.
2. They are made at prices or rates generally set by the person supplying the goods or services in question;
3. Their amount is no more than 1% of the company's annual revenues.

It is recommended that related-party transactions should only be approved on the basis of a favorable report from the Audit Committee or any other Committee to which this function has been entrusted, and that any Directors involved should not exercise or delegate their votes, and should withdraw from the meeting room while the Board deliberates and votes.

Ideally the powers attributed to the Board in this section should be deemed to be non-delegable with the exception of those mentioned in letters b) and c), which may be delegated to the Delegated Committee for reasons of urgency and later ratified by the plenary session of the Board.

See sections: C.1 and C.6

Complies

9. To operate effectively and encourage participation, the Board of Directors should ideally comprise no less than five and no more than fifteen members.

See section: B.1.1

Complies Explain

10. External Directors, both Nominee and Independent, should occupy an ample majority of Board positions, while the number of Executive Directors should be the minimum necessary, bearing in mind the complexity of the corporate group and the percentage holdings of Executive Directors.

See sections: A.2, A.3 and B.1.3

Complies Complies partially Explain

11. If any External Director cannot be deemed a Nominee or Independent Director, the Company should disclose this circumstance and the links that person maintains with the Company or its executives, or with its shareholders.

See section: B.1.3

Complies Complies partially Explain

Antonio Garamendi Lecanda has completed the maximum term of 12 years as an Independent Director of RED ELÉCTRICA. According to the provisions of Article 7.2 c) of the Board Regulations, the Unified Good Governance Code and international corporate governance best practices, this is the maximum period for which he may be treated as an Independent Director and, therefore, if a proposal is made for his reappointment at the next Annual Shareholders' Meeting, he will be classed the category of "other External Directors."

If the Annual Shareholders' Meeting approves the reappointment of Mr. Garamendi as a Company Director, he must immediately be replaced as Chairman of the Corporate Responsibility and Governance Committee, a position which must be occupied by an Independent Director, in accordance with the Corporate Bylaws and the Board Regulations.

12. Among External Directors, the ratio of Nominee Directors to Independent Directors should reflect the proportion between the capital represented on the Board by Nominee Directors and the remainder of the Company's capital.

This proportionality rule may be relaxed so that the weighting of Nominee Directors is greater than would strictly correspond to the total percentage of capital they represent:

1. In large cap companies where few or no shareholdings are legally deemed significant shareholdings, but there are shareholders whose shareholdings have a high absolute value.

2. In companies with numerous shareholders represented on the Board but not otherwise related.

The report should also disclose the reasons for the appointment of Nominee Directors proposed by shareholders with shareholdings of less than 5% of capital, and explain why formal requests for presence on the Board have not been honored from shareholders whose holdings are greater than or equal to those of others upon whose request Nominee Directors have been appointed.

As indicated in Recommendation no. 11, Antonio Garamendi Lecanda has completed the maximum term of 12 years as an Independent Director of RED ELÉCTRICA. According to the provisions of Article 7.2 c) of the Board Regulations, the Unified Good Governance Code and international corporate governance best practices, this is the maximum period for which he may be treated as an Independent Director and, therefore, if a proposal is made for his reappointment at the next Annual Shareholders' Meeting, he will be classed the category of "other External Directors."

If the Annual Shareholders' Meeting approves the reappointment of Mr. Garamendi as a Company Director, he must immediately be replaced as Chairman of the Corporate Responsibility and Governance Committee, a position which must be occupied by an Independent Director, in accordance with the Corporate Bylaws and the Board Regulations.

15. When female Directors are few or nonexistent, the Board should state the reasons why and the initiatives adopted to correct the situation; in particular, with respect to vacancies, the Appointments Committee should take steps to ensure that:

- a) Selection processes do not suffer from implicit bias preventing the selection of female Directors;
- b) The Company makes a conscious effort to include women with the target profile among the candidates for Board positions.

Thus any Director may request that a Board meeting be called and, if so requested in writing jointly by three Directors (regardless of their category), the Corporate Bylaws and the Board Regulations provide that the Board must meet. Accordingly, it may be concluded that Red Eléctrica's internal regulations not only fulfill the aim of the Unified Code, but also offer greater flexibility when calling Board meetings.

The process of evaluation of the Board and its Chairman is expressly assigned to the Corporate Responsibility and Governance Committee.

The Board Regulations attribute to the Chairman of the Corporate Responsibility and Governance Committee the function of communication and coordination between and among External and/or Independent Directors in the performance of their functions, and include the possibility of requesting the calling of a Board meeting or the inclusion of new items on the agenda at the request of any Director, as well as the coordination of the concerns of External Directors and management of the evaluation by the Board of its Chairman.

18. The Board Secretary should take special care to ensure that the Board's actions:

- a) Adhere to the spirit and letter of laws and their implementing regulations, including those approved by regulatory agencies;
- b) Comply with the Corporate Bylaws, the Shareholders' Meeting Regulations, the Board Regulations and other regulations at the Company;
- c) Are informed by the good governance recommendations of the Unified Code that the Company has subscribed to.

In order to safeguard the independence, impartiality and professionalism of the Secretary, his/her appointment and removal should be proposed by the Appointments Committee and approved by the plenary session of the Board and the relevant appointment and removal procedures should be stipulated in the Board Regulations.

31. The Board of Directors should not propose the removal of any Independent Director prior to completion of the term of office specified in the Corporate Bylaws for which the Director was appointed, except when the Board finds that there is just cause after a report from the Appointments Committee. In particular, just cause will be deemed to exist when a Director is in breach of the duties inherent in his/her position or is subject to any of the circumstances described in section III.5 (Definitions) of this Code.

The removal of Independent Directors may also be proposed when a tender offer, merger or similar corporate transaction produces changes in the capital structure of the Company, in order to meet the proportionality criterion set out in Recommendation 12.

Where a Director is indicted or a decision is rendered to bring him to trial for any of the crimes referred to in Article 124 of the Corporations Law, the Board should review the matter as soon as possible and, in light of the specific circumstances, decide whether or not it is appropriate for the Director to remain in office. The rules governing the composition and functioning of the Audit Committee and the Appointments and Compensation Committee(s) should be set forth in the Board Regulations, and include the following:

- a) The Board of Directors should appoint the members of such Committees based on the knowledge, aptitudes and experience of its Directors and the tasks of each Committee; discuss their proposals and reports; and the Committees must report to the Board, at its first plenary session following each Committee meeting, on their activities and answer for their work;
- b) These Committees should be comprised exclusively of External Directors and have a minimum of three members. The above is without prejudice to the attendance at meetings of Executive Directors or senior executives, at the express invitation of Committee members.
- c) Committees should be chaired by Independent Directors.
- d) They may engage external advisors, when they feel this is necessary for the performance of their functions.
- e) Minutes should be drawn up of the proceedings and a copy sent to all Board members.

See sections: B.2.1 and B.2.3

Complies Complies partially Explain

The only limitation on full compliance with the Recommendation is the fact that the Executive Director and Chairman of the Company is a member of the Corporate Responsibility and Governance Committee, by unanimous decision of the Board of Directors, which believes it is of interest for him to be a member, so that the Committee functions more effectively, without prejudice to his abstention or absence in all matters that may personally affect him or may lead to a possible conflict of interest.

The above circumstances, their parallel with the contents of Recommendations 56 and 58, which require the broad participation and collaboration of the Chief Executive with the Corporate Responsibility and Governance Committee; the content of Recommendation 45 attributing to the Committee the supervision and submission to the Board of proposals for improvement of the corporate governance rules, a task in which the Chairman

of the Board plays an important role; and finally the fact that the rest of Recommendation 44 is fully complied with, have led to the conclusion that the Company complies with the essence of the Recommendation.

The above reasons were stated to the CNMV in July 2008, in relation to the 2007 Annual Corporate Governance Report, and were reiterated in the Company's 2008, 2009 and 2010 Annual Corporate Governance Reports.

50. The Audit Committee's role should be:

 - b) To regularly review internal control and risk management systems, so that the principal risks are adequately identified, managed and disclosed.
 - c) To ensure the independence and efficacy of the internal audit function; propose the selection, appointment, reappointment and removal of the head of the internal audit function; propose the department's budget; receive regular information on its activities; and verify that senior management acts on the conclusions and recommendations of its reports.
 - d) To establish and supervise a mechanism whereby staff can report, confidentially and, if appropriate, anonymously, any potentially significant irregularities, in particular financial or accounting irregularities, they detect at the Company.
2. As regards the external auditor:
 - a) To make recommendations to the Board for the selection, appointment, reappointment and removal of the external auditor, and the terms and conditions of its engagement;
 - b) To receive regular information from the external auditor on the audit plan and the results of its implementation, and check that senior management is acting on its recommendations;
 - c) To ensure the independence of the external auditor, to which end:
 - i) The Company should disclose any change of auditor to the CNMV as a material event, accompanied by a statement of any disagreements with the outgoing auditor and the reasons for the same.
 - ii) The Committee should ensure that the Company and the auditor adhere to current regulations on the provision of non-audit services, the limits on concentration of the auditor's business and, in general, other requirements designed to safeguard the independence of the auditor;
 - iii) The Committee should investigate the issues giving rise to the resignation of any external auditor.

The Board of Directors considers it appropriate, as has been the case in the past, for the Audit Committee to supervise and control the process of selection, appointment and removal of the head of the internal audit function, and its action plans, supervising and approving the resources allocated thereto, including its budget.

Nevertheless, the Board of Directors unanimously believes that the powers to appoint and remove the head of the internal audit function and propose its budget should lie with the Company's senior management.

The Board of Directors considers that the power to supervise and control the process, more extensive than that of simply making proposals, strengthens and clarifies the content of the Recommendation itself, ensuring the suitability of the person responsible for the internal audit function and the control by

the Audit Committee of said suitability, at the same time respecting the customary channels for appointing the persons responsible for the various executive areas of the Company.

The above reasons were also stated to the CNMV in July 2008, in relation to the 2007 Annual Corporate Governance Report, and were reiterated in the Company's 2008, 2009 and 2010 Annual Corporate Governance Reports.

- a) The financial information that the Company must periodically disclose as a listed company. The Committee should ensure that interim statements are prepared using the same accounting principles as the annual statements and, to this end, may ask the external auditor to conduct a limited review.
- b) The creation or acquisition of shares in special-purpose vehicles or entities resident in countries or territories that are considered tax havens, and any other transactions or operations of an analogous nature whose complexity could impair the transparency of the Group.

55. The Appointments Committee should have the following functions in addition to those stated in earlier Recommendations:

- a) To evaluate the balance of skills, knowledge and experience on the Board, define the roles and capabilities required of the candidates to fill each vacancy, and decide the time and dedication necessary for them to properly perform their duties.
- b) To examine or organize, in appropriate form, the process for succession of the Chairman and Chief Executive, making recommendations to the Board so the handover proceeds in a planned and orderly manner.

(1) Amounts received by SEPI.

In addition, the Executive Director has allocated €56,000 to the retirement-linked group saving-life insurance policy against compensation outstanding from previous years.

The annual variable compensation of the Executive Director is established by the Corporate Responsibility and Governance Committee at the start of each year using quantifiable and pre-determined objective criteria. The targets are in line with the strategies and steps established in the Company's Strategic Plan and the Corporate Responsibility and Governance Committee is also responsible for assessing the level of achievement of the targets.

In 2009, an Executive Compensation Plan (2009-2013 "Plan Extraordinario 25^a aniversario") was established, including the Executive Director, linked to the 25th anniversary of the Company, as a management tool and an incentive to drive fulfillment of the five-year Strategic Plan. Compliance with the Plan will be assessed at the end of its term in 2014. Depending on the level of achievement of the targets set, the overall assessment for the five years may be up to 1.8 times the fixed annual compensation. As with the annual targets, the Plan takes into account quantifiable and pre-determined objective criteria which are in keeping with the medium and long-term vision of the Company's Strategic Plan, and the establishment and assessment of the targets falls to the Corporate Responsibility and Governance Committee. At December 31, 2011 the Company has recorded an accrual proportional to the period

elapsed under the assumption that the targets set in the Plan will be met in 2013; this accrual will not be recognized individually as compensation until compliance with the Plan in 2014 is assessed, or failing this, if prior to that date the relationship between the Company and the executives included in the program ends, for the causes envisaged in the program.

There are safeguard or golden parachute clauses in favor of the Executive Director to cover dismissal or changes in control. These clauses were proposed by the Appointments, Compensation and Corporate Governance Committee (now the Corporate Responsibility and Governance Committee) and approved by the Board of Directors. These clauses are in line with standard market practice and cover the termination of the employment relationship, providing for indemnification of one year's salary, unless the applicable legislation provides for a higher amount.

At December 31, 2011 and 2010 there were no loans, advances or guarantees established by the Company in favor of members of the Board of Directors reflected on the balance sheet. There were also no pension liabilities incurred vis-à-vis members of the Board of Directors at those dates.

◆ Senior Management:

In 2011, compensation and contributions to life insurance and pension plans for senior executives amounted to €966,000 and €57,000, respectively (€957,000 and €30,000, respectively, in 2010). In addition, these senior executives have allocated €34,000 to the retirement-linked group saving-life insurance policy against compensation outstanding from previous years.

There were no loans or advances to senior executives at December 31, 2011 or 2010.

There are safeguard or golden parachute clauses for dismissal in favor of two senior executives. These clauses are in line with standard market practice and cover the termination of the employment relationship, providing for indemnification of up to two years' salary, unless the applicable legislation provides for a higher amount. The agreements containing these clauses were approved by the Appointments, Compensation and Corporate Governance Committee and were duly notified to the Board of Directors.

In 2009, an Executive Compensation Plan (2009-2013 "*Plan Extraordinario 25º aniversario*") was established, linked to the 25th anniversary of the Company, as a management tool and an incentive to drive fulfillment of the five-year Strategic Plan. Compliance with the Plan, which includes the senior executives, will be assessed at the end of its term in 2014. Depending on the level of achievement of the targets set, the overall assessment for the five years may be up to 1.8 times the fixed annual compensation. As with the annual targets, this plan takes into account quantifiable and pre-determined objective criteria which are in keeping with the medium and long-term vision of the Company's Strategic Plan, and the establishment and assessment of the targets falls to the Corporate Responsibility and Governance Committee. At December 31, 2011 the Company has recorded an accrual proportional to the period elapsed under the assumption that the targets set in the Plan will be met in 2013; this accrual will not be recognized individually as compensation until compliance with the Plan in 2014 is assessed, or failing this, if prior to that date the relationship between the Company and the Executives included in the program ends, for the causes envisaged in the program.

For further information, please see the Annual Directors' Compensation Report for 2011 which will be available shortly.

Director attendance at meetings

There were seven (7) absences from the eleven (11) Board meetings held in 2011, representing an attendance rate of 94%.

Company Chairman Succession Plan

At a meeting held on October 27, 2011 the Board of Directors approved the Succession Plan for the Company Chairman, following an increasingly common corporate governance practice worldwide, consisting in preparation and approval by listed companies of succession plans for their CEO or most senior executive, to minimize the impact of the handover on the organization, aiming to determine a model profile for the candidates and to ensure continuity in the corporate business, reducing insofar as possible the possible risks or negative effects of the appointment of a new chairman, until he or she is fully integrated into the post. The Company Chairman Succession Plan was approved on the basis of the special conditions present in Red Eléctrica's chief executive, which position is held by the Chairman of the

Board of Directors, as established in Article 25 of the Corporate Bylaws. The Plan establishes a succession process split into several stages, attributing responsibilities to the different bodies concerned. All the above is to create an environment in which the appointment of a new chairman is made in an orderly and efficient manner that does not affect the Company's normal operations.

Relations with institutional investors

Relations between the Company and institutional investors are general in nature and no specific or special relationships are held with any of them.

The Company regularly organizes road shows at principal financial centers in Spain and abroad where there is a high concentration of institutional investors, to inform them of its activities and its business performance, in an attempt to forge closer ties with this group of investors.

In light of the high percentage of foreign institutional shareholders (close to 70% in 2011), and as in previous years, the Company has conducted visits to investors and proxy advisors to explain its corporate governance practices and policies to them directly, aiming to establish appropriate mechanisms for the regular exchange of information with Spanish and foreign institutional investors and with the main proxy advisors, with a view to continuing to adapt to the most advanced international corporate governance standards.

Under no circumstances does the Company disclose to institutional shareholders any information that might place them in a privileged or advantageous situation vis-à-vis the other shareholders, in accordance with the provisions of the Board Regulations.

Annex 2

ADDITIONAL INFORMATION FOR ARTICLE 61 BIS OF SECURITIES MARKET LAW 24/1988, OF JULY 28, 1988

I. Information about securities that are not traded on an official market in the EU, stating, whenever appropriate, the different classes of shares and the rights and obligations pertaining to each class of shares and the percentage of the capital it represents, as well as the percentage of capital represented by the company's treasury stock and any major changes therein (Art. 61 bis 4, a, 3 LMV).

None of the Company's shares are traded on an official market in the EU.

The percentage of the capital accounted for by the treasury stock held by the company is 0.493% and major changes in this figure are set out in sections A.8 and A.9 of the Annual Corporate Governance Report.

II. Any restriction on the transferability of securities and any restriction on voting rights (Article 61 bis 4, b LMV).

The transfer of the shares representing the capital of Red Eléctrica Corporación, S.A. is free and is not subject to any restriction.

As for all listed entities, the acquisition of certain significant holdings must be notified to the issuer and to the CNMV, as provided in Article 53 of Securities Market Law 24/1988 of July 28, 1988, in Royal Decree 1362/2007 of October 19, 2007, and in CNMV Circular 2/2007 of December 19, 2007, which establish the first notification threshold at 3% of capital or voting rights.

Each share gives the right to one vote and all shareholders are entitled to attend Shareholders' Meetings, without any required minimum number of shares, as was the case until the Special Shareholders' Meeting of July 17, 2003, which removed the bylaw requirement to hold at least 50 shares in order to attend Shareholders' Meetings.

Various amendments to Electricity Industry Law 54/1997 of November 27, 1997, affecting restrictions on voting rights were introduced with the entry into force of Law 17/2007 of July 4, 2007, amending Electricity Industry Law 54/1997 to adapt it to the provisions of Directive 2003/54/EC of the European Parliament and of the Council of June 26, 2003 concerning common rules for the internal market in electricity, a Community provision that has been superseded by Directive 2009/72/EC of July 13, 2009, which proclaims the mandatory independence of transmission companies and operators of European electricity systems.

Specifically, Subprovision two of Additional Provision Three of Law 17/2007 established new maximum limits on the exercise of voting rights, in order to guarantee the independence of a company engaging in regulated activities in the electricity industry which, pursuant to Electricity Industry Law 54/1997 of November 27, 1997, constitute an essential service.

Thus, any individual or legal entity may hold shares in the Company, provided that the sum of their direct and indirect interests in the Company's capital does not exceed five percent of capital and they do not exercise more than three percent of voting rights. These shares may not be pooled for any purpose whatsoever.

Parties that pursue activities in the electricity industry, and those individuals or legal entities that directly or indirectly hold more than five percent of their capital, may not exercise more than one percent of voting rights at the company responsible for operation of the system.

The special regime for Sociedad Estatal de Participaciones Industriales (SEPI) remains unchanged, whereby it must hold at least ten percent (10%) of capital in all cases.

There are no other additional bylaw restrictions differing from purely legal restrictions.

In turn, the National Energy Commission is authorized to take legal action to enforce the aforementioned statutory limits. Breach of the established shareholding limits constitutes a very serious infringement under the Electricity Industry Law and the individuals or legal entities that own the securities or to whom the excess shareholding is attributable will be liable.

The legal regime established by Directive 2009/72/EC, of July 13, 2009, which proclaims the mandatory independence of transmission companies and operators of European electricity systems has endorsed the legal limitations on shareholders established in Law 17/2007.

III. Information about the rules applying to the altering of the Corporate Bylaws (Article 61 bis 4,a,4 LMV).

The amendment of the Corporate Bylaws introduces no new features other than the corporate legal system provided for in Article 290 of the Corporate Enterprise Law and which requires approval by the Shareholders' Meeting, with the majorities provided for in Article 194 of said Law. The competencies of the Shareholders' Meeting set out in Article 11 c) of the Corporate Bylaws and Article 3 c) of the Shareholders' Meeting Regulations, expressly include the amendment of the Corporate Bylaws, without stipulating any majority other than those set out in the Law.

IV. Information about the major agreements entered into by the Company that come into force, are changed or terminate in the event that the control of the Company changes as a result of a tender offer, and its effects, except when disclosing them would seriously damage the company's interests. This exception shall not apply when the company is legally required to disclose this information to the public (Article 61 bis 4, c, 4 LMV).

The Company has not entered into any agreements that come into force, are changed or terminate in the event of a change in control of the Company as a result of a tender offer for the shares.

V. Information about agreements between the company and its managers, executives or employees which provide for indemnification in the event of their resignation or unjustified dismissal or in the event that the employment relationship ends as a result of a tender offer (Article 61 bis 4, c, 5 LMV).

There are safeguard or golden parachute clauses in favor of the Executive Director to cover dismissal or changes in control. These clauses were proposed by the Appointments, Compensation and Corporate Governance Committee (now called the Corporate Responsibility and Governance Committee) and approved by the Board of Directors. These clauses are in line with standard market practices and cover the termination of the employment relationship, providing for indemnification of one year's salary, unless the applicable legislation provides for a higher amount.

There are safeguard or golden parachute clauses in favor of two Company executives. These clauses are in line with standard market practices and cover the termination of the employment relationship, providing for indemnification of up to two years' salary, unless the applicable legislation provides for a higher amount. The contracts containing these clauses were approved by the Appointments, Compensation and Corporate Governance Committee and they were duly notified to the Board of Directors.

VI. Information about the powers of the members of the Board of Directors and, in particular, those relating to the possibility of issuing or buying back shares (Article 61 bis 4, c, 3 LMV).

The new Corporate Enterprises Law (LSC) has consolidated the legal regime applicable to the treasury stock of companies established in Law 3/2009, of April 3, 2009, on Structural Modifications to Commercial Companies, without introducing any material amendments to the regime.

In light of the foregoing, and although the authorization approved by the Shareholders' Meeting on May 20, 2010, in relation to the award of treasury shares, as compensation, to employees of the Company and of the RED ELÉCTRICA Group, was still in force, pursuant to the law, for another four years, it was submitted for approval by the Shareholders' Meeting held on April 13, 2011. It was intended that the shareholders renew the authorization granted last year, in accordance with the most recent corporate governance practices. As a separate item on the agenda, it was also intended to establish a Compensation Plan for members of Senior Management and the Executive Directors of Red Eléctrica Corporación, S.A., which may be extended to companies in its Consolidated Group, allowing part of their compensation to be awarded in the form of Company shares, on the same terms as last year. This Plan requires a resolution with certain legally established conditions.

Accordingly, the Shareholders' Meeting of the Company held on April 13, 2011, gave an authorization to the Board of Directors, pursuant to the provisions of Article 146 and related provisions of the Corporate Enterprises Law and other applicable legislation, for the derivative acquisition of treasury stock in Red Eléctrica Corporación, S.A. by the Company itself and by companies of the Red Eléctrica Group directly or indirectly and insofar as the Board of Directors considers that the circumstances so dictate, subject to the following conditions:

- ◆ The maximum number of shares to be acquired shall not exceed the legal limit. The maximum number of shares to be acquired must not exceed the established legal limit, provided that the other applicable legal requirements can also be fulfilled.

- ◆ Acquisitions cannot be made for a consideration higher than the market value of the shares at the time of acquisition, or for a consideration lower than 50% of the market price at that time.
- ◆ The methods of acquisition may consist of sale and purchase, swap or any other type of transaction for consideration or for no consideration, as the circumstances so dictate. In the case of acquisition for no consideration, pursuant to the provisions of Article 146.4 of the Corporate Enterprises Law, the shares acquired may be partially paid-in.
- ◆ Pursuant to the provisions of Article 146.1 b) of the Corporate Enterprises Law, the acquisition, including any shares previously acquired by the Company and held as treasury stock, may not have the effect of leaving net worth below the amount of capital stock plus legal reserves or restricted reserves pursuant to the bylaws.

For these purposes, 'net worth' will be considered the amount classed as such pursuant to the criteria used to prepare the financial statements, reduced by the amount of income attributed directly to same and increased by the amount of uncalled subscribed capital stock, as well as by the nominal amount and the subscribed additional paid-in capital recorded for accounting purposes as shareholders' equity.

In accordance with paragraph three of Article 146.1 a) of the Corporate Enterprises Law, the Board of Directors of the Company may use some or all of the treasury stock acquired under this authorization and the treasury stock already owned by the Company on the date of approval of the resolution to implement compensation programs consisting of the direct award of shares to employees and Executive Directors of the Company and of the companies belonging to the RED ELÉCTRICA Group.

For all of the foregoing, an authorization as broad as may be necessary is granted to the Board of Directors to request all such authorizations and adopt all such resolutions as may be necessary or appropriate for compliance with the legislation in force, and the implementation and successful outcome of this resolution.

The term of this authorization will be five (5) years as from the date of this Shareholders' Meeting.

The Shareholders' Meeting expressly revoked and, therefore, rendered ineffective the authorization for the derivative acquisition of treasury stock given to the Board of Directors by the Shareholders' Meeting held on May 20, 2010.

The Shareholders' Meeting held on May 20, 2010, delegated to the Board of Directors, for a period of five (5) years, the power to increase capital, at any time, on one or more occasions, up to a maximum amount of one hundred and thirty-five million, two hundred and seventy thousand euros (€135,270,000), equal to half of the current capital, in the amount and at the issue price decided on in each case by the Board of Directors, with the power to exclude, in whole or in part, the preemptive subscription right and with express authorization to redraft, as the case may be, Article 5 of the Corporate Bylaws and to request, as the case may be, the admission, continued listing and/or delisting of the shares on organized secondary markets.

The Shareholders' Meeting held on May 20, 2010, also delegated to the Board of Directors, for a period of five (5) years, and with a combined limit of five thousand million euros (€5,000,000,000), powers to issue, on one or more occasions, directly or through companies of the Red Eléctrica Group, debentures, bonds and other fixed-income instruments or debt instruments of an analogous nature, both nonconvertible and convertible or exchangeable for shares of the Company, of other companies of the Red Eléctrica Group or of other companies not related to same, including, without limitation, promissory notes,

securitization bonds, preferred participations and warrants giving entitlement to the delivery of shares of the Company or of other companies of the Red Eléctrica Group, whether newly-issued or in circulation, with the express power to exclude, in whole or in part, the pre-emptive subscription right; authorization to enable the Company to secure new issues of fixed-income securities (including convertible or exchangeable securities) made by companies of the Red Eléctrica Group; authorization to redraft, as the case may be, Article 5 of the Corporate Bylaws and to request, as the case may be, the admission, continued listing and/or delisting of the shares on organized secondary markets.

Both the Annual Shareholders' Meeting held on April 13, 2011 and the Shareholders' Meeting held on May 20, 2010, adopted a resolution to delegate powers to the members of the Board of Directors to implement all of the Resolutions adopted by the Annual Shareholders' Meeting. The Resolution states: *"Without prejudice to the authorizations expressly conferred by the Shareholders' Meeting on the Board of Directors, the broadest powers are delegated to the Chairman and to each member of the Company's Board of Directors, as well as the Secretary and Deputy Secretary of the Board, so that they may exercise them, individually, with a view to the implementation, execution and registration of each and every one of the resolutions adopted by this Shareholders' Meeting, including the signature of the corresponding contracts and documents, with the clauses and conditions they deem appropriate, and interpret, remedy and complete the aforementioned resolutions and have them notarized, according to their effectiveness and the comments of any body or authority, in particular the oral or written comments of the Mercantile Registrar, performing all such steps as may be necessary or appropriate to ensure their successful outcome and, in particular, to ensure the registration at the Mercantile Registry of the registrable resolutions"*. Furthermore, Article 25 of the Corporate Bylaws stipulates that the Chairman of the Board of Directors is the Chairman of the Company and of all its governing and administrative bodies, and he has the job of ensuring that the resolutions of the Board of Directors, which he represents on a permanent basis, are implemented. The power to represent the Company, in and out of court, is held by the Chairman of the Company, in addition to the Board of Directors. The Chairman of the Company is the senior manager of all the Company's services and signs for, administers and represents the Company in all matters, in and out of court, and is authorized to adopt, for reasons of urgency, the measures he deems appropriate in the interests of the Company, but must immediately report on such measures to the Board of Directors.

In this connection, the Board meeting held on June 25, 2009 unanimously resolved, as proposed by the Corporate Responsibility and Governance Committee: *"To delegate to the Chairman of the Board of Directors of RED ELÉCTRICA CORPORACIÓN, S.A., Mr. Luis María Atienza Serna, pursuant to the provisions of Article 141 of the current Corporations Law (currently regulated in Article 249 of the Corporate Enterprises Law), Article 149 of the Mercantile Registry Regulations, Article 22 of the Corporate Bylaws and Article 5 of the Board Regulations, all powers of the Board of Directors that may be delegated by law and pursuant to the Bylaws"*.

In addition to the powers that have been expressly delegated to him, the Chairman is authorized by the Corporate Bylaws to adopt, for reasons of urgency, the measures he deems appropriate in the interests of the Company, immediately informing the Board of such measures and reporting regularly to the Board, at its ordinary meetings, on the corporate management of the different areas of the Company, requesting, as the case may be, approval of the resolutions submitted. The creation, in 1999, of the Audit Committee and the Appointments, Compensation and Corporate Governance Committee (now called the Corporate Responsibility and Governance Committee), entirely composed of members of the Board of Directors specializing in matters within their sphere of responsibility, specific control exercised over the basic and strategic responsibilities of the Company, which in no event will be performed exclusively by the Chairman.

Notwithstanding the powers delegated to the Chairman, in practice, it is the Board of Directors meeting in plenary session that adopts the strategic and significant decisions for the Company.

VII. Description of the major features of the internal control and risk management systems in connection with the process of financial reporting (Article 61 bis 4, h LMV).

The Red Eléctrica Group (for the purposes of this section REE) has, as part of its internal control systems, a System for Internal Control of Financial Reporting (hereinafter referred to as ICFR), for the purposes of meeting the requirements imposed with regard to the reliability and transparency of the process of generating financial information.

The ICFR in place at REE involves the entire Organization by implementing and monitoring on a regular basis the functioning of different controls in the area of the generation of financial information.

The ICFR currently in force at REE arose as a result of a voluntary project for improvement embarked on by the Company. The ICFR resulting from the project, with updated mechanisms, has been reviewed by an independent third party since 2008.

REE's ICFR is in line with the standard legal references in the area of internal control (including those relating to the COSO framework).

In addition to the above, REE has followed the recommendations included in the "Report on the System for Internal Control of Financial Reporting" drawn up by the Internal Control Working Group on financial reporting at the financial institutions set up by the National Securities Market Commission (CNMV), which uses the COSO framework as a benchmark, and which defines a set of principles and good practices which are grouped into 5 components and detailed in 16 indicators.

The basic structure of REE's ICFR is formally documented in the "REE ICFR Manual". The main elements characterizing the ICFR are as set out below:

- ◆ General controls: transversal controls throughout the entire organization which, as applicable, have a particular use at the level of the REE ICFR. Connected with these general controls, there are the "indicator assessment items" (IEIs) which provide a broader picture of the area of overall control in the ICFR.
- ◆ Controls designed in the processes, deployed in:
 - Areas affected by the ICFR:
 - ◆ Acquisitions.
 - ◆ Fixed Assets.
 - ◆ Inventories.
 - ◆ Revenues.
 - ◆ Payroll and Staff.
 - ◆ Financial Management.
 - ◆ Support Services.
 - ◆ Financial Reporting.

- 26 formally documented cycles.
- 45 formally documented sub-cycles.

Every one of these areas, cycles and sub-cycles have been formally documented in the Corporate Modeler computer tool.

Set out below is a more in-depth description of the major attributes characterizing the REE ICFR.

Mechanisms that make up the control and risk management systems in connection with the financial reporting process (ICFR) of the entity.

1. THE ENTITY'S CONTROL ENVIRONMENT

1.1 Bodies and/or functions responsible for: (i) the existence and upkeep of an adequate, effective ICFR; (ii) its implementation and (iii) its supervision.

REE's control environment has been designed on the basis of various different elements that make for an internal control atmosphere that favors the generation of full, reliable and appropriate financial information, anticipating, as necessary, the possible existence of irregularities and/or errors in order that they may be remedied. There are therefore specific Departments, Corporate Bodies and organizational units that develop, maintain and supervise everything connected with the model in the area of the entire process of preparing financial information.

Specifically, the defined functions of the Board of Directors (according to Article 5.6 vii) of the REE Board Regulations) include: the «*approval of the policy for control and management of the principal risks of the Company and of the Group, and knowledge and periodic monitoring of internal control, prevention and reporting systems. The control and risk management policy shall identify at least the following: the different kinds of risk (operating, technological, financial, legal, reputational, etc.) the Company and the Group are exposed to, including contingent liabilities and other off-balance-sheet risks among the financial or economic risks. The determination of the risk level the Company deems to be acceptable. The measures envisaged to mitigate the impact of the identified risks, should they materialize. The internal reporting and control systems to be used to control and manage the above risks, including contingent liabilities and off-balance-sheet risks*».

In line with what has been described in section 1.2., there are different organizational levels at REE that are in charge of maintaining, implementing and supervising the ICFR.

In this regard, of note are the steps taken in the area of the Directorate-General of Administration and Finance as the part of senior management responsible for designing, implementing and operating the ICFR and ensuring that it is efficient and up-to-date, and, on the other hand, by the Internal Audit Function of the Audit Committee which, by way of the annual action plan, helps to assess the efficiency of the ICFR and periodically reports any weaknesses detected.

Finally, the different organizational units of the Group are jointly responsible for the controls defined for their areas of responsibility.

1.2 List of existing items relating to the financial reporting process.

Departments and/or mechanisms in charge of: (i) designing and reviewing the organizational structure; (ii) clearly defining the lines of responsibility and authority, with a suitable distribution of tasks and duties and (iii) that there are sufficient procedures for it to be properly disclosed throughout the company, in particular, in connection with the financial reporting process.

REE's Human Resources Department has the job of defining the basic structure of the organization, defining the different levels of authority and the consequent levels of responsibility. All of this aims to maintain a design structure, which is implemented, reviewed and updated constantly.

In addition, the Directorate-General of Administration and Finance, the Human Resources Department, the Corporate Governance Department, and the Office of the Secretary to the Board of Directors take an active part in helping to draw up other benchmark internal documents, such as the «Revised Text of the Corporate Bylaws», the «Internal Code of Conduct on the Securities Markets», the «Corporate Responsibility Manual» and the "Code of Ethics and Corporate Values" which, among other aspects, further define the general framework of the organizational structure, at the level of duties and of responsibilities; as a complement to these benchmarks for internal rules, the ICFR Action Guide attributes the special characteristics that may be required in the area of the System for Internal Control of Financial Reporting, including the functions of maintaining, updating and supervising the ICFR at each of the different levels of responsibility that have been described, emphasizing that the Directorate-General of Administration and Finance has delegated part of its tasks to the Economic Department and to the Accounting Information and Administration Department.

Moreover, additional rules and regulations have been defined that are binding at the level of the main corporate bodies, and at the level of senior management, together with compulsory procedures at the different stages that are performed throughout the tasks relating to preparing, reviewing and approving the closing of the Financial Statements of the companies that belong to REE.

This entire structure is aimed at ensuring, inter alia, that the organizational structure set up provides a sound model in the ICFR environment.

Code of conduct, approving body, degree of disclosure and instruction, principles and values included (stating whether there are any specific mentions of the recording of operations and preparation of financial information), the body tasked with analyzing any breaches and proposing corrective measures and penalties.

An appropriate framework of conduct, which sets specific values and guidelines for action, reinforces the bases in order to achieve the objective of reliable and transparent financial information.

In this regard, at REE, there are elements that refer to the «Internal Rules of Conduct in the Securities Markets», «Code of Ethics and Corporate Values» and «Corporate Responsibility Policies of Red Eléctrica de España S.A.U.», which set the ethical values and principles of the Company as regards compliance with law, integrity, responsibility and transparency, use of data and of the information systems, among others. With the aim of achieving the highest level of rigor among REE employees, the Company has implemented a system for detecting and handling breaches and reports of breach of the code of ethics that is completely anonymous, with a view to informing senior management of any improper practices, among other aspects, connected with the processes for preparing financial information. REE ensures that any reports made remain entirely anonymous.

The «Code of Ethics and Corporate Values» is approved by REE's Board of Directors and is incumbent upon everyone at REE in the exercise of their functions and responsibilities in all professional areas in which they represent the Company, this being understood to include the employees, executives and directors. These individuals receive a copy of the «Code of Ethics and Corporate Values», together with appropriate training, either by attending courses and/or distance training, which is also permanently available in the internal rules and on the corporate website.

The «Code of Ethics and Corporate Values» is reviewed on a regular basis in order to bring its requirements into line with the needs of the Company and its relationship with the environment and with its stakeholders.

The «Code of Ethics and Corporate Values» sets out the following aspects relating to economic and financial information:

Chapter I Description of the values, including the following:

- ◆ *«Visible commitment to society, indicating that: the companies in the Group shall engage in actions and projects that reduce the problems and needs of society in a transparent way, so that the development and economic growth of the business is in harmony with that of society.*
- ◆ *Pride of belonging: involvement in the business project, assuming the vision, strategies and policies of each company in the Group, loyalty, trust in the management carried on and a responsible attitude involved in protecting the company's interests, strengthens its value and conveys an image of a united, firm, consolidated business.*
- ◆ *Focus on constant improvement: the commitment to excellence in management is supported by efficient systems and processes, systematically seeking out improvements, identifying and applying best practices, internally analyzing the results obtained and studying the position and development of the company with regard to the industry and the markets. The integrated, prioritized management of these activities is the main channel for ensuring the permanence and growth of the companies in the Group in the industries in which they are operate. The competencies and capacities of the companies in the Group are key factors that need to be developed, both by the directors and executives of the Group and by its workers (training, detection of best practices and technological advances).*
- ◆ *Quality and service to stakeholders: stakeholders are groups or entities that are or may be affected by the services or activities of the business and others whose opinions or decisions affect the economic results or the reputation of the companies in the Group. Product development and presentation of the services of the company should be aimed at achieving satisfaction among stakeholders. This factor is the main platform for achieving excellent results and for the positive development of the Group in the short, medium and long term».*

Channel for reporting financial and accounting irregularities to the Audit Committee, in addition to any breach of the code of conduct and any irregular activities at the organization, stating, as applicable, if it concerns a confidential matter.

In this regard, Chapter IV of the "Code of Ethics and Corporate Values" establishes: System for detecting and handling breaches and reports of breach of the code of ethics, setting out in detail the procedure to be followed in order to make any kind of notification under the following premises:

«The system for receiving and handling any breaches and reports of breach of the Code of Ethics shall be administered by the Ethics Manager, in collaboration with the Chairman and the chairmen of the Audit Committee and Appointment and Compensation Committee. This individual shall be appointed by the Chairman of the Company and shall act independently and report to the Management Committee at the end of each financial year in the manner and as often as is stipulated in the management process.

Any employee of the Group or any stakeholder may report any alleged breaches of the Code of ethics that he or she detects at any of the companies in the Group or by any employee.

Reports shall preferably be sent by e-mail. In the Corporate Responsibility section of the website of each company there will be a channel that may be used to send reports to the Ethics Manager electronically, without the company knowing.

The Ethics Manager will analyze the information submitted, request the relevant evidence and, whenever appropriate, submit dossiers with all the information he possesses to the Chairman. If the report concerns any member of the Management Committee or of the Board of Directors, it shall be submitted to the chairman of the Audit Committee or, as the case may be, to the chairman of the Appointments and Compensation Committee.

In order for a report to be received and accepted as valid, the following elements are required:

- Full name of the reporting party with identity number or corresponding identification code.*
- Arguments or true and precise evidence to support the report.*
- Person or group reported (including the business as a whole).*

The system shall ensure that there are no reprisals and that confidentiality is assured in all stages. The Ethics Manager shall sign a confidentiality agreement which, should it be breached, may lead to claims for damages as deemed appropriate, and shall be answerable to the relevant judicial bodies.

However, reports that do not include the identity of the reporting party may also be assessed and handled if the evidence submitted and the subsequent investigation proves that there has been an actual breach».

Training and regular refresher programs for the staff involved in preparing and reviewing the financial information, and in the assessment of the ICFR, which cover at least, accounting policies, auditing, internal control and risk management.

In this regard, the Human Resources Department manages and plans all matters concerning programs and other support items for all REE staff and, in particular, concerning items that are connected with specific training in accounting subjects, internal control and risk management, which are organized for staff in the Accounting and Administration, Internal Control and Internal Audit units, as required.

In the first instance, the different training programs are coordinated with the units that request them, and are then proposed and subsequently approved to be carried out in the current year.

Ongoing checks are carried out, at both department and employee level, assessing the number of training hours accumulated throughout the year.

Among the subjects taught to staff, the following training programs are particularly noteworthy: «New National Chart of Accounts», «International Accounting Standards», «Analysis of Financial Statements», «Systems for internal control over financial reporting», etc.

2. Assessment of risks of the financial information

Major features of the process for identifying risks, including error or fraud.

The risk identification process is established as one of the fundamental cores underlying the analysis of the risks associated with the process for preparing financial information. Resting on this core are the «Integrated Risk Management Group Policies» which serve as a reference point in this connection, since they set out the guiding principles by which the Company may effectively deal with uncertainty, its associated risks and opportunities, thereby improving the ability to generate value and facilitating the achievement of the Organization's goals, such as the reliability of the financial information.

In this connection, «*The purpose of the REE Risk Policy, approved by the Board of Directors on July 24, 2008, is to establish principles and guidelines to ensure the systematic identification, analysis, assessment, management and control of material risks that may affect REE's objectives and activities, applying uniform criteria, within the established risk limits*».

Material risks of REE are those that may significantly affect the overall objectives of REE, related to:

- ◆ Sustained creation of value over time. Sustained profit growth, which must allow appropriate returns for investors and enable the company to implement its strategy.
- ◆ The continuity and quality of the energy supply in the electricity systems. The achievement of this objective involves the management by the System Operator and is dependent on the reliability and availability of the transmission network.
- ◆ The construction of the electricity transmission infrastructure network necessary to meet future needs. Red Eléctrica, as the sole transmission company, must design, fulfill the formalities for and construct the facilities specified by energy planning. This overall objective must be achieved on a cost-effective basis. The compatibility of the above objectives with social and environmental concerns.

The most significant risks to which the Group is exposed, and which form part of the risk control system, are:

- ◆ **Regulatory**, since the principal business activities of the Group are subject to regulation.
- ◆ **Operational**, basically arising from its assigned activities within the electricity system and the requirement to care for and protect the natural environment.
- ◆ **Market**, since most revenues, as well as certain expenses, may be influenced by variables such as inflation and interest rates.
- ◆ **Business and Credit (or counterparty)**, albeit to a lesser extent due to the lesser weight of the subsidiaries in the overall Group and the existing regulation regarding invoicing and collection for transmission and operation activities.

From an analysis of these risks, different elements of control are defined under the ICFR with a view to properly covering the objectives of transparency and reliability, free of fraudulent information, which must govern the process of preparing the financial information. These elements of control aim to provide sufficient coverage, as far as design and operations are concerned, for the following specific risks associated with the ICFR:

- ◆ **Risk of completeness**: to ensure that no transactions go unrecorded.
- ◆ **Risk of validity**: the transactions carried out are valid.
- ◆ **Risk of recording**: incorrect recording of transactions.
- ◆ **Risk of cut-off**: not all transactions are recorded in the period in which they accrue for accounting purposes.

- ◆ **Risk of valuation:** the transactions are incorrectly valued.
- ◆ **Risk of presentation:** transactions are presented in a way that might lead to confusion, or include insufficient items of information for compliance with applicable reporting requirements.

The Board of Directors is, via the Audit Committee, the body that ultimately has the duty of «*periodically supervising the internal control and risk management systems, so that the principal risks are adequately identified, managed and disclosed*» as stipulated in the Board Regulations.

3. Control activities

REE has a wide range of specific **Control activities** that are designed to reduce any risks of error or irregularity that underlie the process of preparing the financial information at every level.

Procedures for reviewing and authorizing financial information and description of the ICFR, to be published on the securities markets, stating the persons responsible, and documents that describe the flows of activities and controls (including those relating to the risk of fraud) for the different types of transactions that may have a material effect on the financial statements, including the procedure for the accounting close and the specific review of significant opinions, estimates, assessments and forecasts.

The Board of Directors delegates to the Audit Committee the functions «*To approve the Company's internal control procedures in the areas of expenditure and investment, making the appropriate amendments, as the case may be*». To supervise the internal audit function, which will ensure the sound functioning of the internal reporting and control systems and must address requests for information from the Audit Committee in the performance of its functions.

Control activities are a key element in the setting up of an efficient ICFR, which must undoubtedly be accompanied by a suitable design and operating procedures.

In this regard, the model ICFR sets up a series of critical control targets, the achievement of which, without exception, must allow it to achieve reliability and transparency in the process of drawing up the financial information. Achieving this is intrinsically connected with ensuring that the Control activities so defined are efficient in all their terms, throughout the performance of these activities in every one of the processes.

In this context, the control structure defined specifically in the area of the Control activities of the ICFR determines three scales of controls:

- ◆ Controls or element for assessing the indicators set by the CNMV.
- ◆ General controls.
- ◆ Process controls.

The **Controls or element for assessing the indicators set by the CNMV and the General Controls** represent the basis which underlies the model ICFR. They are transversal controls that directly affect the organizational and processes structure of REE. At 2011 year-end, there were 36 controls or elements for assessing the indicators set by the CNMV operating in the area of the ICFR and 19 general controls in the area of the ICFR. Responsibility for these controls lies with Management, detailed as follows:

- ◆ Directorate-General of Administration and Finance, through the Economic Department.
- ◆ Office of the Secretary of the Board of Directors.
- ◆ Regulation Department (Internal Audit).
- ◆ Human Resources Department.

The significance acquired by the reporting systems in the area of control of the ICFR is reflected by the level of management involved.

The **process controls** have been integrated in each of the main cycles and sub-cycles that make up the processes of the REE ICFR, ensuring that REE's financial information is reliable and transparent, as well as being mitigating factors associated with the risks in the processes for preparing the financial information referred to above. These control activities have been deployed in the ICFR throughout the different areas of the model (cycles and sub-cycles).

On the basis of their characteristic features, these process controls may be classified:

- ◆ According to their nature:
 - **Preventive:** to prevent the materialization of financial risks.
 - **Detective:** to identify errors after they have occurred.
 - **Corrective:** to rectify errors after they have occurred.
 - **Executive (Policy):** controls supported by policies or procedures/instructions of the company; they are usually associated with signature and formal approval requirements.
- ◆ Depending on the level of automation:
 - **Manual:** controls carried out directly by individuals.
 - **Semi-automatic:** controls carried out by individuals and validated by «IT means», or vice versa.
 - **Automatic:** «IT-based» controls.

Major transactions that attempt to ensure reliability and transparency in the process for drawing up the financial information include, in particular:

- ◆ Reviewing the processes for estimates and provisions (at the level of income and expense).
- ◆ Reviewing impairments associated with the assets recorded (essentially referring to assets).
- ◆ Reviewing the bringing of assets into operation and the associated processes for setting values (capitalized items, monitoring administrative approvals, technical conditions for bringing into service, etc.).
- ◆ Reviewing by using specific, compulsory procedures and/or instructions for:
 - Manual recording and/or accounting entries.
 - One-off operations (assessment at the level of senior management of any economic and financial, corporate and legal implications that might arise from such operations).
 - Closing the Financial Statements, drawing up the individual and consolidated Financial Statements.

The internal rules that govern these points are set out in: (i) the «Accounting Policies Manual» (which sets out the accounting policies to be followed at REE when recording accounting entries in the information system, and for drawing up the Financial Statements, for the purpose of ensuring a true and fair view of net worth, financial situation, results of the operations, changes in net equity and cash flows) and (ii) the «Procedures for drawing up and closing the Financial Statements and the individual and consolidated Financial Statements» which states that *«the process for closing the financial statements takes place twice a year (at year-end and half-way through the year when interim half-yearly information is prepared) and which has the purpose of obtaining financial statements that reflect the company's economic situation. In this process all the companies in the group that have to draw up their own financial statements in accordance with the local rules in force in their own countries are affected».*

- Drawing up and publishing the financial information (including aspects relating to the preparation and approval of the Annual Corporate Governance Report, Financial Statements, Annual Report, notifications to the National Securities Exchange Commission, official notifications, etc.). The main internal rules that govern these aspects are set out in: (i) the «Procedure for regular public reporting to regulatory bodies of the securities market», (ii) the «Procedure for drawing up and closing the Financial Statements and individual and consolidated Financial Statements». At this specific level of closure of information and, as applicable, subsequent publication, the Investor Relations Department, the Economic and Financial Department, the General Secretariat, the Board of Directors and Chairman, play an essential role.

Internal control policies and procedures for information systems (inter alia, for secure access, exchange control, system operation, continuity of operations and separation of functions) that support the major processes of the company in connection with the drawing up and publishing of the financial information.

REE's corporate information systems play a major role in the business cycles, sustaining the systems and applications used for preparing financial information.

In this regard, elements such as the General Computer Controls (GCCs) provide a framework for control aimed at providing a reasonable level of security for the information systems that support financial reporting, and guaranteeing, as far as possible, the confidentiality, availability and integrity of the information.

The objectives established in the framework of the General Computer Controls support compliance with the control targets relating to data processing through IT means, by defining, developing, implementing and reviewing control activities regarding strategy and management of information technology (IT), managing change, be it at application or of infrastructure level, controlling security and access parameters for software and hardware, managing users and permissions, dealing with and scaling incidents, continuity of operations, storing and recovering data, monitoring operations, etc.

The rules governing all action taken in connection with the corporate information systems have been set out in the «Information Security Group Policies» and the «Information System Policies», where the principles that are to be used to efficiently manage the security of the data processed by REE's computer systems are stated, together with the assets used in the processes. These policies reflect senior management's commitment to ensuring the security of the data systems, which is also set out in various technical documents that govern the day-to-day operations of the Information Systems Department.

Consequently, the «Information Security Group Policies» and the «Information System Policies» favor the creation of a security framework which aims to establish the responsibilities and the structure of the relationship between the Requesting Units and the Information Systems Department for developing the Corporate Information Systems Management function of REE.

Furthermore, as part of the information systems control objectives, a proper separation of functions has been established, which is an essential requirement for an ICFR of the type used by REE to work efficiently, since it is vitally important to be able to ensure segregation between the person who is performing the acts associated with the processing of the financial information and the person who has to review and/or approve them. For this reason, a correct assignment of roles and profiles, for both technical staff and in positions and functions corresponding to the business areas, are key factors for the success of the process.

Internal control policies and procedures used for supervising the management of activities outsourced to third parties, as well as those aspects of assessments, calculations or valuations that are entrusted to independent experts, which may have a material effect on the financial statements.

REE is particularly concerned about operations carried out by third parties (in order to ensure that, in any key processes that might be outsourced, there is a maximum guarantee of control, regarding the standards required by REE at the level of its processes).

As a fundamental premise, it is general policy not to outsource any activity that is deemed to be significant and which might have a material effect on the financial statements to companies that do not belong to the Red Eléctrica Group.

In all cases, the outsourcing of such activities is set out in a service agreement, which clearly states the service in question and the means to be used by the service provider to provide the service.

4. Information and communication

Reporting and communication tasks carried out throughout the process for drawing up the financial information are of particular significance in Red Eléctrica's ICFR, as they must enable the staff involved in the process of drawing up the financial information to know what action criteria apply, as well as the information systems being used in these processes.

A specific function tasked with defining and updating accounting policies and resolving any queries or disputes arising as a result of their interpretation, maintaining a fluent dialog with the people responsible for operations in the organization, as well as an up-to-date accounting policies manual that is communicated to the units through which the entity operates.

The Economic Department is responsible for defining and resolving any aspect connected with the interpretation of the accounting policies, providing coverage to any area of the Company (any action is taken bearing in mind the references of the «Accounting Policies Manual»). This Department is located within the Directorate-General of Administration and Finance, which in turn reports to the Chairman of the Board of Directors himself.

The accounting policies are established on the basis of the legal framework applicable to the Company, as set out in the Commercial Code and other commercial legislation, and in the International Financial Reporting Standards adopted by the European Union.

REE has an «Accounting Policies Manual». This document, duly disseminated to the employees to whom it applies, is a benchmark for setting the guidelines and activities in the area of accounting records.

The unit responsible for maintaining this manual is the Information and Administration Department, reporting to the Economic Department.

Systems for gathering and preparing the financial information using standard formats, to be applied and used by all the units in the company or the group, which supports the main financial statements and the notes, as well as the information set out on the ICFR.

REE has the following systems:

◆ **Internal:**

- REE has formal processes for closing and preparing the information specifically associated with the financial statements (FS). In both cases, the procedures for closing and drawing up the FS mentioned above contain the guidelines for action and supervision that are developed in obtaining, analyzing and subsequently preparing the information for final approval.
- In addition there is a specific system for the entire process of preparing the Financial Statements, where the Audit Committee, which functionally reports to the Board of Directors, takes on particular significance. It is tasked with ensuring maximum guarantees for the entire process of drawing up the information (both with respect to the supervisory tasks of the Internal Audit function and by the external auditor), as a step prior to the preparation by the Board of Directors.

◆ **External:**

- At this level, REE aims to provide the external agents with true and reliable financial information about its net worth, financial situation and the result of its operations. To do this, the «Internal Code of Conduct on the Securities Market» governs these aspects, both with respect to notifications to supervisory and/or regulatory bodies, and to press releases.

5. Supervision and functioning of the system

The supervision and functioning of the system aims to take on a preventive role, in the form of different reviews and analyses and, whenever necessary, solutions to faults in the design and/or way the model works. The rules governing the hierarchical scaling of supervision and/or notifications entrusted to it are adequately set out in the «REE ICFR Manual».

Supervisory activities of the ICFR carried out by the Audit Committee, and if the company has an Internal Audit function that includes among its competencies supporting the Committee in its internal control supervisory work, including the ICFR.

Guaranteeing an up-to-date model that is in line with the reality of the business and with best practices is a critical aspect in order to achieve an efficient ICFR model that ensures that the process for drawing up the financial information is reliable and transparent.

This constant analysis and monitoring of the ICFR, detecting any faults and making the appropriate changes and improvements, is performed via the following actions:

- ◆ The Internal Audit function is a key part of the ICFR. In this connection, it carries out regular checks of the cycles contained in the ICFR in accordance with the planning set out in the Annual Audit Plan.
- ◆ Effective supervision by the Audit Committee, in relation to ultimate control over the ICFR model, delegated by the Board of Directors, and instrumented via the Internal Audit function.
- ◆ Lastly, where proposed actions are finalized and subsequently included, a design and final validation process will be set in motion, so that they may be finally included in the ICFR model.

In all this supervision process, the Internal Audit function plays a key role. Its main objectives are:

- ◆ To ensure and improve compliance with the internal controls established at the Company.
- ◆ To carry out regular checks, on a selective basis, to ensure that documents are kept up-to-date, in accordance with the provisions of the Annual Audit Plan.
- ◆ To check that actions to correct the ICFR have been properly implemented based on the provisions of the Annual Audit Plan.

To ensure that these objectives are achieved, an Annual Internal Audit Plan is established, which is supervised and approved by the Audit Committee.

Discussion procedure whereby the auditor, the internal audit function and other experts may report to senior management and to the Audit Committee or the Board of Directors on major internal control weaknesses that have been identified in the processes for reviewing the financial statements and in any other processes that may have been entrusted to them.

The objectives defined by REE's Audit Committee with respect to the supervision of the functioning of the System include ensuring that the auditor, the Internal Audit function and other experts can report to senior management and to the Board of Directors on the major internal control weaknesses that have been identified in the processes for reviewing the financial statements and in any other processes entrusted to them. In this regard, reports shall be made for each review job carried out when it is completed.

6. Other relevant information

REE has submitted its ICFR to a voluntary review since 2008. These reviews have been carried out by Deloitte, S.L.

7. External auditor's report

REE has asked DELOITTE, S.L. to review its ICFR. The report on the ICFR appears in REE's Corporate Responsibility Report.
